Barton, 2016-01-11 Johanna, better known as Joe, had been a day walker for her only friend Noah for centuries. An immortal with eight hundred years under her belt, she had become proficient in several languages and occupations. When her friend Noah talked about meeting the sun, she had every intention of following in his path. Joe had only gone to Calhoun's office to catch a ride to the estate. When she entered, it took her breath away to see the younger man on the floor and no one doing a damn thing to help him. Trent Calhoun had forgotten how to have fun. Diving into his work was what kept him happy. At 33, he had no life, so when he had a heart attack, his doctor said to change his ways or else. When the gorgeous woman stumbled into his hospital room, Trent thought his dad was up to his old tricks again, that was until he caught her scent. Now, because of his wolf, he's face to face with an angry vampire. **The People Traders** Keith

*Words Can Change Your Brain* Andrew Newberg,Mark Robert Waldman,2013-07-30 In our default state our brains constantly get in the way of effective communication They are lazy angry immature and distracted They can make a difficult conversation impossible But Andrew Newberg M D and Mark Waldman have discovered a powerful strategy called Compassionate Communication that allows two brains to work together as one Using brain scans as well as data collected from workshops given to MBA students at Loyola Marymount University and clinical data from both couples in therapy and organizations helping caregivers cope with patient suffering Newberg and Waldman have seen that Compassionate Communication can reposition a difficult conversation to lead to a satisfying conclusion Whether you are negotiating with your boss or your spouse the brain works the same way and responds to the same cues The truth though is that you don't have to understand how Compassionate Communication works You just have to do it Some of the simple and effective takeaways in this book include Make sure you are relaxed yawning several times before not during the meeting will do the trick Never speak for more than 20 30 seconds at a time After that the other person's window of attention closes Use positive speech you will need at least three positives to overcome the effect of every negative used Speak slowly pause between words This is critical but really hard to do Respond to the other person do not shift the conversation Remember that the brain can only hold onto about four ideas at one time Highly effective across a wide range of settings Compassionate Communication is an excellent tool for conflict resolution but also for simply getting your point across or delivering difficult news
