Hicks, 2008-12-22 The Culture of Soft Work examines American writers' responses to human resource management and motivational techniques in the workplace through readings of postmodern novels and a diverse range of other canonical and popular texts Story of American Freedom Eric Foner, 1999-09-07 Freedom is the cornerstone of his sweeping narrative that focuses not only congressional debates and political treatises since the Revolution but how the fight for freedom took place on plantation and picket lines and in parlors and bedrooms *Capitalists Against Markets* Peter Swenson, 2002 Peter Swenson's study implies that contrary to popular wisdom the welfare state builders in the USA and Sweden during the 1930s were motivated by a pragmatism founded in capitalist interests and preferences *McCarthyism* Jonathan Michaels, 2017-04-21 In this succinct text Jonathan Michaels examines the rise of anti communist sentiment in the postwar United States exploring the factors that facilitated McCarthyism and assessing the long term effects on US politics and culture McCarthyism The Realities Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life giving readers a rich understanding of this era of postwar American history Including primary documents and a companion website Michaels text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War The CIO's Left-led Unions Steven Rosswurm, 1992 The American labor movement seemed poised on the threshold of unparalleled success at the beginning of the post World War II era Fourteen million strong in 1946 unions represented 35 percent of non agricultural workers and federal power insured collective bargaining rights The contrast with the pre war years was strongest for those workers who retained vivid memories of the 1920s and early 1930s Then the labor movement lacked government legitimacy and at the worst point of the Great Depression the union movement barely enrolled 5 percent of the non farm workforce one out of every four workers lacked a job Now the future seemed to hold unlimited possibilities
