Temporal Eternal:

The Christian Understanding of History Eric Charles Rust, 2002 Short description The conception of world history is rooted in Christianity The Christian faith proclaims God's special revelation through His Son as the key to historical meaning How does this Salvation History relate to the complex events of our historical existence *Kierkegaard* Alastair McKinnon, 1982-11-08 Recently a conference of scholars considered resources and results in Kierkegaard research In part one Resources J C McLelland gives a short account of the acquisition of the Malantschuk collection by McGill University H P Rohde discusses the collection as a basis for research and H Moller comments on its accessibility to scholars N J Cappelrn examines the importance of the Papirer as a resource In part two Results H V Hong analyzes Kierkegaard's concept of Thought Experiment relating it to Kierkegaard translation J Walker elucidates four of Kierkegaard's assumptions concerning communication and notes the difficulties these pose for creating real human community M Cargignan's paper presents the concept of the eternal as a synthesizing force acting upon body soul and spirit H A Nielsen distinguishes between two levels of indirect communication in Mark 6 45 52 and calls attention to the significance of this distinction for understanding Kierkegaard The last two essays present the results of computer research at McGill A H Khan explores the concept of passion in Concluding Unscientific Postscript and A McKinnon offers a spatial representation of the relations among Kierkegaard's thirty four works The volume containing responses by R L Perkins R Archer P Carpenter D Lochhead D Goicoechea and R Johnson will be of interest to Kierkegaard Philosophy and religion scholars and those engaged in computer research in the humanities **The Works of Thomas Goodwin, D.D.** Thomas Goodwin (D.D.), 1863 **The Works of Thomas Goodwin** Thomas Goodwin, 1863 *German 20th Century Philosophical Writings* Wolfgang Schirmacher, 2003-05-15 Includes Gunther Anders Victims of Aggression Hannah Arendt From the Life of the Mind Ernst Bloch On Fine Arts in the Machine Age From The Principle of Hope Karl Jaspers Existential Philosophy Albert Schweitzer Philosophy of Civilization Karl R Popper An Optimistic View of Our Age Ludwig Wittgenstein From Philosophical Investigations and more The Moving Image G. D. Yarnold, 2025-01-06 Research scientist and university teacher Anglican clergyman and warden of a great theological library the author had previously lectured and written extensively on religious and scientific questions In The Moving Image originally published in 1966 he deals with a number of related problems some old and some new on the borderland where science philosophy and theology meet How does our sense of time arise and what does it mean Is the universe an accident and human life without purpose or is a doctrine of creation a necessary counterpart to the teachings of evolution What does it mean in a scientific age to claim that the eternal God works out his purpose in cosmic and organic process revealing himself in human history Does the classical doctrine of the Incarnation do justice to Christ's involvement as a human person in the travail of the real world as we know it These and other questions are looked at afresh in the light of a carefully articulated understanding of the relation of time to eternity which draws together the contributions of the ancient world the

insights of existentialists and linguistic philosophy and the most recent trends in natural science On this basis skilfully argued and cogently presented the author examines the problems of divine omniscience in relation to human freewill and neurophysiological determinism and deals in a fresh manner with the great questions of Christology and the hope of eternal life The result is a work of fascinating interest in which bold metaphysical views are advanced with full awareness of the pitfalls to which such thinking was exposed at the time Of interest to philosophers and theologians at the time as well as the lay reader today it can be read in its historical context **Whitehead at Harvard, 1924-1925** Brian G.

Henning,2019-11-27 In these newly commissioned essays leading Whitehead scholars ask a range of important questions about Whitehead s first year of philosophy lectures Do these lectures challenge or confirm previous understandings of Whitehead s published works What is revealed about the development of Whitehead s thought in the crucial period after London but before the publication of *Science and the Modern World* What should we make of concepts and terms that were introduced in these lectures but were never incorporated into subsequent publications Also included is the text of Whitehead s first lecture at Harvard recently gifted to the Critical Edition allowing for a clearer understanding of Whitehead s plans and goals for his first course of lectures in philosophy than has previously been possible Spiritual Tensions Bob

Summa Theologiae, Prima Pars: Volume 2, On the Holy Trinity and Creation in General, QQ 27-74 Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 When Leo XII promulgated Aeterni Patris in 1879 he stipulated that the Leonine or official edition of the Summa should always be printed in conjunction with Cajetan's Commentary For five hundred years they were studied together Generations were trained by reading through the Summa article by article with Cajetan's commentaries in hand Early printed editions of the Summa typically included them in a Talmudic arrangement as marginal text running around each article by Aquinas This edition imitates that example Recently serious thinkers of all denominations and none have found new reasons to be interested in St Thomas His text is deceptively simple yet important issues are handled in every article sometimes below the surface Cajetan extracts these hidden issues and explains and elaborates on them with remarkable affinity to modern analytical philosophy Part of that affinity lies in the use of modal logic a tool whose importance was overlooked between the Renaissance and the twentieth century The time is ripe for an analytically inspired translation of Thomas hence this volume Never until now has Cajetan's Commentary been put into English in its entirety William Marshner's translation is consistent with fidelity to the technical force of the original The translator's footnotes acknowledge what empirical science has made obsolete in the work of St Thomas and also make clear how much today's science would have saved Thomas useless labor This volume will for the first time make Cajetan's help available to the modern reader **Eternity and Time's Flow** Robert Cummings Neville, 1993-07-01 Neville returns eternity to the center of consideration by analyzing the obsessive culture that attempts to get along denying it and he analyzes the nature of time's flow itself the nature of divine eternity and the subtle problems of personal immortality He argues that time and eternity constitute one topic and that therefore time itself is beyond understanding beyond personal grasp and beyond civilized orientation without a proper comprehension of eternity [Whitehead's Radically Temporalist Metaphysics](#) George Allan, 2020-03-05 In Whitehead's Radically Temporalist Metaphysics Recovering the Seriousness of Time George Allan argues that Whitehead's introduction of God into his process metaphysics renders his metaphysics incoherent This notion of God who is the reason for both stability and progressive change in the world and who is both the infinite source of novel possibilities and the everlasting repository for the finite values inserts into a reality that is supposedly composed solely of finite entities an entity both infinite and everlasting By eliminating this notion of God Allan draws on the temporalist foundation of Whitehead's views to recover a metaphysics that takes time seriously By turning to Whitehead's later writings

Allan shows how this interpretation is developed into an expanded version of the radically temporalist hypothesis emphasizing the power of finite entities individually and collectively to create sustain and enhance the dynamic world of which we are a creative part *A Treatise on the Difference Between Temporal and Eternal* Juan Eusebio Nieremberg,1833

No One Like Him John S. Feinberg,2006-04-26 Many contemporary theologians claim that the classical picture of God painted by Augustine and Aquinas is both outmoded and unbiblical But rather than abandoning the traditional view completely John Feinberg seeks a reconstructed model one that reflects the ongoing advances in human understanding of God s revelation while recognizing the unchanging nature of God and His Word Feinberg begins by exploring the contemporary concepts of God particularly the openness and process views and then studies God s being nature and acts all to articulate a mediating understanding of God not just as the King but the King who cares Part of the Foundations of Evangelical Theology series

Inquiring about God: Volume 1, Selected Essays Nicholas Wolterstorff,2010-02-04 Inquiring about God is the first of two volumes of Nicholas Wolterstorff s collected papers This volume collects Wolterstorff s essays on the philosophy of religion written over the last thirty five years The essays which span a range of topics including Kant s philosophy of religion the medieval or classical conception of God and the problem of

evil are unified by the conviction that some of the central claims made by the classical theistic tradition such as the claims that God is timeless simple and impassible should be rejected Still Wolterstorff contends rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known Of interest to both philosophers and theologians Inquiring about God should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners *Christ, the Way* Benjamin T.

Quinn,2022-03-16 The Son of God is the wisdom of God Augustine's love of wisdom drove him to Christ and wisdom remained central to his thought Modern biblical scholars and theologians have much to learn from one of Christianity's most prominent and prolific theologians Retrieval of Augustine can revive and renew thinking on wisdom In *Christ the Way* Benjamin T Quinn recovers and evaluates Augustine's rich writing on wisdom While many have acknowledged sapientia wisdom as central in Augustine few have offered a full treatment of his definition of wisdom and how it ordered his thought Quinn remedies this need tracing the development of Augustine's thought from his earliest reflections to *De Trinitate* his most systematic treatment of wisdom For Augustine sapientia is the incarnate Christ who by the Spirit enlightens all God's people to see clearly live virtuously and participate in God thereby restoring his people to his image Quinn then brings Augustine into dialogue with contemporary wisdom scholarship displaying where his biblically rooted Christocentric faith first approach holds rich insights for scholars and Christians today **"Believing Thinking, Bounded Theology"** Cynthia Bennett

Brown,2016-01-28 Surprisingly little attention has been given in recent scholarship to the work of Emil Brunner 1889 1966 one of the leading neo orthodox theologians of the twentieth century But his influence on modern theology persists to this day offering a path to philosophical truth through faith In *Believing Thinking Bounded Theology* Cynthia Bennett Brown explores the nature of and limits to theological thinking in Brunner's work What results from this study is an encounter with a thoroughly biblical warmly pastoral carefully intellectual and insistently Christocentric exposition of the Christian faith that remains relevant for theology and life today Lovers in Essence Sharon Krishek,2022 Romantic love is a defining

phenomenon in human existence and an object of heightened interest for literature art popular culture and psychology But what is romantic love and why is it typically experienced as so significant to our existence Using central ideas from the philosophy of S ren Kierkegaard as well as engaging with contemporary discussions in the philosophy of love this book explores the nature of romantic love and philosophically substantiates its meaningfulness to an individual's life It does so by developing a connection between love and selfhood here explained in terms of one's distinct individuality To be a self it is claimed is to possess a name that is an individual essence Further the book argues it is when we love that we regard people by their names we respond to who they truly are Accordingly the idea anchoring the book is that love is a correspondence between essences if Jane loves Edward she responds to him being who he is by virtue of her being who she is The conception of being thus correspondent has important implications as to the moral and spiritual value of romantic love Relying on

Kierkegaard's analysis of the self of faith and of love even if sometimes in a way that departs from Kierkegaard's explicit position the book explores these implications By doing this it construes romantic love as a desirable phenomenon emotionally morally and spiritually
