Tensions in the Territorial Politics of Western Europe R. A. W. Rhodes, Vincent Wright, 1987 First Published in 1986 Routledge is an imprint of Taylor Francis an informa company *Tensions in the Territorial Politics of Western Europe* R. A. W. Rhodes, Vincent Wright, 2025-09-12 *Tensions in the Territorial Politics of Western Europe* 1987 examines the massive postwar increase in European government intervention a major element being the development of welfare services provided by sub central units of government Governments have faced the dilemma of being electorally accountable for services delivered through differentiated disaggregated policy systems The territorial distribution of functions has become a major political and policy issue and government centres have developed strategies for regulating the function based policy system The term territorial politics refers to the arena of political activity concerned with the relations between central and sub central organisations while recognising the need to return to history The objectives of this work are to argue for a focus on territorial politics to demonstrate that the analysis of territorial politics requires an exploration of historical context and to analyse contemporary problems in territorial politics focusing on functional allocation interest articulation central regulation and the distributional consequence of policy networks **Tensions in the Territorial Politics of Western Europe** ,1987

Community EC member states has attracted widespread attention as an economic project of enormous importance. But though journalists and scholars have focused much attention on the economic aspects of Europe 1992, the program's impact on the governance of the EC has been largely ignored even though the creation of a single market is intimately linked to changes in governance. With each member state having a very different institutional structure, the variation within the EC is far greater than that found in federations such as the United States. Though this variety adds to the complexity of consensus building among the members, it allows effective representation of diverse national interests and needs, thus making the EC a very strong competitive force. To negotiate effectively with this new Community, international policymakers will need a greater understanding of how the EC will operate in the wake of the Maastricht Summit.

Euro Politics examines various aspects of the institutional dynamics of the EC and offers important insight into policy making within the Community. David Cameron discusses the origin of the 1992 program and examines the role of the nation state in the Community. Guy Peters surveys the political and executive institutions while Martin Shapiro discusses the European Court of Justice and the evolution of judicial review within the Community. John Woolley examines the European Monetary System and the movement toward the EuroFed. Gary Marks studies the importance of the Regional Funds for both the EC and selected member states and Peter Lange discusses the Social Charter and its implications for both employers and unions. Alberto Sbragia concludes with an analysis of institutional dynamics and policymaking with the Community in light of the new questions they raise for traditional notions of governance.

Bridging Divides Eve Darian-Smith, 1999-10 This study uses the Channel Tunnel between England and France to explore the shifting geographies of nationalism, postcolonialism and legal autonomy in the formation of the European Union. It looks at regional differences in feelings about Europe and at vocabulary used in discussing the Tunnel.

Politics in the Netherlands Hans Daalder, Galen A. Irwin, 1989 First Published in 1989 Routledge is an imprint of Taylor Francis, an informa company.

The Changing French Political System Robert Elgie, 2013-09-13 Examining the nature of the Fifth Republic after its first 42 years, this study looks at the challenges posed by new parties and new expressions of political mobilization. Entrenched policy routines are being undermined by the emergence of new actors and the failure of old paradigms.

Reflective Approaches to European Governance Knud Erik Jørgensen, 2016-07-27 Celebrating the existence of contending theories of European integration, the book begins with a critical exploration of the concepts and theories used to examine this unique policy, presenting theoretically informed empirical studies of the origin of the key themes of European governance: territorial politics, domestic European linkages and the EU's foreign policy affairs.

Political Conflict in Western Europe Hanspeter Kriesi, 2012-07-26 Analyzes the effects of globalization on the restructuring of politics in Western Europe over the past three decades.

Using Europe: territorial party strategies in a multi-level system Eve Hepburn, 2013-07-19 This book explores how regional political parties use Europe to advance their territorial projects in times of rapid state restructuring. It examines the ways in which decentralization and supranational

integration have encouraged regional parties to pursue their strategies across multiple territorial levels This book constitutes the first attempt to unravel the complexities of how nationalist and statewide parties manoeuvre around the twin issues of European integration and decentralization and exploit the shifting linkages within multi level political systems In a detailed comparative examination of three cases Scotland Bavaria and Sardinia over a thirty year period the book explores how integration has altered the nature of territorial party competition and identifies the limits of Europe for territorial projects In addressing these issues this work moves beyond present scholarship on multi level governance to explain the diversity of regional responses to Europe By providing important new insights and empirical research on the conduct of territorial party politics and an innovative model of territorial mobilization in Europe this book will be of great interest to students and scholars of comparative politics European studies regionalism and federalism political parties and devolution

Thatcherism and Territorial Politics Dylan Griffiths, 1996 This work outlines the key features of local economic and urban regeneration policies in the era of Thatcherism It should hold interest for all those concerned with the evolving devolution debate in the United Kingdom
