Awarded an American Legion Scholarship I am also an award winning author and have published numerous articles and books Having attended several colleges and universities eventually earning my Ph D in Human Behavior I hold several life credentials in education earned during many years as an educator together with years spent working in the Aerospace Industry and other occupations But to call Einsteins famous equation  $E=MC^2$  incomplete because it does not account for life and death does seem quite extraordinary yet these remain the two greatest mysteries they have ever been denying us thus far a theory of everything Something animates life and departs with death but what this something is not all our science has yet discovered though things like the Large Hadron Collider may provide needed insight and it has been in the pursuit of knowledge about these two greatest mysteries that has compelled me into so many varied academic studies and careers attempting to make sense of the world and our place in it and how people think and deal with the issues of life and death philosophically religiously and politically The things I have discovered along the way compelled me to much research and speculation about these mysteries and how they impact our lives to communicate my thoughts about them to share with others in a daily journal and posted to my website and provided in book format each year These writings are of importance in an increasingly dangerous world with a most uncertain future due to so much corruption ineptitude and lack of accountability in our own government as well as that of others the abject failure of our schools due to the very same things especially the same lack of accountability we find in government the religious and political hatreds with protracted wars worldwide and little to give hope for world peace I believed my articles about these important enough to publish in book format Some years ago I removed from the greater part of society to live in semi seclusion alone with my books and thoughts in a quiet part of the Sequoia National Forest devoting myself to contemplation speculating about many things and committing my thoughts in

writing fulltime As a writer and author given to much introspection and fascinated by human behavior nature and our universe it was important to me to simplify my life as much as possible as anyone given to philosophical speculation about many things must That much of my writing covers some metaphysical thoughts about God angels and demons an afterlife and Biblical stories of origins of prophecies of the End Times and so much more have been absorbing studies as well and I freely share my thoughts about these in this volume      *The Missing Jew* Rodger Kamenetz, 2022-08-23 Kamenetz's poems whirl and shake on the page He is the poet of the living history of unspeakable names and his book sings with dark wit the tales of tough family spirits Louise Erdrich author of *Love Medicine* and *The Night Watchman* These are very exciting and original poems a secret and almost intimate meeting place of English and Hebrew Yehuda Amichai author of *A Life of Poetry* 1948 1994 and *Open Closed Open Poems*      **Not One of Them in Place** Norman Finkelstein, 2012-02-01 *Not One of Them in Place* is the first book to examine the ways in which Jewish belief thought and culture have been shaped and articulated in modern American poetry Based on the idea that recent American poetry has gravitated between two traditions romantic and symbolist on the one hand modernist and objectivist on the other Norman Finkelstein provides a theoretical framework for reading the Jewish American canon as well as close readings of well known and less established poets including Allen Ginsberg Charles Reznikoff Louis Zukofsky Harvey Shapiro Armand Schwerner Hugh Seidman and Michael Heller *Not One of Them in Place* presents this poetry in a clear and nuanced style paying equal attention to its historical and its aesthetic dimensions      *American Yiddish Poetry* Barbara Harshav, Benjamin Harshav, 2023-09-01 This book introduces a collection of twentieth century American poetry written in Yiddish aiming to bring this rich cultural and literary heritage to a broader audience It is designed not only for those who understand Yiddish but for all readers of poetry literature and history who seek to discover new themes and texts Yiddish poetry with its roots in cities like New York Chicago Tel Aviv and Vilna engages with major Modernist trends while creating its own unique poetic world The collection emphasizes that despite the language barrier the human topics and artistic achievements of Yiddish poetry are an essential part of global cultural heritage The challenge of conveying the essence of Yiddish poetry to readers unfamiliar with the language is significant but this anthology provides translated works that aim to preserve the original's meaning and poetic form The editors through daily collaboration and the support of several translators and experts have crafted translations that offer a glimpse into the powerful imagery and themes of Yiddish verse By incorporating insights from both poetry and visual art this volume positions Yiddish poetry within the broader landscape of twentieth century American cultural expression ensuring its place in the literary canon This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986      **Till One Day the Sun Shall Shine More Brightly** Derek Pollard, 2020-01-29

Since the publication of *From the Abandoned Cities* in 1983 Donald Revell has been among the more consistent influencers in American poetry and poetics Yet his work has achieved the status it has his honors include fellowships from the National Endowment for the Arts and the Guggenheim Foundation and awards from the PEN Center USA and American Poetry Review in a manner that has often tended to belie its abiding significance This collection of essays reviews and interviews is designed to ignite a more wide ranging critical appraisal of Revell s writing from his fourteen collections of poems to his acclaimed translations of French symbolist and modernist poets to his artfully constructed literary criticism Contributors such as Marjorie Perloff Stephanie Burt Dan Beachy Quick and Bruce Bond examine key elements in and across Revell s work from his visionary postmodernism Our words can never say the mystery of our meanings but there they are spoken and meaning worlds to us to his poetics of radical attention And so a poem has nothing to do with picking and choosing with the *mot juste* and reflection in tranquility It is a plain record of one s entire presence in order to enlarge our understanding of how and why that work has come to occupy the place that it has in contemporary American letters
