The Tepehuan of Chihuahua Campbell W. Pennington, 1969      *The Tepehuan of Chihuahua* Campbell W. Pennington,

**Unpublished Research on American Republics, Excluding the United States, Completed and in Progress** United States Department of State. External Research Division, 1963 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies      **Plants from the Past** Leonard Watson Blake, Hugh Carson Cutler, 2001 Covering a period of 30 years

and tracing the development of the study of plant remains from archaeological sites this volume gives archaeologists access to previously unavailable data and interpretations It features the much sought after extensive inventory Plants from Archaeological Sites East of the Rockies which serves as a reference to archaeobotanical collections curated at the Illinois State Museum The chapters dealing with protohistory and early historic foodways and trade in the upper Midwest are especially relevant at this time of increasing attention to early Indian white interactions Book jacket      *The Power of Song*

Kristin Mann, 2010-04-08 The Power of Song explores the music and dance of Franciscan and Jesuit mission communities throughout the entire northern frontier of New Spain Its purpose is to examine the roles music played in teaching evangelization celebration and the formation of group identities There is no other work which looks comprehensively at the music of this region and time period or which utilizes music as a way to study the cultural interactions between Indians and missionaries      **Encyclopedia of Kitchen History** Mary Ellen Snodgrass, 2004-12-29 First published in 2005 Routledge is

an imprint of Taylor Francis an informa company      *External Research* United States. Department of State. External Research Division,      Selected References, in English, on the Ethnology of the Indians of Mexico, Central and South America , 1981      *People, Plants and Protected Areas* John Tuxill, Gary Paul Nabhan, with Elizabeth Drexler, Michael

Hathaway, 2013-12-16 Conservation of plant resources is often focused on seed banks and botanical gardens However the two authors of this volume present a comprehensive conservation strategy that complements this ex situ approach with practical guidance on in situ management and conservation of plant resources The book aims to facilitate better management of protected areas and to illustrate new approaches to conservation of plants within their landscapes It draws on concepts from forestry the agricultural sciences anthropology ethnology and ethnobotany and should be useful to practitioners academics and policy makers      **People, Plants, and Protected Areas** John D. Tuxill, Gary Paul Nabhan, 2001 An

invaluable practical guide to the management and conservation of plant resources in their natural habitats      *Ethnobotany of the Mountain Regions of Mexico* Alejandro Casas, José Juan Blancas Vázquez, 2023-05-31 Research in recent years has increasingly shifted away from purely academic research and into applied aspects of the discipline including climate change research conservation and sustainable development It has by now widely been recognized that traditional knowledge is always in flux and adapting to a quickly changing environment Trends of globalization especially the globalization of plant markets have greatly influenced how plant resources are managed nowadays While ethnobotanical studies are now available

from many regions of the world no comprehensive encyclopedic series focusing on the world's mountain regions is available in the market. Scholars in plant sciences worldwide will be interested in this website and its dynamic content. The field and thus the market of ethnobotany and ethnopharmacology has grown considerably in recent years. Student interest in the rise in attendance at professional conferences has grown steadily and the number of professionals calling themselves ethnobotanists has increased significantly. The various societies, Society for Economic Botany, International Society of Ethnopharmacology, Society of Ethnobiology, International Society for Ethnobiology and many regional and national societies in the field, currently have thousands of members. Growth has been most robust in BRIC countries. The objective of this new MRW on Ethnobotany of Mountain Regions is to take advantage of the increasing international interest and scholarship in the field of mountain research. We anticipate including the best and latest research on a full range of descriptive, methodological, theoretical and applied research on the most important plants for each region. Each contribution will be scientifically rigorous and contribute to the overall field of study.

**Indigenous Sacraments** Oriol Ambrogio Gali, 2024-12-04. *Indigenous Sacraments* provides the first study of Indigenous perceptions of the Christian sacraments at the fringes of colonial Spanish America, particularly in the missions established by the Jesuits in northwestern Mexico, central southern Chile and the Gran Chaco. After Jesuit missionaries arrived in these regions between the end of the sixteenth and the early seventeenth centuries, their sacraments came to control every rite of passage from birth to reaching adulthood to the formation of new families to death. Through the administration of the sacraments, missionaries intended to replace extant Indigenous habits and beliefs with Christian values. The disruptions triggered by such processes raised multiple local reactions from initial curiosity and incomprehension to rejection, partial acceptance and ritual imitation. Locals debated the newly introduced rituals and both violently rejected them and developed their own versions, becoming active participants in the sacraments' diffusion. Oriol Ambrogio Gali draws on a range of diverse sources to explore the changing attitudes toward the sacraments and to highlight the cultural and religious evolution of the Indigenous groups living at the fringes of Spanish America. By exploring local perceptions of the Christian sacraments, Ambrogio Gali shows that Indigenous peoples were far from static recipients of Christianity in the Americas.

**Defiance and Deference in Mexico's Colonial North** Susan M. Deeds, 2010-01-01. Thomas F. McGann Memorial Prize, Rocky Mountain Council on Latin American Studies, 2004. Southwest Book Award, Border Regional Library Association, 2003. In their efforts to impose colonial rule on Nueva Vizcaya from the sixteenth century to the middle of the seventeenth century, Spaniards established missions among the principal Indian groups of present-day eastern Sinaloa, northern Durango and southern Chihuahua, Mexico: the Xiximes, Acaxees, Conchos, Tepehuanes and Tarahumaras. Yet when the colonial era ended two centuries later, only the Tepehuanes and Tarahumaras remained as distinct peoples, the other groups having disappeared or blended into the emerging mestizo culture of the northern frontier. Why were these two indigenous peoples able to maintain their group identity under conditions of conquest while the others

could not In this book Susan Deeds constructs authoritative ethnohistories of the Xiximes Acaxees Conchos Tepehuanes and Tarahumaras to explain why only two of the five groups successfully resisted Spanish conquest and colonization Drawing on extensive research in colonial era archives Deeds provides a multifaceted analysis of each group s past from the time the Spaniards first attempted to settle them in missions up to the middle of the eighteenth century when secular pressures had wrought momentous changes Her masterful explanations of how ethnic identities subsistence patterns cultural beliefs and gender relations were forged and changed over time on Mexico s northern frontier offer important new ways of understanding the struggle between resistance and adaptation in which Mexico s indigenous peoples are still engaged five centuries after the Spanish Conquest *Once a River* Amadeo M. Rea,2021-11-09 Like many rivers of the arid Southwest the Gila is for much of its length a dry bed except after seasonal rains Yet a mere century ago it hosted a thriving biological community and two centuries ago American Indians fished from its banks It is no mystery how the desert swallowed up the Gila Beaver trapping overgrazing and woodcutting first ruined natural watersheds then damming confined the last drops of its surface flow Historical sources and archaeological data inform us of the Gila s past but its bird life further testifies to the changes Amadeo Rea traces the decline of bird life on the Middle Gila in a book that addresses the broader issue of habitat deterioration Bird lovers will find it a storehouse of data on avian migration patterns and on ornithological classification based on skeletal structure Anthropologists can draw on its Piman ethnoclassification of birds which links the Gila River tribe with various other Uto Aztecan peoples of Mexico s west coast But for all concerned with protecting our environment *Once a River* offers evidence of change that might be apprehended elsewhere It is a case history of a loss that perhaps need never have occurred *God's Middle Finger* Richard Grant,2008-03-04 Part gonzo misadventure part cultural history *God s Middle Finger* explores a fascinating land the Sierra Madre mountains of Mexico where few outsiders are foolish enough to venture **Tracing Childhood** Jennifer L. Thompson,Marta P. Alfonso-Durruty,John J. Crandall,2014-05-20 Bioarchaeological studies of children have until recently centered on population data driven topics like mortality rates and growth and morbidity patterns This volume examines emerging issues in childhood studies looking at historic and prehistoric contexts and framing questions about the nature and quality of children s lives How did they develop their social identity Were they economic actors in early civilizations Does their health reflect the larger community Comparing and contrasting field research from a variety of sites across Europe and the Americas the contributors to this volume demonstrate that children not only have unique experiences but they also share cross culturally in daily struggles Their lives differ significantly from those of adults due to disparate social identities and variable growth needs In some of the cases presented this is the first time that child remains have been examined in any detail making *Tracing Childhood* an essential resource for scholars and researchers in this growing field **Landscapes of Power and Identity** Cynthia Radding,2006-01-18 This comparative frontier history explores the role that natural environments played in shaping the contours of European indigenous
