Spinoza en 90 minutos Paul Strathern,2015-02-20 El brillante sistema metafísico de Spinoza no se deriva de la realidad ni de la experiencia Partiendo de unos supuestos básicos y a través de una serie de pruebas presentadas al estilo de la geometría construye un universo que es también Dios una sola cosa en sí constituyendo así el ejemplo clásico de panteísmo Aunque su sistema parece extraño hoy las conclusiones de Spinoza están en profundo acuerdo con el pensamiento moderno desde la ciencia la ética holística de los ecologistas actuales hasta la política la idea de que el Estado existe para proteger al individuo El sistema de Spinoza y sus conclusiones poseen una belleza cautivadora sin igual en la historia de la filosofía En *Spinoza en 90 minutos* Paul Strathern expone de manera clara y concisa la vida e ideas de uno de los grandes pensadores racionalistas del siglo XVII El libro incluye una selección de sus escritos una breve lista de lecturas sugeridas para aquellos que deseen profundizar en su pensamiento y cronologías que sitúan a Spinoza en su época y en una sinopsis más amplia de la filosofía

or editor and internally cross referenced in the case of anthologies and replies this bibliography cites its own sources where appropriate and in many cases provides details on how to obtain out of print titles and unpublished dissertations Additionally it restores or corrects a good deal of earlier bibliographic detail and beginning with titles from the mid 1800s presents the citations in a uniform style This second edition adds hundreds of citations including dozens of titles hitherto overlooked thus bringing the total to nearly 2700 on the main level with hundreds of secondary references to later editions and reprints It also provides an index and occasionally an abstract when the author's title inadequately describes the contents As the only source of its kind this bibliography is an indispensable reference tool for research libraries and individual scholars concerned with the life and works of Spinoza Wayne Boucher's introduction is augmented by a preface by Professor Manfred Walther the most complete bibliography of works in English on Spinoza enlarged corrected and improved from first edition with numbered entries uniquely comprehensive current and authoritative numbered entries and subject title index for easy reference

The European Philosophers from Descartes to Nietzsche Monroe Beardsley, 2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography
