The Economic and Political Development of the Sudan Francis A. Lees, Hugh C. Brooks, 1977 Economic-pol Dev Sudan/h Andrew Lees, Hugh C. Brooks, 1977 *The Economic and Political Development of the Sudan*, 1977 **Impact of Political Stability on Economic Development: Case of South Sudan** Dr. Addis Ababa Othow Akongdit, 2013-09-05

The main theme of this study is chosen in response to the general consensus on the importance of conducting a comprehensive study that may shape the economic policies and promote the business sector as well as the government and other organizations. However, the key question posed by this study is whether the theory that political stability fosters economic development is simply the wishful thinking of people who value both stability and growth or whether it is a delusion of those who believe that most developing countries may enjoy rapid growth if they are stable. The importance of this study is clear. South Sudan is confronted with enormous challenges of administrative, ethnic, political, and economic development. In light of this, the current study addresses the following issues: What is the impact of the political system in South Sudan on economic development? What is the impact of oil resources on sustainable development? What is the impact of the oil shutdown on political and economic stability and what is the possibility of deficit financing? Is there any possibility for cooperation between Sudan and South Sudan? In this context, the major objective of this study is to analyze the political development of the country to verify that political stability fosters the achievement of economic and social development. It also seeks to analyze the political history of Sudan in general and South Sudan in particular, emphasizing the importance of political stability among other considerations as a precondition for socioeconomic development. Furthermore, other objectives of the study include suggestions on how political stability could be ensured in South Sudan and how good governance may promote political and economic stability. promote political and economic stability Political and economic drivers of Sudan's armed conflict: Implications for the agri-food system Abushama, Hala, Resnick, Danielle, Siddig, Khalid, Kirui, Oliver K., 2023-10-27 This study assesses the political economy of the conflict between the Sudan Armed Forces SAF and the Rapid Support Forces RSF that brought out in April 2023 resulting in massive violence displacement and threats to food security Based on a series of key informant interviews and other secondary materials this study identifies that the primary underlying driver of the conflict relates to the rise of competition between the SAF and RSF over productive resources including within the agri food system This scenario has been facilitated by a longstanding lack of scrutiny accountability and transparency over the distribution of economic rents and commercial holdings between the two factions Additionally the capture of rents from different industries and resources has been a key contributor to the geographic expansion of the conflict As the conflict continues to rage between the two groups and their associates it continues to impose considerable impacts on different actors within the agri food system posing significant challenges to the planting season and crop production introducing blockades of trade routes and a near cessation of agro processing We discuss these aspects of the ensuing conflict in view of the uncertainty about political and economic developments and propose policy recommendations for rebuilding Sudan s agri food system holistically under different scenarios *The Political Economy of Economic Growth in Africa, 1960-2000* B.
