

Telling Our Stories

the fox came every evening to my door
asking for nothing. my fear
trapped me inside, hoping to dismiss her
but she sat till morning, waiting.

at dawn we would, each of us,
rise from our haunches, look through the glass
then walk away.

did she gather her village around her
and sing of the hairless moon face,
the trembling snout, the ignorant eyes?

child, i tell you now it was not
the animal blood i was hiding from,
it was the poet in her, the poet and
the terrible stories she could tell.

People Will Talk John Whitfield, 2011-10-04 How to get a good reputation deserved or not and why we care what other people think Why does a fish only bite another fish if no one else is watching Why do people

overshare online Why do some people meet trivial insults with extreme violence Why do so many gods have multiple eyes In People Will Talk science writer John Whitfield shows how reputation helps answer all of these questions and more What is the secret to getting a good reputation Unfortunately there's more to reputation than being a good person or being good at what you do Your reputation belongs to other people and it's created by what they say about you behind your back You have a good reputation only if you have a strong social network a large and close knit network of friends family and allies to spread good news about you and shout down ugly rumors If you've ever wondered why we care about the lives of celebrities why young men publicly upload to the Internet pictures of themselves engaged in drunken or dangerous antics how to make the honor system a little more widely honored how to keep politicians honest or what keeps gossip going reputation will give you a clue Almost from the moment we are born we are trying to work out whom we can trust and trying to make others think the best of us We carry on doing so throughout life even when we don't realize it every time we meet another person in business friendship or romance every time we read celebrity gossip and every time we tweak our Facebook profiles Whether you're buying a car or selling one looking for a job or hiring asking someone out on a date or deciding whether to accept the invitation reputation matters Read People Will Talk and discover how to polish your own reputation understand what you hear about others and make the most of both *Simon & Schuster Mega Crossword Puzzle Book #15* John M.

Philosophy For, With, and Of Children Monica B.

Glina, 2014-09-26 On one level Philosophy for Children P4C exists takes place and is understood as a set of relatively theory neutral practices we share a story or other kind of stimulus that is both meaningful and philosophically problematic we raise questions about it that will help us inquire into what is problematic we inquire together as a community of philosophical inquiry mostly through a process of dialogue we explore ways to experiment with these dialogical judgments in writing in works of art in action and in life and we self assess our own thinking and our work as a community of inquiry in order to collectively self correct On another level P4C exists takes place and is understood as a set of theory laden and agenda laden practices that are undertaken as means to certain kinds of desired outcomes These are the program s aims and objectives and they come from three places the core practices inherent in P4C those that have become obvious to practitioners or have developed out of extensive practice and those that have developed out of philosophical and empirical research in philosophy and education including epistemology learning theory argumentation theory and the politics of discourse and political theory This last kind of work presents the challenge to P4C to find out if there is such a thing as a core theory that justifies the core practices and if so whether the integrity offered by such a theory is either shored up or compromised by being pulled in any of these other directions The diversity of curriculum materials pedagogical protocols and grounding theories P4C has spawned signifies not merely different approaches to but different conceptions of what it means to teach philosophy to children or to engage children in philosophical practices The chapters in *Philosophy For With and Of Children* present a broad range of directions for P4C and illustrate the considerable diversity of agendas that can be brought to it as well as the ways in which these agendas sometimes complement and sometimes undermine one another
