Specter Of Genocide Mass Murder In Historical Perspective:

The Specter of Genocide Robert Gellately, Ben Kiernan, 2003-07-07 Genocide mass murder and human rights abuses are arguably the most perplexing and deeply troubling aspects of recent world history This collection of essays by leading international experts offers an up to date comprehensive history and analyses of multiple cases of genocide and genocidal acts with a focus on the twentieth century The book contains studies of the Armenian genocide the victims of Stalinist terror the Holocaust and Imperial Japan Several authors explore colonialism and address the fate of the indigenous peoples in Africa North America and Australia As well there is extensive coverage of the post 1945 period including the atrocities in the former Yugoslavia Bali Cambodia Ethiopia Rwanda East Timor and Guatemala The book emphasizes the importance of comparative analysis and theoretical discussion and it raises new questions about the difficult challenges for modernity constituted by genocide and other mass crimes

Ordinary People as Mass Murderers O. Jensen, C. Szejnmann, 2008-11-03 Since the 1990s scholars have focused heavily on the perpetrators of the Holocaust and have presented a complex and diverse picture of perpetrators This book provides a unique overview of the current state of research on perpetrators The overall focus is on the key question that it still disputed How do ordinary people become mass murderers

Confronting Tyranny Toivo Koivukoski, David Tabachnick, 2005-12-22 Motivated by the reentry of tyranny into political discourse and political action this new collection of essays compares ancient and contemporary accounts of tyranny in an effort to find responses to current political dilemmas and enduring truths Identified by Plato and Aristotle as the worst kind of regime the concept of tyranny was called into question during the Enlightenment and finally rejected in the 20th century as questions of good and evil were separated from facts the proper domain for political science However in our globally interconnected world tyrants are no longer dangerous solely to their subjects and neighbors but to all Confronting Tyranny brings together distinguished scholars to explore the lessons of classical political philosophy for the present political crisis of understanding and action

The Order of Genocide Scott Straus, 2013-01-14 The Rwandan genocide has become a touchstone for debates about the causes of mass violence and the responsibilities of the international community Yet a number of key questions about this tragedy remain unanswered How did the violence spread from community to community and so rapidly engulf the nation Why did individuals make decisions that led them to take up machetes against their neighbors And what was the logic that drove the campaign of extermination According to Scott Straus a social scientist and former journalist in East Africa for several years who received a Pulitzer Prize nomination for his reporting for the Houston Chronicle many of the widely held beliefs about the causes and course of genocide in Rwanda are incomplete They focus largely on the actions of the ruling elite or the inaction of the international community Considerably less is known about how and why elite decisions became widespread exterminatory violence Challenging the prevailing wisdom Straus provides substantial new evidence about local patterns of violence using original research including the most comprehensive surveys

yet undertaken among convicted perpetrators to assess competing theories about the causes and dynamics of the genocide Current interpretations stress three main causes for the genocide ethnic identity ideology and mass media indoctrination in particular the influence of hate radio Straus s research does not deny the importance of ethnicity but he finds that it operated more as a background condition Instead Straus emphasizes fear and intra ethnic intimidation as the primary drivers of the violence A defensive civil war and the assassination of a president created a feeling of acute insecurity Rwanda s unusually effective state was also central as was the country s geography and population density which limited the number of exit options for both victims and perpetrators In conclusion Straus steps back from the particulars of the Rwandan genocide to offer a new dynamic model for understanding other instances of genocide in recent history the Holocaust Armenia Cambodia the Balkans and assessing the future likelihood of such events [Making Sense of Mass Atrocity](#) Mark Osiel,2009-07-31 This book trenchantly diagnoses the law s limits in making sense of mass atrocity *Mass Trauma and Emotional Healing around the World* Ani Kalayjian,Dominique Eugene,2009-11-19 A remarkable team of expert authors provide firsthand accounts from survivors of disasters around the globe helping readers to understand the impact of trauma as well as interventions to heal Around the world scores of those who survive disasters have demonstrated a remarkable resilience that enables them to live happy productive lives *Mass Trauma and Emotional Healing around the World* Rituals and Practices for Resilience and Meaning Making documents the unique yet universal reaction to traumatic events and sets the agenda for future development of therapeutic interventions research and theory An integrative approach to rituals and healing methods is highlighted to address and help prevent human made traumas and prepare generations to cope with natural disasters in a more effective way Chapters focus on rituals and practices for resilience after mass trauma showing among other findings that storytelling music humor and a belief in fate help people survive disasters worldwide [Norbert Elias in Troubled Times](#) Florence Delmotte,Barbara Górnicka,2021-08-02 This edited collection brings together texts that discuss current major issues in our troubled times through the lens of Norbert Elias s sociology It sheds light on both the contemporary world and some of Elias s most controversial concepts Through examination of the current affairs political and social contemporary changes the authors in this collection present new and challenging ways of understanding these social processes and figurations Ultimately the objective of the book is to embrace and utilise some of the more polemical aspects of Elias s legacy such as the exploration of decivilizing processes decivilizing spurts and dys civilization It investigates to what extent Elias s sociological analyses are still applicable in our studies of the developments that mark our troubled times It does so through both global and local lenses theoretically and empirically and above all by connecting past present and possible futures of all human societies **The Wiriyamu Massacre** Mustafah Dhada,2020-02-20 Using interviews as primary sources this book shines a light on the infamous Portuguese massacre of Wiriyamu in colonial Mozambique in 1972 Twenty four carefully curated testimonies are presented covering Portugal s last colonial war in Mozambique and the

nationalist response that led to the massacre Survivors share with you their escape from Wiriyamu while data collectors priests and journalists tell of their struggle to collect evidence and defend the truth about the killings in the international press The Wiriyamu Massacre contextualizes the unique importance of the oral evidence it contains and reveals the in depth interview methods used to gather the oral testimonies and subsequently curate the transcript into readable texts This is the horrific story of Wiriyamu and what it can tell you about European colonialism genocide and the darkness in humanity spoken by the people who were there and who tried to tell the world **The Oxford Handbook on Atrocity Crimes**

Barbora Holá,Hollie Nyseth Nzitaira,Hollie Nyseth Brehm,Maartje Weerdesteijn,2022 The Oxford Handbook on Atrocity Crimes surveys and further develops the evolving field of atrocity crime studies through interdisciplinary research on war crimes crimes against humanity and genocide in one comprehensive volume encompassing contributions of leading scholars

Beyond the Racial State Devin O. Pendas,Mark Roseman,Richard F. Wetzell,2017-11-16 The racial state has become a familiar shorthand for the Third Reich encapsulating its raison d tre ambitions and the underlying logic of its genocidal violence The Nazi racial state s agenda is generally understood as a fundamental reshaping of society based on a new hierarchy of racial value However this volume argues that it is time to reappraise what race really meant under Nazism and to question and complicate its relationship to the Nazis agenda actions and appeal Based on a wealth of new research the contributors show that racial knowledge and racial discourse in Nazi Germany were far more contradictory and disparate than we have come to assume They shed new light on the ways that racial policy worked and was understood and consider race s function content and power in relation to society and nation and above all in relation to the extraordinary violence unleashed by the Nazis
