Encyclopedia of Drug Policy Mark A. R. Kleiman, James E. Hawdon, 2011-01-12 Request a free 30 day online trial to this title at www.sagepub.com/freetrial Spanning two volumes of approximately 450 entries in an A to Z format this encyclopedia explores the controversial drug war through the lens of varied disciplines A full spectrum of articles explains topics from Colombian cartels and Mexican kingpins to television reportage from just say no advertising to heroin production and from narco terrorism to more than 500 billion in U S government expenditures Key Themes Cases Conferences and Conventions Countries Affecting U S Drug Policy Drug Trade and Trafficking Laws and Policies Organizations and Agencies People Presidential Administrations Treatment and Addiction Types of Drugs **Big Fat Liars** Morris E. Chafetz, 2005-07-03 These days you can't turn on a television without hearing that you're probably fat engaged in unhealthy behavior failing to get sufficient exercise destroying the environment through the use of practically every product that makes your life more convenient and likely to fall victim to just about everything and everyone around you But not only are the statistics that prove these points based on false information much of our national dialogue is dictated by this patently bad science encouraged solely by public and private organizations that leverage these demonstrably untrue facts to bolster their own philosophies and fatten their own pocketbooks With mounds of solid evidence that contradicts common thought Morris Chafetz shows the lies behind the facts about today's big issues for instance the obesity epidemic we hear so much about is the result not of a fatter population but instead a change in bookkeeping in a federal agency and the evidence used now to frighten us about global warming was used a generation ago to frighten us about global cooling and encourages readers to look through the money motivated facade of statistics and government controls and return to a strong attitude of personal responsibility
