Tender Shoot:

The Tender Shoot Colette, 1958 Asian Functional Foods John Shi, Fereidoon Shahidi, Chi-Tang Ho, 2005-03-03 The consumption of functional foods has emerged as a major consumer driven trend based on the needs of an ever growing health conscious population that wants to exercise greater control over its health Focusing on an important sector of this rapidly growing field Asian Functional Foods discusses the theoretical and practical aspects of functional foods, **Nobody Wants To Hear I Never Knew You** John Calkins, 2017-08-17 Nobody Wants to Hear I Never Knew You reveals to you its readers the wisdom that you might be spared this warning Not everyone who says to Me Lord Lord shall enter the kingdom of heaven but he who does the will of My Father in heaven Many will say to Me in that day Lord Lord have we not prophesied in Your name cast out demons in Your name and done many wonders in Your name And then I will declare to them I never knew you depart from Me you who practice lawlessness Matthew 7 21 23 NKJV **Ethnobotany of India, Volume 4** T. Pullaiah, K. V. Krishnamurthy, Bir Bahadur, 2017-09-01 Ethnobotany of India Volume 4 Western and Central Himalayas is the 4th volume of the 5 volume set an informative book series on the ethnobotanical aspects of India The books cover different regions including Volume 1 Eastern Ghats and Deccan Volume 2 Western Ghats and West Coast of Peninsular India Volume 3 North East India and Andaman and Nicobar Islands Volume 4 Western and Central Himalayas Volume 5 The Indo Gangetic Region Each volume looks at the important ethnic plants of the specific region Volume 4 covers the Western and Central Himalayas the well known mountain range on the Indian subcontinent The unique flora and fauna of the Himalayas are varied affected by climate rainfall altitude and soils and are vulnerable to impacts from climate change The editors espouse that because indigenous non Western societies form the vast majority of people now as well as in the past a study of their plant interrelationships is necessary and India is one of the most important regions of the old world for its ancient and culturally rich and diverse knowledge of ethnobotany With this in mind these volumes share a great deal of information that will be valuable to plant botanists and others working in and interested in ethnobotany This important volume covers the ethnobotanical aspects of many plants of the region It looks at ethnic diversity of people ethnic food plants and food preparation ethnomedical aspects of plants psychedelic plants and their possible link to soma a vedic ritual drink whose plant origins are a mystery ethnoveterinary medicinal plants ethno conservation practices biodiversity heritage sites The volume includes the details of the plants used their scientific names the parts used and how the plants are used providing the what how and why of plant usage The book is well illustrated with 20 color and 67 b w illustrations Together the five volumes in the Ethnobotany of India series presents the available ethnobotanical knowledge of India in one place India s ancient and culturally rich and diverse information and use of ethnobotany will be valuable to those in the fields of botany and plant sciences pharmacognosy and pharmacology nutraceuticals and others The books also consider the threat to plant biodiversity imposed by environmental degradation which impacts cultural diversity **Practical Manual of Entomology** H. L.

Devasahayam,2011-06-15 Insects and non insect pests are responsible for causing extensive damage to crops in the field and to grains and stored products in the warehouses and godowns which necessitates their control In this book the author has given Detailed account of major insect and non insect pests of economically important field and horticultural crops and possible measures of their control Information about household pests which damage human possessions as well as insect and non insect pests which either cause diseases or transmit various diseases in plants livestock and humans A list of minor pests of each crop which may attain the level of major pests when conditions become favorable for them List of insecticides approved by the Government of India for use as spray chemicals and granular insecticides and the dosage for their use The text is substantiated with many fine hand drawn illustrations depicting the nature of damage and life cycle of the pests which is the highlight of this book The book is intended primarily for the Under Graduate students of Agriculture but it will be immense use for the Post Graduate students of Agriculture officials working in the Department of Agriculture those interested in scientific farming and for the general public

Win Your Case Gerry Spence,2007-04-01 From renowned trial attorney and New York Times bestselling author Gerry Spence a must own book for every lawyer and business professional seeking to make cutting edge winning presentations in court at work everywhere any time Gerry Spence is perhaps America s most renowned and successful trial lawyer a man known for his deep convictions and his powerful courtroom presentations when he argues on behalf of ordinary people Frequently pitted against teams of lawyers thrown against him by major corporate or government interests he has never lost a criminal case and has not lost a civil jury trial since 1969 In *Win Your Case* Spence shares a lifetime of experience teaching you how to win in any arena the courtroom the boardroom the sales call the salary review the town council meeting every venue where a case is to be made against adversaries who oppose the justice you seek Relying on the successful courtroom methods he has developed over more than half a century Spence shows both lawyers and laypersons how you can win your cases as he takes you step by step through the elements of a trial from jury selection the opening statement the presentation of witnesses their cross examinations and finally to the closing argument itself Spence teaches you how to prepare yourselves for these wars Then he leads you through the new cutting edge methods he uses in discovering the story in which you form the evidence into a compelling narrative discover the point of view of the decision maker anticipate and answer the counterarguments and finally conclude the case with a winning final argument To make a winning presentation you are taught to prepare the power person the jury the judge the boss the customer the board to hear your case You are shown that your emotions and theirs are the source of your winning You learn the power of your own fear of honesty and caring and yes of love You are instructed on how to role play through the use of the psychodramatic technique to both discover and tell the story of the case and at last to pull it all together into the winning final argument Whether you are presenting your case to a judge a jury a boss a committee or a customer *Win Your Case* is an indispensable guide to success in every walk of life in and out of the courtroom

Development Vision of North-East India

Utilization of Bamboo When and How to Harvest Bamboo *Medicinal and Aromatic Plants In and Around Protected Areas of the Indian Subcontinent* Dr. Debabrata Das, 2024-07-19 The book covers many areas of Medicinal plants research including traditional and scientific research that boost extensional activities in India and abroad Many plants incorporated in India but many years the traditional use practice is going on so these are important tools to use the components in herbal therapy People use traditionally as well as mixed preparations to share their knowledge In industry many components have been widely used to prepare medicines that is economic In addition to the applied aspects it boosts ecological value because of the wide use of components as living parts or the products in India and abroad The articles would convey the message for long term use and wide preservation techniques to conserve the species in a global basis **Pests and Pollinators of**

Vegetable and Oilseed Crops Dharam P. Abrol, 2019-03-21 Pest management for vegetable crops and safety provision for the pollinators is a challenging task in the context to increase vegetable productivity without upsetting the ecological balance The book *Pests and Pollinators of Vegetable and Oilseed Crops* aims to integrate and develop pest control strategies by minimizing their impact on beneficial insect species such as natural enemies and pollinators for enhancing fruit production and quality A detailed account is provided on pests and pollinators of oilseed crops such as Cruciferous Solanaceous Umbelliferous Cucurbitaceous Malvaceous Leguminous and Alliaceae The compilation of this book is unique as it does not deal only with the conventional way of pest management for different crops it takes into consideration the role of pollinators and their profitable utilization in the larger context of ecologically based pest management and safety of pollinators An exemplary attempt is made to promote a large diverse sustainable and dependable bee pollinator workforce that can meet the challenges of optimizing food production in the twenty first century and beyond **General Technical Report SO**

, 1977 **Traditional and Indigenous Knowledge for the Modern Era** David R. Katerere, Wendy Applequist, Oluwaseyi M. Aboyade, Chamunorwa Togo, 2019-09-05 While there is talk of the Fourth Industrial Revolution old and new challenges bedevil the world climate change nutrition and health poverty being at the top of the list In seeking solutions to these and other problems which afflict the modern era it is worthwhile to look into our collective past to the traditions and knowledges of our ancestors Such knowledge continues to exist in many parts of the world though now marginalized by homogenous Eurocentric ontology and epistemology This book presents a compilation of reviews case studies and primary research attempting to locate the utility of traditional and Indigenous Knowledges in an increasingly complex world It assembles chapter authors from across the world to tackle topics ranging from traditional knowledge based innovations and commercialization traditional medicine systems as practiced around the world ethnoveterinary practices and food innovation to traditional governance and leadership systems among others This book is an important resource for policymakers scholars and researchers of cultural studies leadership governance ethnobotany anthropology plant genetic resources and technology innovation and readers interested in the history of knowledge and culture as well as cultural activists and political scientists

Features Unique combination of social science and anthropological aspects with natural science perspectives Includes summaries aimed at policymakers to immediately see what would be relevant to their work Combines case studies illuminating important lessons learned with reviews and primary data Multidisciplinary in the scope of the topics tackled and assemblage of contributors Global footprint with contributions from Africa Europe North America Asia and the West Indies David R Katerere Department of Pharmaceutical Sciences Tshwane University of Technology South Africa Wendy Applequist William L Brown Center Missouri Botanical Garden St Louis Missouri Oluwaseyi M Aboyade Department of Pharmaceutical Sciences Tshwane University of Technology South Africa and Nutritica SA The Innovation Hub Pretoria South Africa Chamunorwa Togo The Innovation Hub Pretoria South Africa

Bioprospecting of Indigenous Bioresources of North-East India Jubilee Purkayastha, 2016-08-16 This work is a comprehensive information on the indigenous bioresources of North Eastern India with the scope of bioprospecting for discovery and commercialization of new sources and products and long term ecological balance The exploration conservation and sustainable utilization of bioresources of world s Megabiodiversity Hotspots are undeniable North Eastern India is a recognised biodiversity hot spot where the evolutionary forces are at its optimum making this region as centre of origin for many species Although little bit exploratory studies have been conducted in this part of the globe but a scientific exploitation of the bioresources is almost lacking Unscientific exploitation and overexploitation without proper knowledge of the bioresources may lead to imbalanced ecosystem of this mega diversity region At the same time very less exploration and exploitation will hamper biodiversity based development Today unscientific dramatic changes are underway in this region Human activities are changing degrading and destroying the bioresources in an unplanned manner Scientific bioprospecting of the bioresources will boost the economy while ensuring conservation This book offers comprehensive information about various levels of bioprospecting of the gene pool of this Indo Burma Mega Biodiversity Hot Spot the North East India which is endowed with huge biodiversity potential for exploration and exploitation for the benefit of humankind Also this book highlights the less and merely explored part of the indigenous biodiversity of North East India with explanation towards their better sustainable exploitation for benefit of the people economy and environment The novelty of the book lies in expert coverage of the bioresources of this mega diverse region including plants microbes insects etc with provisions for their sustainable scientific utilization This book portrays North East India as a melting pot of bioresources which are little explored and also those resources which are still to be explored The book mainly highlights the bioprospecting approaches for North East Indian bioresources and thus it make itself a unique one in filling the knowledge gap that is there regarding the bioprospecting of the biodiversity of this special region on the earth The book concludes by the ecotourism potential of this region The target audiences for this book include biodiversity economists who are working on technology and bioresource management issues and especially on biotechnology and biodiversity development economists addressing the issues of bioresources in developing countries These people may be

in academia in government in non governmental organizations and in private companies The other target audiences group is policy scholars in government public sectors who are interested in issues of biotechnology IPRs and biodiversity In addition scholars experts in both development studies and resource management studies form another group of target audiences Also the book will be useful for the interaction between developed and developing nations regarding the issues of biodiversity and bioprospecting as North Eastern India is the hub of Biodiversity

Insect Mite and Vertebrate Pests and their Management in Horticultural Crops P.P. Reddy, 2017-05-01 Horticulture in India is fast emerging as a major commercial venture because of higher remuneration per unit area and the realization that consumption of fruits and vegetables is essential for health and nutrition In the last one decade export potential of horticultural crops has significantly increased attracting even multinationals into floriculture processing and value added products Productivity of horticultural crops in India is relatively low compared to other countries Of the several factors responsible for lower productivity of horticultural crops pests insect mite and vertebrate pests are considered as important limiting factors The annual losses due to pests to all the crops in India was estimated at Rs 60 000 million in 1983 which at today s prices could exceed Rs 200 000 million The information on pests insect mite and vertebrate pests in horticultural crops is very much scattered There is no such book at present which comprehensively and exclusively deals with the above aspects on horticultural crops The present book deals with geographical distribution damage host range biology predisposing factors and management of insect mite and vertebrate pests in horticultural crops in detail using regulatory physical cultural chemical biological host plant resistance and integrated methods The book is extensively illustrated with excellent quality photographs enhancing the quality of publication This book is a practical guide to practicing farmers of horticultural crops Further it is a useful reference to policy makers research and extension workers and students The material can also be used for teaching undergraduate and post graduate courses
