National Symbols in Modern Iran Menahem Merhavy, 2019-12-03 Now more than ever the role of icons and monuments in shaping a national identity is a subject of vital importance to scholars of both nationalism and memory studies While the nation state undoubtedly has a powerful influence on a society's cultural memory it cannot necessarily control the ways in which icons are perceived Once created national symbols and perceptions of them take on a life of their own Taking an innovative approach to the study of Iranian nationalism Merhavy examines the way symbols from Iran's past have played an important role in the struggles between political religious and ideological movements over legitimacy in the last five decades Using a rich variety of primary sources he traces the process by which these symbols have been appropriated rejected and reinterpreted by the Pahlavi state the Islamic opposition and finally the Islamic Republic In doing so this volume contributes to our understanding of cultural symbols that survive political upheavals dramatic and significant as they may be It also contributes to the growing body of literature that challenges the state centered perspective of much research on modern Iran by exposing the ever growing importance of civil society in the Iranian public sphere from the second half of the twentieth century onward *The Shifting Sands of Educational Philosophy in India* KHRITISH SWARGIARY, 2025-05-01 The

journey of a nation is often charted through the evolving philosophies that guide its progress and nowhere is this more evident than in the realm of education As India transitioned from the throes of colonialism to the promise of self determination the imperative to forge a cohesive equitable and progressive educational system became paramount This book *The Shifting Sands of Educational Philosophy in India A Critical Analysis of the National Policies on Education 1968 1986 2020* embarks on a critical exploration of this very trajectory not merely as a chronological recounting of policy documents but as a deep dive into the underlying intellectual currents and societal forces that have shaped and been shaped by these landmark pronouncements Our endeavor distinguishes itself by moving beyond a descriptive account of the three National Policies on Education NPEs Instead we adopt a unique lens one that scrutinizes these policies through the prism of evolving educational philosophies We contend that each NPE those of 1968 1986 and its subsequent modification in 1992 and 2020 is not a discrete entity but rather a reflection of the dominant socio political zeitgeist and the prevailing ideas about the purpose and practice of education By situating these policies within their specific historical contexts we aim to unravel the intricate dance between societal aspirations political ideologies and the formulation of educational blueprints This book seeks to answer fundamental questions that lie at the heart of India s educational journey What were the core philosophical underpinnings that informed each policy How did the socio political landscape of the time marked by its own unique challenges and opportunities mold these philosophies And crucially how did these policies in turn aspire to shape the very fabric of Indian society By meticulously examining the underlying ideologies the intended societal outcomes and the practical implications of each policy we illuminate the threads of continuity the points of divergence and the moments of radical reorientation that mark India s educational evolution To achieve this nuanced understanding the book is structured in three distinct yet interconnected parts Part I Laying the Foundation Context and Theoretical Framework sets the stage by tracing the early debates and influences that led to the first NPE introducing the key philosophical concepts that will serve as analytical tools throughout our exploration It also establishes the theoretical lenses drawing from sociological political and philosophical perspectives that will enable a rigorous and multifaceted analysis Finally this section provides a crucial historical overview of the socio political landscape of India from independence to 2020 underscoring the dynamic context within which these policies were conceived and implemented Part II Deconstructing the National Policies on Education delves into the heart of our inquiry dedicating individual chapters to each of the three NPEs For each policy we undertake a detailed examination of its philosophical underpinnings key provisions the socio political context of its formulation the challenges and successes of its practical implementation and a critical assessment of its internal logical reasoning This structured approach allows for a thorough and comparative understanding of each policy in its own right Finally Part III Comparative Analysis and Future Directions draws together the threads of our analysis Through a comparative lens we identify the continuities and discontinuities across the three NPEs in terms of their philosophical orientations focus areas

proposed structural changes emphasis on equity and social justice and the envisioned role of the state and private sector The concluding chapter synthesizes our key findings reflects on the enduring legacy of these policies and offers insights into the potential future trajectories of educational policy in India addressing critical questions about the extent of goal attainment persistent challenges the potential impact of NEP 2020 and alternative philosophical approaches that could inform future directions The strength and originality of this book lie in its consistent application of philosophical frameworks to dissect the policies moving beyond mere descriptive analysis to offer a deeper and more nuanced understanding By explicitly linking the policies to the prevailing socio political contexts we provide a richer and more historically grounded analysis Furthermore our approach is inherently critical evaluating the underlying assumptions internal logic and practical implications of each policy The comparative perspective adopted throughout the latter part of the book illuminates the evolution of educational thinking in India and identifies crucial turning points in its trajectory This work is grounded in theoretical rigor drawing upon established theories of education sociology and political science It seeks to be practical by examining the implementation challenges and real world impact of the policies Above all it strives for logical reasoning analyzing the internal consistency and the anticipated consequences of the proposed strategies within each policy in relation to their stated aims Maintaining a scholarly tone and grounding our analysis in historical documents policy texts and existing scholarly literature we aim to contribute a well researched and insightful perspective to the ongoing discourse on Indian education We trust that this critical engagement with the National Policies on Education will offer valuable insights for academics policymakers educators and anyone invested in understanding the forces that have shaped and will continue to shape the educational landscape of India

Khritish Swargiary **Journal of Historical Research** ,1978 Insights and Commentaries: South and Central Asia
Ms Anita Sengupta,Mr Mirzokhid Rakhimov,2015-08-15 This volume emerged out of a search for scholarship that has studied connectivity between South and Central Asia from a variety of perspectives Geographically and culturally the vision that India has had of the region she referred to as Central Asia is of a space extending across China westward upto the Aral Sea and including within it Balkh Bukhara and Samarkand The Indian fascination with the region extends to various levels as this is the region out of which invading tribes entered India across whose Silk Routes trade flourished and also the region where Indian culture and religion spread Keeping this in mind the volume begins with an overview of positions from which the region has been traditionally situated from the Indian perspective as also reflections on the current scenario in terms of the geopolitical transformations of recent times It then moves on to examine the history of the political cultural and economic connections between the two regions from comparative perspectives Written by specialists from Uzbekistan the articles reflect on connections that had ancient roots and shared historical experiences The first set of articles focus on the historical linkages between the two regions Another set looks at similar developments in the region in terms of transformations in the socio political life of the people as also in the economy Encounters and the necessity of security cooperation between the two

regions is the focus of a third set of articles The second part of the volume looks into certain issues that are significant in both South and Central Asia Written with Uzbek insight they reflect on Soviet and post Soviet state policies on a range of issues from gender and maternity policies ethnic policies and social stratification information policy and policies related to global organizations that have comparable relevance in the Indian context
