What's Up 2007: 365 Days of Skywatching Tammy Plotner, 2007 **What's Up 2006 - 365 Days of Skywatching** Jeff Barbour, Tammy, Jeff Plotner Barbour, 2006-03 What's Up 2006 365 Days of Skywatching presents the highlights you can see in the night sky for every day in 2006 With a small telescope binoculars and sometimes just your eyes you'll track down features on the Moon planets meteor showers bright and double stars open and globular clusters and distant galaxies

Astronomers Tammy Plotner and Jeff Barbour are your guides to the wonders of the night sky **Roman Republican Augury** Lindsay G. Driediger-Murphy, 2019-03-07 Roman Republican Augury Freedom and Control proposes a new way of understanding augury a form of Roman state divination designed to consult the god Jupiter Previous scholarly studies of augury have tended to focus either upon its legal constitutional effects or upon its role in maintaining and perpetuating Roman social and political structures This volume makes a new contribution to the study of Roman religion politics and cultural history by focusing instead upon what augury can tell us about how Romans understood their relationship with their gods Augury is often thought to have told Romans what they wanted to hear This volume argues that augury left space for perceived expressions of divine will which contradicted human wishes and that its rules and precepts did not permit human beings to create or ignore signs at will This analysis allows the Jupiter whom Romans approached in augury to emerge as not simply a source of power to be channelled to human ends but a person with his own interests and desires which did not always overlap with those of his human enquirers When human will and divine will clashed it was the will of Jupiter which was supposed to prevail In theory as in practice it was the Romans not their supreme god who were bound by the auguries and auspices *The Modern UFO/UAP Researcher's Handbook* Anthony F.
