The Economic Development of Medieval Europe Robert-Henri Bautier,1971 The Economic Development of Medieval Europe Robert Henri Bautier,1971 An Economic History of Medieval Europe Norman John Greville Pounds,2014-06-06 A clear and readable account of the development of the European economy and its infrastructure from the second century to 1500 Professor Pounds provides a balanced view of the many controversies within the subject and he has a particular gift for bringing a human dimension to its technicalities He deals with continental Europe as a whole including an unusually rich treatment of Eastern Europe For this welcome new edition the first in twenty years text and bibliography have been reworked and updated throughout and the book redesigned and reset The Economic Development of Medieval Europe Robert-Henri Bautier,Heather Karolyi,1971-01-01 **The Economic Development of Medieval Europe. (Translated From the French by Heather Karolyi).** Robert-Henri Bautier,1971 A Social and Economic History of Medieval Europe Gerald A. Hodgett,2013-11-05 This excellent and concise summary of the social and economic history of Europe in the Middle Ages examines the changing patterns and developments in agriculture commerce trade industry and transport that took place during the millennium between the fall of the Roman Empire and the discovery of the New World After outlining the trends in demography prices rent and wages and in the patterns of settlement and cultivation the author also summarizes the basic research done in the last twenty five years in many aspects of the social and economic history of medieval Europe citing French German and Italian works as well as English Significantly this study surveys the present state of discussion on a number of on unresolved issues and controversies and in some areas suggests common sense answers Some of the problems of economic growth or the lack of it are looked at in the light of current theories in sociology and economic thought This classic text first published in 1972 makes a useful and interesting general introduction for students of medieval and economic history The Economic Development of Western Europe: The Middle Ages and the Renaissance Warren Candler Scoville,James Clayburn La Force,1969 **Modelling the Middle Ages** John Hatcher,Mark Bailey,2001-05-03 Most of what has been written on the economy of the middle ages is deeply influenced by abstract concepts and theories The most powerful and popular of these guiding beliefs are derived from intellectual foundations laid down in the eighteenth and nineteenth centuries by Adam Smith Johan von Th nen Thomas Malthus David Ricardo and Karl Marx In the hands of twentieth century historians and social scientists these venerable ideas have been moulded into three grand explanatory ideas which continue to dominate interpretations of economic development These trumpet in turn the claims of commercialization population and resources or class power and property relations as the prime movers of historical change In this highly original book John Hatcher and Mark Bailey examine the structure and test the validity of these conflicting models from a variety of perspectives In the course of their investigations they provide not only detailed reconstructions of the economic history of England in the middle ages and sustained critical commentaries on the

work of leading historians but also discussions of the philosophy and methods of history and the social sciences The result is a short and readily intelligible introduction to medieval economic history an up to date critique of established models and a succinct treatise on historiographical method An Economic History of Medieval Europe Norman John Greville Pounds,2014-06-06 A clear and readable account of the development of the European economy and its infrastructure from the second century to 1500 Professor Pounds provides a balanced view of the many controversies within the subject and he has a particular gift for bringing a human dimension to its technicalities He deals with continental Europe as a whole including an unusually rich treatment of Eastern Europe For this welcome new edition the first in twenty years text and bibliography have been reworked and updated throughout and the book redesigned and reset **Internal Colonization in Medieval Europe** Felipe Fernandez-Armesto,James Muldoon,2017-05-15 Around the year 1000 Rodulfus Glaber described France as being in the throes of a building boom He may have been the first writer to perceive the early medieval period as a Dark Age that was ending to be replaced by a better world In the articles gathered here distinguished medieval historians discuss the ways in which this transformation took place European society was becoming more stable the climate was improving and the population increasing so that it was necessary to increase food production These circumstances in turn led to the cutting down of forests the draining of wetlands and the creation of pastures on higher elevations from which the glaciers had retreated New towns were established to serve as economic and administrative centers These developments were witness to the processes of internal colonization that helped create medieval Europe
