Fischer,Frederick A. de Armas,2019-07-18 Although scholars often depict early modern Spanish women as victims history and fiction of the period are filled with examples of women who defended their God given right to make their own decisions and to define their own identities The essays in *Women Warriors in Early Modern Spain* examine many such examples demonstrating how women battled the status quo defended certain causes challenged authority and broke barriers Such women did not necessarily engage in masculine pursuits but often used

cultural production and engaged in social subversion to exercise resistance in the home in the convent on stage or at their writing desks Distributed for the University of Delaware Press

Men and Women Making Friends in Early Modern France Lewis C. Seifert, Rebecca M. Wilkin, 2016-03-03 Today the friendships that grab people s imaginations are those that reach across inequalities of class and race The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption inherited from Aristotle and patristic sources that friendships between men and women were impossible Together the essays in Men and

Women Making Friends in Early Modern France tell the story of the declining intelligibility of classical models of male friendship and of the rising prominence of women as potential friends The revival of Plato's friendship texts in the sixteenth century challenged Aristotle's rigid ideal of perfect friendship between men In the seventeenth century a new imperative of heterosociality opened a space for the cultivation of cross gender friendships while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie Men and Women Making Friends in Early Modern France argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture The ten essays in this volume address friend making as a process that is creative of self and responsive to changing social and political circumstances Contributors reveal how men and women fashioned gendered selves and also circumvented gender norms through concrete friendship practices By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled the essays in this volume highlight the relevance of early modern friend making to friendship in the contemporary world **The Participatory Turn**

Jorge N. Ferrer, Jacob H. Sherman, 2008-10-23 Can we take seriously religious experience spirituality and mysticism without reducing them to either cultural linguistic by products or simply asserting their validity as a dogmatic fact The contributors to this volume argue that we can and they offer a new way the participatory turn which proposes that individuals and communities have an integral and irreducible role in bringing forth ontologically rich religious worlds They explore the ways this approach weaves together and gives voice to a number of robust trends in contemporary religious scholarship including the renewed study of lived spirituality the postmodern emphasis on embodied and gendered subjectivity the admission of alternate epistemic perspectives the irreducibility of religious pluralism and the pragmatist emphasis on transformation all trends that raise serious challenges to the currently prevalent linguistic paradigm The first part of the book situates the participatory turn in the context of contemporary Religious Studies the second part shows how this approach can be applied to various global traditions ancient and contemporary from Western esotericism to Jewish mysticism Christianity Hinduism Sufism and socially engaged Buddhism Poetry and Pedagogy across the Lifespan Sandra Lee Kleppe, Angela Sorby, 2018-10-08 This book explores poetry and pedagogy in practice across the lifespan Poetry is directly linked to improved literacy creativity personal development emotional intelligence complex analytical thinking and social interaction all skills that are crucial in contemporary educational systems However a narrow focus on STEM subjects at the expense of the humanities has led educators to deprioritize poetry and to overlook its interdisciplinary multi modal potential The editors and contributors argue that poetry is not a luxury but a way to stimulate linguistic experiences that are formally rich and cognitively challenging To learn through poetry is not just to access information differently but also to forge new and different connections that can serve as reflective tools for lifelong learning This interdisciplinary book will be of value to teachers and students of poetry as well as scholars interested in literacy across the disciplines **The Oxford Handbook**

A Linking of Heaven and Earth Scott K. Taylor, 2016-03-23 The Reformation of the sixteenth century shattered the unity of medieval Christendom and the resulting fissures spread to the corners of the earth No scholar of the period has done more than Carlos M N Eire however to document how much these ruptures implicated otherworldly spheres as well His deeply innovative publications helped shape new fields of study intertwining social intellectual cultural and religious history to reveal how lived beliefs had real and profound implications for social and political life in early modern Europe Reflecting these themes the volume celebrates the intellectual legacy of Carlos Eire's scholarship applying his distinctive combination of cultural and religious history to new areas and topics In so doing it underlines the extent to which the relationship between the natural and the supernatural in the early modern world was dynamic contentious and always urgent Organized around three sections Connecting the Natural and the Supernatural Bodies in Motion Mind Soul and Death and Living One's Faith the essays are bound together by the example of Eire's scholarship ensuring a coherence of approach that makes the book crucial reading for scholars of the Reformation Christianity and early modern cultural history

A New

Companion to Hispanic Mysticism Hilaire Kallendorf, 2010 The canon of Hispanic mysticism is expanding No longer is our picture of this special brand of early modern devotional practice limited to a handful of venerable saints Instead we recognize a wide range of marginal figures as practitioners of mysticism broadly defined Neither do we limit the study of mysticism necessarily to the Christian religion nor even to the realm of literature Representations of mysticism are also found in the visual plastic and musical arts The terminology and theoretical framework of mysticism permeate early modern Hispanic cultures Paradoxically by taking a more inclusive approach to studying mysticism in its marginal manifestations we draw mysticism in all its complex iterations back toward its rightful place at the center of early modern spiritual experience Contributors Colin Thompson Alastair Hamilton Christina Lee Clara Herrera Darcy Donahue Elena del Rio Parra Evelyn Toft Fernando Duran Lopez Piansisco Morales Freddy Dominguez Glyn Redworth Jane Ackerman Jessica Boon Jose Adriano de Freitas Carvalho Luce Lopez Barat Maria Mercedes Carrion Maryrica Lottman and Tess Knighton
