The Magical Owls Pierson Tadeo, 2004-08-05 The story of The Magical Owls is about ten little mice who were in search of these Magical Owls to ask them for help to cool off their dry desert land. These Magical Owls had the power to bring water or ice with them. In the process of asking for help, the Magical Owls both decided to eat them instead. Then a long and hard chase started. The ten mice separated: five went East in search of the Ice Owl and the remaining five traveled West for the Snow Owl. The chase continued for days with both owls chasing the mice they hid under rocks, logs, anything possible to escape the great owls' powerful claws. The two groups headed towards each other to escape the owls. Until finally, the two owls, coming in from an attack speed from both directions, crashed into each other, causing a big thunderstorm with hail, lightning, and cool wind. This crash saved the land, but it also injured one owl. Days later, the mountain lion and a wolf tracked down the owl, and they brought the owl back with them without eating him, and the little mice who feared the attacking owls decided to help and repair the wing. After the mice repaired the owl, the owl promised to fly by once a year to give water and snow to cool off the dry hot lands. Best STEM Resources for NextGen Scientists Jennifer L.
