**The Sermon without End** Ronald J. Allen, Prof O. Wesley Allen JR., 2015-10-20 A New Model for Post Apologetic Preaching in a Pluralistic World The relationship between preaching and the public sphere has long been debated Three different theological approaches tend to dominate the discussion In different ways these approaches take into account the movement from the modern mindset of the mid to late 20th century to the emerging postmodern worldview In *The Sermon without End* authors Allen Allen thoughtfully offer a fourth option one that in their view has not received much attention but which offers a distinct and especially helpful perspective It is a new and dynamic conversational model reaching beyond the earlier work of Tillich and Tracy In this homiletical framework conversation takes place in multiple directions between the text or tradition and the world today It is preaching in conversation not just toward but with voices from the public sphere The book provides a solid foundation for understanding this post apologetic approach but it importantly goes on to offer practical real pulpit guidance for implementation in a preaching ministry It is a book for both scholars and practicing preachers who wish to reach people in meaningful and significant ways and in ways that make sense for today This book deserves to be widely applauded It provides a post apologetic lens to illuminate the history of various modern homiletical discourses even as it envisions a postmodern one I strongly recommend this book for homileticians preachers and lay people alike Duse Lee Boston University School of Theology Reviewed in Homiletic

Postcolonial Theory and Autobiography David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial

Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze, and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience, investigation, and knowledge. The sudden call to the race to the hospital, the high stakes operation, the drama of transplant surgery is well known. But what happens before and after the surgery? In *Transplanting Care*, Laura L. Heinemann examines the daily lives of midwestern organ transplant patients and those who care for them from pretransplant preparations through to the long posttransplant recovery. Heinemann points out that as efforts to control healthcare costs gain urgency and as new surgical techniques, drug therapies, and home medical equipment advance, most of the transplant process now takes place at home among kin. Indeed, the transplant system effectively depends on unpaid care labor typically provided by spouses, parents, siblings, and others. Drawing on scores of interviews with patients, relatives, and healthcare professionals, Heinemann follows a variety of patients and loved ones as they undertake this uncertain and strenuous transplant journey. She also shows how these home-based caregiving efforts take place within the larger economic and political context of a paucity of resources for patients and caregivers who ultimately must surmount numerous obstacles. The author concludes that the many snags encountered by transplant patients and loved ones make a clear case for more comprehensive health and social policy that treats care as a necessarily shared public responsibility. An illuminating look at the long transplant journey, *Transplanting Care* also offers broader insight into how we handle infirmity in America and how we might do a better job of doing so. **Queer Race** Ian Barnard, 2004. One of the first extended and theoretically informed investigations of queer theory's racial inscription, *Queer Race* understands race as inextricably sexualized, as sexuality is always racially marked. The book critically and playfully explores intellectual and political deployments of the term 'queer' in gay pornographic videos about South Africa, contemporary literary representations of interracial gay desire, the writings of Gloria Anzaldúa, and Jeffrey Dahmer's criminal trial. Through these explorations, *Queer Race* charts a framework for understanding the race of queer theory that both tests queer theory's limits and suggests its future interrelations with anti-racist work. **New Theatre**
