The Encyclopaedia Of Islam Fascicule 155156 Encyclopedia Of Islam Fascicule 155156:

A History of the Encyclopaedia of Islam Peri Bearman, 2018-03-15 A History of The Encyclopaedia of Islam is the back story of the decisions that shaped the preeminent reference work in the field of Islamic Studies and of the labor that went into it a story that has not yet been told It is a record of a monumental century long project undertaken by the greatest scholars of its time of friendships and rivalries and of the extraordinary circumstances in which it took shape As a product of and a contribution to a century s evolving view of Islamic history civilization and religion this history sheds light onto the world of academia of the individual scholars who contributed to the encyclopedia s success and of a time Europe before and after two world wars and an age of publishing that dramatically changed in its lifetime *The Encyclopaedia of Islam* Clifford Edmund Bosworth, 1989-01-01 **The Encyclopaedia of Islam, New Edition** Peri J. Bearman, 2000

Democratization and Islamic Law Johannes Harnischfeger, 2008 When democracy was introduced to Nigeria in 1999 one third of its federal states declared that they would be governed by sharia or Islamic law This work argues that such a break with secular constitutional traditions in a multireligious country can have disastrous consequences *The Encyclopaedia of Islam, New Edition* Jos M. J. M. Lent, 1995 **Arabic-Islamic Views of the Latin West** Daniel G. König, 2015-11-05 Arabic Islamic Views of the Latin West provides an insight into how the Arabic Islamic world perceived medieval Western Europe in an age that is usually associated with the rise and expansion of Islam the Spanish Reconquista and the Crusades Previous scholarship has maintained that the Arabic Islamic world regarded Western Europe as a cultural backwater at the periphery of civilization that clung to a superseded religion It holds mental barriers imposed by Islam responsible for the Muslim world s arrogant and ignorant attitude towards its northern neighbours This study refutes this view by focussing on the mechanisms of transmission and reception that characterized the flow of information between both cultural spheres By explaining how Arabic Islamic scholars acquired and processed data on medieval Western Europe it traces the two fold emergence of Latin Christian Europe a sphere that increasingly encroached upon the Mediterranean and therefore became more and more important in Arabic Islamic scholarly literature Chapter One questions previous interpretations of related Arabic Islamic records that reduce a large and differentiated range of Arabic Islamic perceptions to a single basic pattern subsumed under the keywords ignorance indifference and arrogance Chapter Two lists channels of transmission by means of which information on the Latin Christian sphere reached the Arabic Islamic sphere Chapter Three deals with the general factors that influenced the reception and presentation of this data at the hands of Arabic Islamic scholars Chapters Four to Eight analyse how these scholars acquired and dealt with information on themes such as the western dimension of the Roman Empire the Visigoths the Franks the papacy and finally Western Europe in the age of Latin Christian expansionism Against this background Chapter Nine provides a concluding re evaluation *The Encyclopaedia of Islam* E. J. van Donzel, 1998 *Historical Dictionary of Morocco* Thomas K. Park, Aomar Boum, 2006-01-16 The Kingdom of

Morocco achieved its independence in 1956 after over 40 years as a French protectorate. Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s. In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the U S. Morocco of the past and present are covered in this second edition of the Historical Dictionary of Morocco. A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events. Hundreds of cross referenced dictionary entries on former rulers, current leaders, ancient capitals, significant locations, influential institutions, and crucial aspects of the economy, society, culture, and religion form the core of the book. A bibliography of sources is included to promote further more specialized study. **The Muslim World Book Review**, 1997
