Tests proyectivos: Aplicación al diagnóstico y tratamiento clínicos María Vives Gomila, 2006-07-14 Esta obra tiene un doble objetivo. Por un lado iniciar al estudiante en el conocimiento de los tests proyectivos más utilizados en Psicología Clínica: el test de Rorschach, los tests proyectivos gráficos y el test PN. Por otro permite profundizar en la metodología de aplicación e interpretación de estas pruebas con especial énfasis en el test de Rorschach y los tests proyectivos gráficos que se utilizan actualmente: el test de la Figura humana, el test de la Casa-rbol, Persona, HTP y el test de La Familia. Dado que muchos psicólogos son también terapeutas se ha tratado de vincular los procedimientos diagnósticos: el test de Rorschach y la teoría de M. Klein y resumir diferentes tipos de tratamiento que se ofrecen desde la Psicología Dinámica sin olvidar la investigación que se deriva de los temas tratados. La obra pretende relacionar docencia, psicología aplicada e investigación. **María Vives Gomila** es especialista en Psicología Clínica y doctora en Psicología por la Universidad de Barcelona de la que es profesora titular. Psicoterapeuta psicoanalítica y especialista en el test de Rorschach pertenece a diversas Sociedades Científicas. **Spanish Study Guide**

asesoramiento pastoral de la familia AETH Jorge E. Maldonado, 2004-05-01 La pérdida de valores morales que llevan a considerar todo desde una perspectiva groseramente relativista la situación social y económica tan crítica que lleva a tratar de

protegernos de cualquier manera posible el materialismo contemporáneo que nos hace creer que teniendo más cosas seremos más felices y otros muchos aspectos similares han provocado una crisis que se refleja y tiene sus efectos en la pareja y familia contemporánea. La sociedad ha contagiado su enfermedad a la familia. Así pues, esta unidad básica sufre los devastadores efectos del tiempo y sociedad en que nos ha tocado vivir. Hay algo que se pueda hacer. Hay remedio que alivie esa enfermedad. El Dr. Maldonado nos muestra que para que la familia pueda procesar cualquier situación crítica que esté viviendo y salir adelante por el camino de la recuperación y el crecimiento, la mayor parte del tiempo requiere de orientación, consejo o asesoría. Así pues, y desde la perspectiva cristiana, en este libro el Dr. Maldonado presenta los elementos básicos de la asesoría, los criterios que servirán para identificar a una familia sana e ir hacia ella y las metas que se deben perseguir al asesorar y que servirán al asesor o consejero para promover el sano crecimiento tanto de la pareja como de la familia. Porque a final de cuentas, la familia no es solamente el lugar donde encontramos refugio y alimento. La familia, por sobre todo, es el lugar donde nos formamos como y donde somos verdaderamente humanos y cristianos.

Part I opens with a discussion of the theoretical foundation and epistemological grounding of the perspective and then moves on to the observational research methods involved in applying the perspective's interactional approach. Part II presents a set of programmatic research exemplars that describe the application of the relational communication approach in different relational contexts, from marital to organizational settings.
