The new scholarship has been brought to bear in the texts of the present volume, which accompanies a major exhibition of 140 of Bruegel's prints and drawings to be shown at the Museum Boijmans Van Beuningen, Rotterdam, from May to August 2001, and at The Metropolitan Museum of Art, New York, from September to December 2001. An international group of experts discusses the new Bruegel who has emerged from recent studies in essays on the artist's life, his contributions as a draftsman and as a printmaker, the survival of his art, and his relationship to the humanism of his day. They also illuminate his genius in entries on all the works in the exhibition. Every work is illustrated, and rich comparative illustrations are included. Provenances and
