The Economics Of International Investment:

Foreign Direct Investment and Human Development Olivier De Schutter, Johan Swinnen, Jan Wouters, 2012-11-27

This book presents original research that examines the growth of international investment agreements as a means to attract foreign direct investment FDI and considers how this affects the ability of capital importing countries to pursue their development goals The hope of countries signing such treaties is that foreign capital will accelerate transfers of technologies create employment and benefit the local economy through various types of linkages But do international investment agreements in fact succeed in attracting foreign direct investment And if so are the sovereignty costs involved worth paying In particular are these costs such that they risk undermining the very purpose of attracting investors which is to promote human development in the host country This book uses both economic and legal analysis to answer these questions that have become central to discussions on the impact of economic globalization on human rights and human development It explains the dangers of developing countries being tempted to signal their willingness to attract investors by providing far reaching protections to investors rights that would annul or at least seriously diminish the benefits they have a right to expect from the arrival of FDI It examines a variety of tools that could be used by capital exporting countries and by capital importing countries alike to ensure that FDI works for development and that international investment agreements contribute to that end This uniquely interdisciplinary study located at the intersection of development economics international investment law and international human rights is written in an accessible language and should attract the attention of anyone who cares about the role of private investment in supporting the efforts of poor countries to climb up the development ladder

Improving International Investment Agreements Armand De Mestral, Céline Lévesque, 2013-02-11 This book presents the reflections of a group of researchers interested in assessing whether the law governing the promotion and protection of foreign investment reflects sound public policy Whether it is the lack of checks and balances on investor rights or more broadly the lack of balance between public rights and private interests the time is ripe for an in depth discussions of current challenges facing the international investment law regime Through a survey of the evolution in IIA treaty making and an evaluation from different perspectives the authors take stock of developments in international investment law and analyze potential solutions to some of the criticisms that plague IIAs The book takes a multidisciplinary approach to the subject with expert analysis from legal political and economic scholars The first part of the book traces the evolution of IIA treaty making whilst the other three parts are organised around the concepts of efficiency legitimacy and sustainability Each contributor

analyzes one or more issues related to substance treaty negotiation or dispute resolution with the ultimate aim of improving IIA treaty making in these respects Improving International Investment Agreements will be of particular interest to students and academics in the fields of International Investment Law International Trade Law Business and Economics *The Foundations of International Investment Law* Zachary Douglas, Joost Pauwelyn, Jorge E. Viñuales, 2014-05-01 International investment law is one of the fastest growing areas of international law It has led to the signing of thousands of agreements mostly in the form of investment contracts and bilateral investment treaties Also in the last two decades there has been an exponential growth in the number of disputes being resolved by investment arbitration tribunals Yet the legal principles at the basis of international investment law and arbitration remain in a state of flux Perhaps the best illustration of this phenomenon is the wide disagreement among investment tribunals on some of the core concepts underpinning the regime such as investment property regulatory powers scope of jurisdiction applicable law or the interactions with other areas of international law The purpose of this book is to revisit these conceptual foundations in order to shed light on the practice of international investment law It is an attempt to bridge the growing gap between the theory and the practice of this thriving area of international law The first part of the book focuses on the infrastructure of the investment regime or more specifically on the structural arrangements that have been developed to manage foreign investment transactions and the potential disputes arising from them The second part of the book identifies the common conceptual bases of an array of seemingly unconnected practical problems in order to clarify the main stakes and offer balanced solutions The third part addresses the main sources of regime stress as well as the main legal mechanisms available to manage such challenges to the operation of the regime Overall the book offers a thorough investigation of the conflicting theoretical positions underlying international investment law testing their worth by reference to concrete issues that have arisen in the jurisprudence It demonstrates that many of the most important practical questions arising in practice can be addressed by a carefully dosed resort to theory

International Investment Law and EU Law Marc Bungenberg, Joern Griebel, Steffen Hindelang, 2011-01-18 The entry into force of the Lisbon Treaty entails sweeping changes with respect to foreign investment regulation Most prominently the Treaty on the Functioning of the European Union TFEU now contains in its Article 207 an explicit competence for the regulation of foreign direct investment as part of the Common Commercial Policy CCP chapter With this new competence the EU will become an important actor in the field of international investment politics and law The new empowerment in the field of international investment law prompts a multitude of questions This volume analyzes in depth the new post Lisbon situation in the area of investment policy provokes further discussion and offers new approaches **Globalization and International Investment** Fiona Beveridge, 2017-07-05 This volume brings together a broad range of articles on international law and foreign investment which together provide a contemporary overview of the diverse range of issues and perspectives which continue to exercise policy makers and scholars alike Central to this collection is the tension between

market oriented reforms on the one hand raising issues of market access and protection of investors and corporate social responsibility discourses on the other raising concerns about environmental protection and respect for human and labour rights Regional perspectives on these issues reveal differing priorities and approaches **The Law of Investment Treaties**

Jeswald W. Salacuse, 2021-02-18 Investment treaties grant special international protection to foreign investors and give them a means to enforce those rights against States in which they have invested This book systematically examines the law of international investment treaties particularly with respect to its origins structure content and effects Although the precise provisions of investment treaties are not uniform virtually all investment treaties address the same issues This book examines those issues in detail including the scope of application conditions for the entry of foreign investment and general standards of treatment of foreign investments Investment treaty law has continued to evolve rapidly and dramatically since publication of the second edition of this work in 2015 The field has seen considerable growth in the number and scope of investment treaties now estimated at 3300 and investor state arbitrations cases which reached over 1000 in 2020 The field has also experienced significant changes and reforms In 2018 eleven Pacific Basin Countries despite the withdrawal of the United States forged ahead to conclude the Comprehensive and Progressive Agreement for Trans Pacific Partnership CPTTP a potentially far reaching regional trade and investment agreement The next year the three north American nations replaced the North American Free Trade Agreement NAFTA with the United States Mexico Canada Agreement USMCA And in 2020 European Union member states terminated over 100 intra EU BITs leaving intra EU investors to rely on EU law and legal processes alone for protection from unfavourable government acts This edition of The Law of Investment Treaties incorporates a consideration of all of these and other reforms into its analysis of the body of law created by investment treaties since World War II

Future Foreign Investment SEA Nick J. Freeman, Frank L. Bartels, 2012-11-12 This book explains the dynamics behind Southeast Asia's foreign investment activity and looks at the region's options for reviving its reputation as an attractive host for foreign investors Each chapter focuses on a key element together they portray southeast Asia's foreign investment profile and prospects By bringing these key interlocking elements together under a single cover the book aims to provide a more profound understanding of the challenges southeast Asian countries face in their on going attempts both to attract new foreign investment inflows and to continue hosting substantial existing foreign invested assets
