LaHaye, 2014-12-05 Who am I What makes me do the things I do Timeless guestions You ve asked them as have philosophers and theologians for thousands of years In Spirit Controlled Temperament Tim LaHaye provides answers patterned after ancient models of human behavior and grounded in the Word of God making this a classic read for all Christians Temperament You re born with distinct strengths but also weaknesses that can hold you back God wants to transform your natural weaknesses to make you a dynamic effective Christian who lives above anger fear depression and selfishness In Spirit Controlled Temperament find out who you are predominantly Sanguine Choleric Melancholy or Phlegmatic But more important find out who you can become Christian Faith and the Welfare of the City Johnston R. McKay, 2008 <u>Delusion?</u> Andrew Sims, 2009-03-09 Is faith delusion Is religion bad for your health How in a scientifically and technologically advanced age can people still believe in God spirit other Clearly not all believers are primitive and ill educated an alternative explanation is that they must be mad or at least severely neurotic as suggested by Freud This book starts by looking at and giving reasons for the connection and the division between Christian faith and psychiatry It asks whether science challenges Christians involved with psychiatry as patients or professionals and whether the spiritual needs of patients are recognised The author examines the scope and use of the neuro sciences and considers cause and effect natural selection and determinism He explores the overlap and the difference between psychiatric symptoms and religious belief the possible association between demon possession and mental illness and the idea that some people are intrinsically religious and some are not The variations of personality are examined with their implications for belief Posited as a statement that faith is delusion is always hostile but outcome studies reviewed here show that in general religious belief and practice convey good mental health Religious faith and mental illness are different and their concepts come from different world views A consideration of them in relation to each other is long overdue The author is a former Professor of Psychiatry and President of the Royal College of Psychiatrists and has also been Chairman of their Spirituality and Psychiatry Special Interest Group so is exceptionally well qualified to address the subject Although the book is technically proficient it is aimed at the general reader and is illustrated with stories brief case histories and anecdotes Twentieth-Century Lutheran Theologians Mark C.
