ENCHANTED
GLASS

Britain and Its Monarchy

NEW EDITION

'An ambitious and ruthless dissection of the most
down-market comic opera of our age.'

Sunday Times

TOM NAIRN

The Enchanted Glass Britain And Its Monarchy

Ian Haywood

The Enchanted Glass Britain And Its Monarchy:

The Enchanted Glass Tom Nairn, 2011-11-07 In this acclaimed study of British statehood identity and culture Tom Nairn deftly dispels the conviction that the Royal Family is nothing more than an amusing relic of feudalism or a mere tourist attraction Instead he argues that the monarchy is both apex and essence of the British state the symbol of a national backwardness In this fully updated edition Nairn's powerful and bitterly comic prose lays bare Britain's peculiar pseudo modern national identity which remains stubbornly fixated on the Crown and its constitutional framework the parliamentary sovereignty of Westminster *The Making of English National Identity* Krishan Kumar, 2003-03-13 Why is English national identity so enigmatic and so elusive Why unlike the Scots Welsh Irish and most of continental Europe do the English find it so difficult to say who they are *The Making of English National Identity* first published in 2003 is a fascinating exploration of Englishness and what it means to be English Drawing on historical sociological and literary theory Krishan Kumar examines the rise of English nationalism and issues of race and ethnicity from earliest times to the present day He argues that the long history of the English as an imperial people has as with other imperial people like the Russians and the Austrians developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism Professor Kumar's lively and provocative approach challenges readers to reconsider their pre conceptions about national identity and who the English really are *The Enchanted Glass* Tom Nairn, 1990 **The Oxford Handbook of Modern British Political History, 1800-2000** David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges **First Comes Love** Shelley Cobb, Neil Ewen, 2015-08-27 Examines media treatment of power couples and celebrity relationships **Young Elizabeth** Kate Williams, 2015-11-15 We can hardly imagine a Britain without Elizabeth II on the throne It seems to be the job she was born for And yet for much of her early life the young princess did not know the role that her future would hold She was our accidental Queen Elizabeth's determination to share in the struggles of her people marked her out from a young

age Her father initially refused to let her volunteer as a nurse during the Blitz but relented when she was 18 and allowed her to work as a mechanic and truck driver for the Women s Auxiliary Territorial Service It was her forward thinking approach that ensured that her coronation was televised against the advice of politicians at the time Kate Williams reveals how the 25 year old young queen carved out a lasting role for herself amid the changes of the 20th century Her monarchy would be a very different one to that of her parents and grandparents and its continuing popularity in the 21st century owes much to the intelligence and elusive personality of this remarkable woman *Nineteenth Century Prose* ,1997 **The Politics of the British Constitution** Michael Foley,1999 The Politics of the British Constitution provides the first major assessment of the properties dynamics and implications of the new area of political exchange **The Rise of Victorian Caricature** Ian Haywood,2020-03-17 This book serves as a retrieval and reevaluation of a rich haul of comic caricatures from the turbulent years between the Reform Bill crisis of the early 1830s and the rise and fall of Chartism in the 1840s With a telling selection of illustrations this book deploys the techniques of close reading and political contextualization to demonstrate the aesthetic and ideological clout of a neglected tranche of satirical prints and periodicals dismissed as ineffectual by historians or distasteful by contemporaries The prime exhibits are the work of Robert Seymour and C J Grant giving acerbic comic edge to the case for reform against class and state oppression and the excesses of the monarchical regime under the young Queen Victoria **An Introduction to Political Theory** John Hoffman,Paul Graham,2013-09-13 This book provides an engaging and intellectually challenging introduction to political ideologies while at the same time giving an accessible route into the subject for those new to politics Supported by an outstanding companion website it has strong claims to be the best undergraduate textbook on ideologies on the market Dr Mike Gough University of East Anglia Introduction to Political Theory is a text for the 21st century It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape Bringing together classic and contemporary political concepts and ideologies into one book this new text introduces the major approaches to political issues that have shaped the modern world and the ideas that form the currency of political debate Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively contentious and relevant This thoroughly revised and updated second edition contains new chapters on global justice and political violence as well as an expanded treatment of globalisation and the state A wide range of pedagogical features helps to clarify extend and apply students understanding of the fundamental ideologies and concepts This is comprised of Case studies demonstrate how political ideas concepts and issues manifest in the real world Focus boxes encourage students to appreciate alternative viewpoints A range of thought provoking photographs challenge students to examine concepts from a different angle Suggestions for further reading and weblinks are also provided to help students to further their understanding Introduction to Political Theory is accompanied by an innovative website with multiple choice questions biographies of key figures in political theory further

case studies and an innovative how to read feature which helps students get to grips with difficult primary texts
