Literature Suppressed on Religious Grounds, Fourth Edition Margaret Bald, 2019-08-01 Censorship of religious and philosophical speculation is as old as history and as current as today s headlines Many of the world s major religious texts including the Bible the Talmud the Koran and others have been suppressed condemned or proscribed at some time Works of secular literature that touch upon religious beliefs or reflect dissenting views have also been suppressed Literature Suppressed on Religious Grounds Fourth Edition profiles the censorship of many of these works These include the frequently challenged Harry Potter series which critics accuse of promoting witchcraft and anti family themes as well as Philip Pullman s His Dark Materials trilogy and Dan Brown s The Da Vinci Code Entries include The Age of Reason Thomas Paine The Analects Confucius The Battle for God Karen Armstrong The Bible Children of the Alley Naguib Mahfouz Critique of Pure Reason Immanuel Kant The Da Vinci Code Dan Brown Dialogue

Renaissance Context C. A. Patrides, 1989 Essays on many of the most important literary figures of the 16th and 17th centuries The Attack on Higher Education Ronald G. Musto, 2022-01-20 Compares the current right wing attack on American higher education to Henry VIII's Dissolution of the Monasteries in 1535 A People's Tragedy Eamon Duffy, 2020-11-26 As an authority on the religion of medieval and early modern England Professor Eamon Duffy is preeminent In his revisionist masterpiece *The Stripping of the Altars* Duffy opened up new areas of research and entirely fresh perspectives on the origin and progress of the English Reformation Duffy's focus has always been on the practices and institutions through which ordinary people lived and experienced their religion but which the Protestant reformers abolished as idolatry and superstition The first part of *A People's Tragedy* examines the two most important of these institutions the rise and fall of pilgrimage to the cathedral shrines of England and the destruction of the monasteries under Henry VIII as exemplified by the dissolution of the ancient Anglo Saxon monastery of Ely In the title essay of the volume Duffy tells the harrowing story of the Elizabethan regime's savage suppression of the last Catholic rebellion against the Reformation the Rising of the Northern Earls in 1569 In the second half of the book Duffy considers the changing ways in which the Reformation has been thought and written about the evolution of Catholic portrayals of Martin Luther from hostile caricature to partial approval the role of historians of the Reformation in the emergence of English national identity and the improbable story of the twentieth century revival of Anglican and Catholic pilgrimage to the medieval Marian shrine of Walsingham Finally he considers the changing ways in which attitudes to the Reformation have been reflected in fiction culminating with Hilary Mantel's gripping trilogy on the rise and fall of Henry VIII's political and religious fixer Thomas Cromwell and her controversial portrayal of Cromwell's Catholic opponent and victim Sir Thomas More **Celestial Wonders in Reformation Germany** Ken Kurihara, 2015-10-06 Celestial phenomena were often harnessed for use by clerics in early modern Germany Kurihara examines how and why interest in these events grew in this period how the clergy exploited these beliefs and the role of sectarianism in Germany at this time **Bones, Stones, and Buddhist Monks** Gregory Schopen, 2021-05-25 The present volume provides an essential foundation for a social history of Indian Buddhist monasticism Challenging the popular stereotype that represented the accumulation of merit as the domain of the layperson while monks concerned themselves with more sophisticated realms of doctrine and meditation Professor Schopen problematizes many assumptions about the lay monastic distinction by demonstrating that monks and nuns both the scholastic elites and the less learned participated actively in a wide range of ritual practices and institutions that have heretofore been judged popular from the accumulation and transfer of merit to the care of deceased relatives to serving as sponsors and donors rather than always the recipients of gifts to possibly the coining of counterfeit currency Taken together the studies contained in this volume represent the basis for a new historiography of Buddhism not only for their critique of many the id es re ues of Buddhist Studies but for the compelling connections they draw between apparently disparate details *The Secularization*

of Early Modern England Charles John Sommerville, 1992 This study overcomes the ambiguity and daunting scale of the subject of secularization by using the insights of anthropology and sociology and by examining an earlier period than usually considered Concentrating not only on a decline of religious belief which is the last aspect of secularization this study shows that a transformation of England's cultural grammar had to precede that loosening of belief and that this was largely accomplished between 1500 and 1700 Only when definitions of space and time changed and language and technology were transformed as well as art and play could a secular world view be sustained As aspects of daily life became divorced from religious values and controls religious culture was supplanted by religious faith a reasoned rather than an unquestioned belief in the supernatural Sommerville shows that this process was more political and theological than economic or social
