McMurray-Branscombe,2018-11-29 No one can deny that friendships are powerful relationships of influence Why not
strategically incorporate friendship within a philosophy of leadership People long for relational models of leadership yet few
specific methodologies have been developed This book examines the friendship of God with humanity and the leadership of
Jesus with his disciples to whom he declared I no longer call you servants Instead I have called you friends John 15 15 In
response to this enduring example of the Divine bringing together both friendship and leadership this book presents an
unexplored model of leadership for the Christian practitioner Friendship Leadership The authors of Friendship Leadership
share research historical examples and their personal experiences with this leadership model as they describe both the trials
and triumphs Through this process the book addresses the primary barriers a leader might experience when utilizing the
Friendship Leadership model Finally the authors offer a guide for how to incorporate friendship into their leadership
strengthening others as they follow the example of our great Leader The result is a transformational way of leading that
nurtures relationships Free to Succeed Steve Diggs,1993 Everywhere we turn there are Christian success manuals but
often their advice is contradictory sometimes advising that God wants you to have it all at other times calling us to a life of
self denial Free to Succeed explores a road less traveled a road that leads to what real success is all about
