The present time requires us to interact with other people either digitally or physically for business, education, social or personal purposes. This fact itself is enough to present the importance of English in our life. Governments, educational boards, universities and institutions have made sure that English remains an important part of the curriculum. Kids accept English as one of their major subjects since the beginning of their education. For years they learn about various segments of the English language with a constant increase in complexity. There are taught grammar, sentence formation, word power, pronunciation and writing paragraphs in English. It is logical to assume that all these students will easily be able to converse in English, but that is the pain point. Most people with a native language other than English have difficulty communicating with others in spoken English. It is ironic to know that a person with the ability to write in English and well conversant in grammar rules would struggle to speak in English fluently. But this truth is faced by a large percentage of people who aspire to speak fluent English. Where is the problem? The problem is in realizing the truth about learning languages. English is the second language for most people except native English speakers in countries like England, the United States of America, Australia and Canada. The difficulty of learning a second language is that it is learned by keeping the native language at the foundation. This means that English will be learned with reference from their native language like translations, similarities in syntax, grammar rules, words and sentence formations. It is also dependent on the education system which focuses on training grammar rules, translations and written English. It is assumed that spoken English will come naturally to the students, sadly that never happens. It is easy to find students in English medium schools and colleges struggling to present a topic in English. Most will avoid interactions in English using the native language as the fundamental language of communication. Another fact is known to all: one of the top skills required to get any decent job is fluency in spoken English. The solution is the realization that spoken and written English have equal importance but must be taught differently. The methodology specified in the book is based on the philosophy that the language should be taught and learned like the native speaker, just the way we learned our native language. The idea will be explained and discussed in detail in the coming chapters. **THE INDIAN LISTENER** All India Radio (AIR), New Delhi, 1942-03-07 The Indian Listener fortnightly programme, journal of AIR in English published by The Indian State Broadcasting Service Bombay started on 22 December 1935 and was the successor to the Indian Radio Times in English which was published beginning in July 16 of 1927. Neutrosophic Interpretation of Tao Te Ching (中道主义 — 中道主义), English-Chinese Bilingual Florentin Smarandache & Fu Yuhua, The purpose of this book is to extend the foundation and application range of Tao TeChing The reasons for this are as follows Firstly we are willing to point out that Tao TeChing already has some limitation because many questions we are interested in cannot be answered within Tao Te Ching For example Tao Te Ching basically discussed the matters in China however considering all possible situations it should matter in foreign countries as well i e the global village This was impossible in Lao Tzu s time Secondly if the original Tao Te Ching is regarded as Positive Tao Te Ching its opposite is Negative Tao TeChing while the intermediate or compound state is Neutral Tao Te

Ching Thus our book presents the way to extend the original Tao Te Ching in various neutrosophic interpretations In a same way it is possible to neutrosophically interpret any theory T in any field positive T negative T and Neutrosophic T TTT T

Traditional Christian Ethics David W. T. Brattston, 2014 Traditional Christian Ethics features two exhaustive alphabetical lists of affirmative commandments and prohibitions from the earliest Christian ethics as found in writers before the mass apostasy of 249-251 AD The affirmatives or positives list consists of what Christians are were commanded or encouraged to do The other list is of negatives or prohibitions i.e. what Christians are were discouraged from doing similarly arranged The source material for the work encompasses far more than the ten volume Ante Nicene Fathers edited by Roberts and Donaldson It also draws from all writings of the period Christian Jewish and pagan available in English or French translation plus a few Latin translations Some translations have been published only in scholarly journals and some only in the twenty first century Volumes Two and Three form a single exhaustive alphabetical list of affirmative commandments or precepts including mental attitudes i.e. what Christian ethics commanded or encouraged according to writers on Christian ethics before 250 AD Using earlier drafts of this set of books Dr Brattston's articles and booklets synthesizing early and contemporary Christianity have been published by a wide variety of denominations and ministries in every major English speaking country He hopes readers will use them as a starting point for writing articles papers and sermons of their own

Freedom from Stammering Anshuman Sharma, 2022-07-04 Can stammering be defeated to become a good speaker The answer is yes Stammering will be defeated and you will reach the pinnacle of success if you believe in yourself and are ready to put in the required efforts How will this happen Stammering is due to anxiety triggered by the psychological fear of letters and words It means that your subconscious mind has accepted the fact that you will not be able to speak a specific letter or word It becomes a belief making it real You stammer If you get rid of this faulty thinking from your subconscious mind then your anxiety would diminish automatically to make you a better speaker without speech impediments Note the following points Stammering is a habit It is triggered automatically The problem of stammering can be solved by getting freedom from faulty habits We will share the ideas exercises and techniques of the people who have successfully defeated their stammering in the past and become good speakers with professional success and satisfaction It is said that stammering is a rigid habit that does not easily leave a person Stories abound about the years of struggle with stammering without results Even if the intensity of stammering is reduced slightly it tends to bounce back even harder After several failed efforts people accept their fate of living a life with a speech handicap We do not guarantee that everyone following this book will be able to cure their stammering completely The main objective is to present a large number of exercises techniques and ideas which have worked for other people and were responsible for developing their communication skills and personality and helping them to defeat their stammering to a certain extent In some cases stammering was cured to 99% while in other cases it was 70% 75% 85% 92% and so on This journey is going to be long and hard The stammering is not going to be cured immediately or show

any signs of abating for several months But if the efforts are consistent and hard the stammering would slowly weaken and start to loosen its grip on the person This is the fundamental objective of this book We hope that many people around the world would benefit from this collection of ideas and techniques If you want to fight your stammering with full force this book will stand with you in your struggle If you have high expectations from yourself and believe that you will be able to defeat your psychological fear of stammering then let us start the journey to better speaking without speech handicap Boethius as a Paradigm of Late Ancient Thought Thomas Böhm, Thomas Jürgasch, Andreas Kirchner, 2014-10-10 Boethius gehört zu den herausragenden Denkern der spätantiken Geistesgeschichte Anders als man vielleicht meinen würde ist diese Sicht auf Boethius in der Forschung allerdings nicht unumstritten und verhältnismäßig neu Sie lässt eine Tendenz zur Neubewertung erkennen die nicht nur Boethius sondern auch das Denken seiner Zeit immer mehr in seiner Eigenständigkeit zu würdigen beginnt So werden Boethius wie auch die Spätantike immer weniger nur als Instanzen der Vermittlung klassisch antiken Wissens in das christliche Mittelalter angesehen Worin aber besteht die Originalität des Boethius und des durch ihn wesentlich geprägten spätantiken Denkens Kann die Spätantike als eine eigene geistesgeschichtliche Epoche betrachtet werden Wie ist sie dann zu charakterisieren Inwiefern ist Boethius als eine oder vielleicht sogar die paradigmatische Gestalt der Spätantike zu beschreiben Diesen und weiteren Fragen gehen die Autorinnen und Autoren des vorliegenden Sammelbandes nach **Exalting Jesus in Hosea, Joel, Amos, Obadiah** Allan Moseley, Jonathan Akin, 2025-02-01 Exalting Jesus in Hosea Joel Amos Obadiah is part of the Christ Centered Exposition Commentary series Edited by David Platt Daniel L Akin and Tony Merida this commentary series takes a Christ centered approach to expositing each book of the Bible Each chapter explains and applies key passages providing helpful outlines for study and teaching
