

The Economics Of Marx Selected Readings Of Exposition And Criticism

**Michael Charles Howard, John Edward
King**

The Economics Of Marx Selected Readings Of Exposition And Criticism:

The Economics of Marx Michael Charles Howard, John Edward King, 1976 Marxist Political Economy and Marxist Urban Sociology Kieran McKeown, 1987-02-16 Marxian Political Economy B. Milward, 2000-07-05 This book challenges the notion that the Marxian approach is no longer relevant to the problems of contemporary society in the post Soviet world. The first part of the book deals with the distinctive method of Marx's political economy with an emphasis on its origins and the problems that arise out of misinterpretations of Capital. The second section applies this method to some of the key contemporary issues including unemployment, globalization and the crisis of the welfare state and suggests that the approach of Marxist political economy remains a highly relevant and intellectually sound method of analysis. Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory. In addition nine major entries cover each of the major disciplines: political economy, management and business, human geography, politics, sociology, law, psychology, organizational behavior and the history and development of the social sciences in a broader sense. *Routledge Library Editions: China Under Mao* Various, 2021-06-23 This 13 volume collection of previously out of print titles reissues some key works in the study of Mao Zedong's huge influence on China: its politics, economics and development into the power that it is today. Foreign policy, the Cultural Revolution, the fate of opponents, Chinese Marxist thought, all are covered here and more in this essential reference resource. **A New Economic Theory of Public Support for the Arts** Arnaldo Barone, 2015-12-14 Should the arts receive public support? Can the arts survive in a modern capitalist society? Can economics shed light on the nature of public support and whether there is a rationale for public intervention? This book undertakes to examine these questions as it explores the ways government and public resources are used to support the arts. This book applies a Veblenian approach to understanding economic development to investigate public support for the arts in an effort to determine whether this approach can elucidate economic rationales for public support. Divided into three parts, the first provides basic information on public support for the arts by surveying support in the United States and Australia. Part two includes a neoclassical overview of the topic while part three presents Veblen's ideas on economic development. This book will be of interests to researchers concerned with cultural and institutional economics as well as political economy. **Theories Of Comparative Political Economy** Ronald H Chilcote, 2018-02-05 Professor Chilcote has written an extraordinary comprehensive comparison of mainstream liberal views and alternative radical views of history, development, class, government and democracy. This book will be extremely valuable to both students and scholars. Howard Sherman, University of California, Riverside. *Theories of Comparative Political Economy* builds on the proposition that the study of politics and economics has evolved into political economy in a number of significant ways and that the new issues and ideas that became prominent in the 1980s and 1990s will carry on into the new millennium. This book is a sequel to Chilcote's *Theories of*

Comparative Politics Westview 1981 which was substantially revised and published in a second edition in 1994 **Chinese Marxism in Flux 1978-84** Bill Brugger, 2018-09-18 This book first published in 1985 considers the state of Marxist thought in China at the time a time when the country's leadership appeared more concerned with attaining modernisation and economic development than Marxist theory It considers the problems that Chinese Marxist intellectuals were facing and relates them to the actions of the political leadership The Gang of Four their utopianism and dogmatism had been denounced and this book argues that rather than being in retreat Chinese Marxism was in fact enjoying a productive period **A Marxist Mosaic** Jairus Banaji, 2024-07-01 Historical materialism as Marx understood this was always an integrated conception or field of research not one divided into separate disciplines The essays gathered in this volume are a remarkable example of how this works across a wide range of subjects as diverse as agrarian history capitalism Hegel's influence on Marx and class struggles in India They were written over some fifty years of both activism and academic work embodying Banaji's lifelong engagement with Marxist theory His recent papers on merchant capitalism can also be found here along with a biographical sketch that sets all of his work in context *Conversations with Post Keynesians* J. King, 1994-12-19 This book contains conversations with fifteen prominent Post Keynesian economists on the current state of economic theory and policy and how both might be improved Among those interviewed are major economists in Britain North America and Austria including Paul Davidson Basil Moore Victoria Chick Geoff Harcourt and Kurt Rothschild who express their opinions on the strengths and weaknesses of Post Keynesian theory and on the relations between Post Keynesian thinking and the views of other dissident schools

The Economics Of Marx Selected Readings Of Exposition And Criticism Book Review: Unveiling the Power of Words
