Hill,2023 In this lucid original and comprehensive work the articulated approaches to pedagogy are based on specific conceptions of human nature Drawing on a vast range of Chomsky s prodigious output in linguistics politics biology cognitive science and education Hill highlights two fundamental elements of Chomsky s understanding of human nature and uses these elements as the foundation of a highly creative approach to pedagogy The originality of the work is apparent in the way the author identifies how key ideas in Chomsky s linguistics and political discourse are rooted in a liberatory approach to education The value of the work lies in its practical nature Even though it makes reference to ideas in various academic disciplines the work s overall value is reflected in the way ideas relate to Hill s personal teaching experiences and how they apply in a concrete classroom setting The reader is offered a practical and highly creative way to apply Chomsky s understanding of human nature in a classroom setting **A Different Touch** Judith A.
