WATCH THE SKIES PEEBLES CURTIS,1994-03-17 On June 24 1947 pilot Kenneth Arnold flew from Chehalis Washington on his way to Yakima As he headed toward Mt Rainier he witnessed nine peculiar disk or saucer shaped aircraft flying in a line at incredible speed Arnold s attempts to contact the authorities resulted in front page news stories that referred for the first time to flying saucers Watch the Skies chronicles the arrival and invasion of the UFO myth in American popular culture Curtis Peebles recounts in detail the record of sightings contacts and abductions over nearly fifty years among them The Classics of 1948 the Invasion of Washington and the famous swamp gas sighting that led to the Condon Report Drawing on sources ranging from Air Force files to pulp magazines to popular movies such as Close Encounters of the Third Kind Peebles shows how mania about UFOs took hold of society in different ways Peebles shows how supposed eye witness accounts published in the late 1940s and early 1950s pulp magazines like Amazing Stories and True led decades later to wild ravings about underground bases where aliens waited to enslave humanity and about treaties between the government and aliens On another level Peebles shows organizations were established to try to induce the Air Force as the official government arm that investigated claims of UFOs to release alleged hard evidence of an alien presence A skeptic with an encyclopedic knowledge of UFO lore and history Peebles critically assesses the past record and more recent claims involving cattle mutilations abductions Air Force test flights of UFOs and the existence of a mach 8 superplane called Aurora This thoroughly researched

Rereading a book or reviewing old documents after ten or twenty years is a rewarding experience You will discover new data and ideas you didn't notice before The reason of course is that you are in many ways not the same person reading the book the second or third time Hopefully you have advanced in knowledge experience intellectual and spiritual discernment A good starting point is to reread the contactee classics material of the 1960s in order to understand the deeper mystery involved in what happened during that era The 1960 book entitled Flying Saucers And The U S Air Force by Lt Colonel Lawrence J Tacker was anti UFO but it is essential because it contains many items of interest including a collection of letters from civilians and a reproduction of Air Force UFO regulations and press releases The author was the official Air Force spokesman on UFOs in 1960 at the Pentagon⁴ This book was published at the same time as Donald Keyhoe's Flying saucers Top secret 1960 and Keyhoe is mentioned several times This book is a facsimile reproduction of the original printed text in shades of gray Because this material is culturally important we have made it available as part of our commitment to protect preserve and promote knowledge in the world This book has been formatted from its original version for publication IMPORTANT although we have attempted to maintain the integrity of the issues accurately the present reproduction could have missing and blurred pages poor pictures due to the age of the original scanned copy Because this material is culturally important we have made it available as part of our commitment to protect preserve and promote knowledge in the world Please copy and paste the link for our books <https://saucerianbooks.blogspot.com> **The World of Flying Saucers** Lyle Boyd, Donald Menzel, 2021-11-02 Annotated with Mr Menzel's Biography Both as scientists and as devotees of science fiction we have long been interested in space travel When reports of unidentified flying objects began to increase in the years between 1947 and 1952 one of us D H M collected and studied the limited information available about the sightings He soon concluded with a slight feeling of disappointment that the flying saucers were not vehicles from other worlds but were only mundane objects and events of various kinds some of them commonplace some familiar chiefly to meteorologists physicists and astronomers At a conference with Air Force officials in Washington in April 1952 he presented his idea that planetary mirages sundogs reflections and other astronomical atmospheric and optical phenomena probably accounted for a large percentage of the mysterious UFOs This suggestion met with strong skepticism from some of the conferees who at that time were sympathetic to the interplanetary hypothesis and were of course better acquainted with military than with physical science Other conferees however wished to consider and test the theories offered Proof obviously required a knowledge of all the facts of a given sighting facts that often were not available to the public The Air Force therefore granted access to the file of UFO cases At the same time since many of the cases were then classified as secret the Air Force imposed the condition that security regulations must be strictly observed D H M was then preparing a book to present his explanations of flying saucers Acceptance of the Air Force offer with the accompanying restriction would have prevented his publishing analyses based on material in the files It would also have hindered any future public discussion of the UFO problem For these reasons he felt

compelled to decline the opportunity In the spring of 1959 as we began planning the present book we again requested permission to study the Air Force records of UFO sightings This time the officials generously opened their files to us without restriction Thus we have been able to include detailed studies of particular incidents to give the explanations found for most of them by Air Force investigators to explain the causes of some hitherto unsolved cases and to suggest highly probable solutions for several classic Unknowns To discuss each one of the thousands of unidentified flying objects reported during the last fifteen years is obviously impossible We have therefore chosen to describe the common types of sighting and to analyze some of the representative and most interesting cases in each category In general we have avoided using the names of the persons involved but when the names are well known to the flying saucer public and have previously appeared in print we have felt no obligation to disguise them Many persons have contributed to the material in this book Members of the United States Air Force have generously helped us to collect the basic facts and have shown amazing patience in answering hundreds of small questions of detail In particular we wish to thank Col Philip G Evans Col Edward H Wynn Lt Col William T Coleman Lt Col Robert J Friend Lt Col Lawrence J Tacker Major Carl R Hart and Sgt David Moody
