

Science, Nature and Tennyson

- Rupture with 'Natural Theology': 'We have but faith, we cannot know/ For knowledge is of things we see' (I M prologue)
- Although perceived as an heir to the great Romantic poets such as Wordsworth, Tennyson was acutely aware of new scientific discoveries. He was according to his friend and contemporary, scientist T.H. Huxley, 'the first poet since Lucretius [a Classical Roman writer on nature] who has understood the drift of science.'

Tennyson And Scientific Theology:

Tennyson and Scientific Theology Joseph Walter Hayes,1909 *The Dramas of Alfred Lord Tennyson* , Dynamics of Desacralization Paola Partenza,2015-01-28 The idea of desacralization has become almost commonplace attributing to the word the rejection of what is sacred One might think that it is strictly connected to theology and its system or suppose that it implies the relationship human beings have with anything that can express a denial of the spiritual part of life The concept of desacralization has numerous meanings either from a philosophical or a literary viewpoint The scholars investigation of Dynamics of Desacralization has made this collection of essays rich and varied revealing new worlds the different authors have created What they do is to narrate various types of desacralization interrogating the nature of novels poems or works of art certain aspects of being are revealed through various expressions engaging the multiple levels and the meaning of desacralization providing an articulation and interpretation of it Alfred Tennyson Laurence W. Mazzeno,2004 The poet s reputation has weathered even the most vitriolic attempts to discredit both the man and his writings and as criticism of the late twentieth century demonstrates Tennyson s claim to pre eminence among the Victorians is now unchallenged **The Blackwell Companion to Postmodern Theology** Graham Ward,2008-04-15 This Companion provides a definitive collection of essays on postmodern theology drawing on the work of those individuals who have made a distinctive contribution to the field and whose work will be significant for the theologies written in the new millennium The definitive collection of essays on postmodern theology drawing on the work of those individuals who have made a distinctive contribution to the field Each essay is introduced with a short account of the writer s previous work enabling the reader to view it in context Discusses the following disciplines Aesthetics Ethics Gender Hermeneutics Phenomenology Heideggerians and Derrideans Edited by Graham Ward one of the most outstanding and original theologians working in the field today **Studies in Tennyson** Henry Van Dyke,1920 Tennvson And T.S. Hood,2017-03-02 This study examines Tennyson s portrayals of the erotic and creative impulses reading the poet s

ubiquitous lover artists as tropes that figure the desire for transcending the state of being human a condition of personal fragmentation and limited knowledge Ostensibly seeking to fulfill erotic wishes construct utopias or create grand artistic works Tennyson s characters engage in a fundamentally spiritual quest yearning to divine desire to eternalize the fulfilment of their deepest wishes Freud revealed how Victorians sublimated sexual desire into religious impulse This book demonstrates however the remarkable way in which Tennyson s poems transact the opposing projection transfiguring spiritual desire into erotic art Brilliantly negotiating a middle ground between scientific skepticism and reactionary religiosity his vastly popular poems suggest that fulfilment of the wish too strong for words to name lies in a sacramentality only as means do art and eros allow transport beyond fragmentation At a deep level the poems conclude that language itself brokers transcendence through its very brokenness
