The Economist as Reformer James Clifford Miller, 1989 **The State of Community Banking** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs. Subcommittee on Financial Institutions and Consumer Protection, 2011 **Dispositiv und Ökonomie** Rainer Diaz-Bone, Ronald Hartz, 2017-05-10 Der vorliegende Band bietet einen aktuellen Überblick über die Vielzahl neuerer sozialwissenschaftlicher Forschungen zur Bedeutung Funktion und Theorie von Dispositiven in und für die Ökonomie. Denn die Ökonomie ist instrumentiert. Organisationen und Märkte sind durchzogen und ausgestattet mit Objekten. Materialitäten, Technologien, Diskursen und Subjektivierungsweisen, deren spezifische Verknüpfungen die Ökonomie hervorbringen. Für die Analyse der Dispositive muss Ökonomie daher notwendig transdisziplinär gefasst werden, gerade um die bisher weitgehende Ausblendung von Dispositiven in der Analyse von Märkten und Organisationen zu überwinden und diese durch neuartige theoretische, aber auch vielfältige methodologische Zugänge zu erschließen. Diese Erschließung der materiellen und immateriellen Ausstattung der Ökonomie erfolgt nun nicht nur transdisziplinär, sondern auch international. Der Band präsentiert Beiträge von Forschenden aus Deutschland, Frankreich, Großbritannien und der Schweiz.

Selected Acquisitions Robert Crown Law Library, 1989 *The Abolition of Antitrust* Gary Hull, 2005 The essays in this book present a sustained economic, historical, moral, and legal broadside against the various federal statutes known as antitrust doctrine. They explode the cherished myths underlying the antitrust laws and expose their intellectual fountainhead in a morality of self-sacrifice that is incompatible with individual rights, free enterprise, and objective law. With the publication of this text, businessmen, lawyers, economists, policy makers, legislators, and judges finally have access to a systemic critique of the antitrust laws. From here on, if antitrust continues to violate the rights of businessmen and to ravage the American economy, it is not for lack of knowing how and why. Adam Mossoff, Assistant Professor of Law, Michigan State University. *The Abolition of Antitrust* asserts that antitrust laws, on economic, legal, and moral grounds, are bad and provides convincing evidence supporting arguments for their total abolition. Every year, new antitrust prosecutions arise in the U.S. courts, as in the cases against 3M and Visa MasterCard, as well as a number of ongoing antitrust cases, such as those involving Microsoft and college football's use of the Bowl Championship Series (BCS). Gary Hull and the contributing authors show that these cases, as well as the Sherman Anti-Trust Act itself, are based on an erroneous interpretation of the history of American business, premised on bad economics. They equivocate between economic and political power: the power to produce versus the power to use physical force. For Hull, anti-trust prosecutions are based on a horrible moral inversion: that it is acceptable to sacrifice America's best producers. The contributors explain how key antitrust ideas, for instance, monopoly, restraint of trade, and anticompetitive behavior, have been used to justify prosecution and then make clear why those ideas are false. They sketch the historical, legal, economic, and moral reasoning that gave rise to the passage and growth of antitrust legislation. All of the theoretical points in this volume are woven around a number of fascinating cases, both historical and current, including

the Charles River Bridge Alcoa General Electric and Kellogg General Mills This is a dynamic and accessible work that is not simply a polemical argument for a particular policy position Designed for the uninformed but educated layman The Abolition of Antitrust also makes positive arguments in defense of wealth creation business and profit explains the proper role of government and offers a rational view of the meaning of contract and economic freedom Gary Hull is director of the Program on Values and Ethics in the Marketplace VEM at Duke University and has taught philosophy and business ethics at the Fuqua School of Business Whittier College and the Claremont Graduate School He is coeditor of The Ayn Rand Reader

Antitrust and the Triumph of Economics Marc Allen Eisner, 2017-11-01 Some of the chief aims of President Ronald Reagan's economic agenda were to reduce the regulatory burden minimize state intervention and reinvigorate market mechanisms Toward these ends his administration limited antitrust enforcement to technical cases of price fixing invoking the doctrine of the Chicago school of economics In Antitrust and the Triumph of Economics Marc Eisner shows that the so called Reagan revolution was but an extension of well established trends He examines organizational and procedural changes in the Antitrust Division of the Department of Justice and the Federal Trade Commission that predated the 1980 election and forced the subsequent redefinition of policy During their early years the Antitrust Division and the FTC gave

little attention to economic analysis In the period following World War II however economic analysis assumed an increasingly important role in both agencies and economists rose in status from being members of support staff to being pivotal decision makers who in effect shaped the policies for which elected officials were generally assumed to be responsible In the 1960s and 1970s critical shifts in prevailing economic theory within the academic community were transmitted into the agencies This had a profound effect on how antitrust was conceptualized in the federal government Thus when Ronald Reagan became president in 1981 the antitrust agencies were already pursuing a conservative enforcement program Eisner's study challenges dominant explanations of policy change through a focus on institutional evolution It has important implications for current debates on the state professionalization and the delegation of authority Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Choice*, 1989

The Limits of Neoliberalism William Davies, 2016-11-16 Brilliant explains how the rhetoric of competition has invaded almost every domain of our existence Evgeny Morozov author of *To Save Everything Click Here* In this fascinating book Davies inverts the conventional neoliberal practice of treating politics as if it were mere epiphenomenon of market theory demonstrating that their version of economics is far better understood as the pursuit of politics by other means Professor Philip Mirowski University of Notre Dame A sparkling original and provocative analysis of neoliberalism It offers a distinctive account of the diverse sometimes contradictory conventions and justifications that lend authority to the extension of the spirit of competitiveness to all spheres of social life This book breaks new ground offers new modes of critique and points to post neoliberal futures Professor Bob Jessop University of Lancaster Since its intellectual inception in the 1930s and its political emergence in the 1970s neo liberalism has sought to disenchant politics by replacing it with economics This agenda setting text examines the efforts and failures of economic experts to make government and public life amenable to measurement and to re model society and state in terms of competition In particular it explores the practical use of economic techniques and conventions by policy makers politicians regulators and judges and how these practices are being adapted to the perceived failings of the neoliberal model By picking apart the defining contradiction that arises from the conflation of economics and politics this book asks to what extent can economics provide government legitimacy Now with a new preface from the author and a foreword by Aditya Chakraborty
