Temps Et Recit Tome I:

Time, Narrative, and History David Carr, 1991-02-22 For description and defense of the narrative configurations of everyday life and of the practical and social character of those narratives there is no better treatment than Time Narrative and History a clear judicious and truthful account provocative from beginning to end Journal of the British Society for Phenomenology a superior work of philosophy that tells a unique and insightful story about narrative Quarterly Journal of Speech Paul Ricoeur Frans D. Vansina, 2000 Already more than sixty years Paul Ricoeur enriches the international philosophical patrimony with an astonishing number of highly technical books and enlightening reflections on actual problems and situations To serve the community of researchers in philosophy I have already published two systematic bibliographies of and on Ricoeur in 1985 and 1995 Encouraged by friends and colleagues I present now another updated bibliography as exhaustive as possible

consistency Essays in the collection address the relationship between philosophy political practice and everyday life Heller s theory of modernity and her ethical theory her recent scholarship on comedy and the Biblical book of Genesis her theories of radical needs and radical politics her aesthetic theory and questions about her relationship to feminist theory The collection includes Heller s reflections on the collected essays as well as an early essay on her mentor Luk cs that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life s work **The Syllables of Time**

Teresa Whittington,2017-07-05 This study reveals reading to be one of the main activities to occupy the inhabitants of the world of Marcel Prousts novel *A la recherche du temps perdu* Characters do not just read books but have access to the journals and newspapers of a rapidly expanding print industry They receive letters and postcards from family and friends The posters of a nascent advertising industry tempt them to spend an evening at the theatre or a holiday by the sea and new forms of communication such as telegraphy enter their lives and require new strategies of deciphering All human activity is glossed by means of a series of metaphors of reading extending the readers domain beyond the written text Through a series of illuminating analyses Teresa Whittington shows how this web of references builds into a specifically Proustian account of both the outer social context of reading and the inner psychological world of the reader Proust offers a contribution to the history of reading in the France of his own lifetime and suggests that reading is the very condition of the writing of his fiction

The Concept of Time in Early Twentieth-Century Philosophy Flavia Santoianni,2015-11-26 This book presents a collection of authoritative contributions on the concept of time in early twentieth century philosophy It is structured in the form of a thematic atlas each section is accompanied by relevant elementary logic maps that reproduce in a spatial form the directionalities arguments and or discourses reported on in the text The book is divided into three main sections the first of which covers phenomenology and the perception of time by analyzing the works of Bergson Husserl Sartre Merleau Ponty Deleuze Guattari and Derrida The second section focuses on the language and conceptualization of time examining the works of Cassirer Wittgenstein Heidegger Lacan Ricoeur and Foucault while the last section addresses the science and logic of time as they appear in the works of Guillaume Einstein Reichenbach Prigogine and Barbour The purpose of the book is threefold to provide readers with a comprehensive overview of the concept of time in early twentieth century philosophy to show how conceptual reasoning can be supported by accompanying linguistic and spatial representations and to stimulate novel research in the humanistic field concerning the complex role of graphic representations in the comprehension of concepts

Ricoeur, Hermeneutics, and Globalization Bengt Kristensson Ugglä,2011-11-03 Ricoeur Hermeneutics and Globalization explores the philosophical resources provided by Paul Ricoeur s hermeneutics in dealing with the challenges of a world framed by globalization Bengt Kristensson Ugglä s reflections start from an understanding of globalization as an age of hermeneutics linking the seldom related problematic of globalization with hermeneutics through Ricoeur s concept of interpretation The book proceeds to embrace lifelong learning as the emerging new life script of the globalized knowledge

economy the post national memory wars generated by the celebration of national anniversaries and the need for orientation in a post modern world order The author argues that Ricoeur s hermeneutics provide intellectual resources of extraordinary importance in coping with some of the most important challenges in the contemporary world Time and History Massimo Villani,2023-04-04T00:00:00+02:00 The hypothesis from which this book starts is that the twentieth century has broken the link between time and history thus producing a twofold consequence On the one hand time definitively loses the characteristics of linearity and coherence that it still had in Hegel and will be conceived in terms of a multiplicity of heterogeneous temporal lines on the other hand and consequently history tends to disappear from the philosophical horizon to give way to theses on a post historical time whose main characteristics are stasis the inability to synthesize incoherent temporalities the impossibility of producing openings towards the future However precisely within the short century the one in which time has supposedly contracted to the point of expunging history from itself critical reflections were produced which despite the acquisition of scientific and philosophical lessons about the multi form and reversible nature of time have recovered a fruitful relation with history in a cumulative and teleological sense **A Ricoeur Reader** Paul

Ricoeur,1991-08-01 Paul Ricoeur is one of the most important modern literary theorists and a philosopher of world renown This collection brings together his published articles papers reviews and interviews that focus on literary theory and criticism The first of four sections includes early pieces that explore the philosophical foundations for a post structural hermeneutics The second contains reviews and essays in which Ricoeur engages in debate over some of the central themes of literary theory including figuration configuration and narrativity In the third section are later essays on post structuralist hermeneutics and in the fourth interviews in which he discusses text language and myths Mario Vald s provides an introduction to the literary theories of Paul Ricoeur and the works in this collection particularly He also includes a complete bibliography of Ricoeur s works that have appeared in English Identifying Selfhood Henry Isaac Venema,2000-09-28 Identifying Selfhood provides the first sustained treatment of the development of Paul Ricoeur s decentered formulation of selfhood from his earliest works to his most recent For Henry Venema Ricoeur s affirmation that consciousness is always rooted in the signs symbols and texts that precede the hermeneutical project of self recovery and discovery provides the thread that links all of Ricoeur s philosophical inquiries together However as Venema argues Ricoeur s hermeneutic is caught up in the semantics of identity to such an extent that selfhood is confused and often equated with the textuality of the reflective process and is never dealt with on the intimate level of the reflexive structure of selfhood in relation to otherness In the end Ricoeur s formulation of alterity identifies the other within the circle of the self same **Paul Ricoeur** Karl Simms,2003 The Routledge Critical Thinkers series puts key thinkers and their ideas firmly back in their contexts Each volume reflects the need to go back to the thinker s own writings and ideas to fully appreciate those ideas **The Historical Present in Thucydides: Semantics and Narrative Function** Jean Lallot,Albert Rijksbaron,Bernard

Jacquino, Michel Buijs, 2011-03-21 After Etudes sur l'aspect verbal chez Platon Saint Etienne 2000 the international Groupe de recherche sur l'aspect verbal en grec now presents a second volume on verbal aspect in Ancient Greek which is devoted to the functions of the Historical Present in Thucydides In nine chapters the authors approach this subject from a variety of angles focusing inter alia on the HP of particular verbs and on its use in battle narratives or investigate Thucydides use of the HP from a comparative perspective They share one important assumption viz that the primary function of the HP is to mark events that were according to Thucydides of decisive importance for the development of the Peloponnesian War By its rich and detailed analyses the book provides important new insights into Thucydides narrative technique **Fear and Fantasy**

in a Global World, 2015-09-01 At a time when the mass media insist on bombarding us with news about natural political and economic disasters words ideas and images associated with such crises and catastrophes shape to a great extent collective memory and current imagination Fear and Fantasy in a Global World seeks to stir the debate on the processes and meanings of as well as on the relations between fear and fantasy in the globalized world Collective fears and fantasies are analysed from a number of cross disciplinary perspectives promoted by the epistemological underpinnings of comparative literature In various ways and from different disciplinary angles the 17 essays here gathered respond to and scrutinize key questions related to the imaginaries of fear and fantasy as well as their relations to trauma crisis anxiety and representations of both the conscious and the unconscious Contributors Alexandra Hills Ana Filipa Prata Brecht de Groote Christin Grunert Christopher Bollas Daniela Di Pasquale David Vichnar Edith Beltr n Gero Guttzeit Hande Gurses Harriet Hulme James Rushing Daniel Jo o Pedro da Costa Margarita Garc a Candeira Marija Sruk Martijn Boven and Ortwin de Graef

Rewriting the History of Madness Arthur Still, Irving Velody, 2012-10-02 Michel Foucault has had an extraordinary impact on writers in the human sciences since his first book Madness and Civilization appeared in English This title assesses the reactions to Madness and Civilization We as Self Hye Young Kim, 2021-01-28 We as Self argues for a notion of we ness based not on a self centered or a self less point of view in which the we is only either a collection of individuals or an anonymous whole but on relation This relation is pre subjective meaning that the conscious reflective subjective self is not the conceptual basis of the relation The irreducible metaphysical distinction between self and other is always there but the awareness of it is not prior to this relation which is an ontological pre condition of self Hye Young Kim demonstrates that the distinction and unity of self and other in this relation can be comprehended spatially by applying knot logic The author analyzes certain linguistic practices in Korean to show one representation of pre subjective we ness in language but not in an ethnographical manner By doing so the author criticizes and challenges the Eurocentric tendency of philosophy and contributes to efforts to expand diversity in philosophy **Knowledge and Practical Reason** Marcelino Agís Villaverde, 2012 The work of Paul Ricoeur can be regarded as a faithful expression of the philosophy of the 20th century and as the paradigmatic exponent of a new philosophical character for the 21st century Without belonging to any particular

school Ricoeur discussed a wide range of philosophical topics with many of his insights being prophetic indeed This book demonstrates that there is no single interpretation of Ricoeur s philosophy describing his way of thinking Rather the book provides an opportunity to see Ricoeur s thoughts as a guide for a human enveloped in the experience of life and being By exploring Paul Ricoeur in his life circumstances through war the academy and his relationships as well as through his works and his own words this book offers a more complete picture of the many aspects of one man and the legacy he left behind
