Alan S. C. Ross,Michael Chesnutt,1981      The " Terfinnas" and "Beormas" of Ohthere Alan Strode Campbell Ross

**"The" Terfinnas and Beormas of Ohthere** Alan Strode Campbell Ross (philologue),1940      **Old English Prose and Verse** Roger Fowler,2022-02-23 Originally published in 1966 this book provides students of the earliest stage of our literature with a selection of texts for a complete introductory course All the principal poems and prose works in this literature are represented including more generous extracts from Beowulf than are common in anthologies of this type By omitting texts of primarily philological and historical interest it has been possible to include enough literary texts to satisfy all but the advanced student who will follow this volume with the specialised editions available A departure from the traditional design of Old English anthologies is the provision of full critical and annotative apparatus In the past it has been necessary for students to go beyond their Readers to specialised editions or to learned articles in order to discover even the most basic information about the extracts or their content Here each text is accompanied by an introduction which gives brief details of where known date authorship manuscript situation character and critical interest Line by line explanatory notes are also provided and a bibliography of books and articles for further study The glossary aims to be more explicit about form and meaning and easier to use than those of earlier selections      Decolonising Medieval Fennoscandia Solveig Marie Wang,2023-03-20 The interdisciplinary study investigates the relationship between Norse and Saami peoples in the medieval period and focuses on the multifaceted portrayal of Saami peoples in medieval texts The investigative analysis is anchored in postcolonial methodologies and argues for the inherent need to decolonise the medieval source material as well as recent historiography This is achieved by presenting the historiographic and political background of research into Norse Saami relations before introducing an overview of textual sources discussing Saami peoples from the classical period to the late 1400s an analysis of the textual motifs associated with the Saami in medieval literature their relevance and prevalence geo political affairs trading relations personal relations and Saami presence in the south By using decolonising tools to read Norse Saami relations in medieval texts influenced by archaeological material and postcolonial frameworks the study challenges lingering colonial assumptions about the role of the Saami in Norse society The current research episteme is re adjusted to offer alternative readings of Saami characters and emphasis is put on agency fluidity and the dynamic realities of the Saami medieval pasts      Old English Prose Paul E. Szarmach,2021-12-12 First published in 2001 With the decline of formalism and its predilection for Old English poetry Old English prose is leaving the periphery and moving into the center of literary and cultural discussion The extensive corpus of Old English prose lends many texts of various kinds to the current debates over literary theory and its multiple manifestations The purpose of this collection is to assist the growing interest in

Old English prose by providing essays that help establish the foundations for considered study and offer models and examples of special studies Both retrospective and current in its examples this collection can serve as a first book for an introduction to study particularly suitable for courses that seek to entertain such issues as authorship texts and textuality source criticism genre and forms of historical criticism as a significant part of a broad cultural teaching and research plan

*An Anglo-Saxon and Celtic Bibliography (450-1087)*. Wilfrid Bonser,1957      **A Bibliography of Publications on Old English Literature to the End of 1972** Stanley B. Greenfield,Fred C. Robinson,2008-07-28 Greenfield and Robinson state in their preface that they have sought to include every book monograph article note and review published on Old English literature since the invention of printing They have come as close to doing so as two descendants of Adam possibly can undeterred by the trouble at Babel By my count thirty different languages are represented in the bibliography sixteen of them frequently Rarely has any bibliography in any other discipline equalled the thoroughness and accuracy of this one It is a contribution for which Greenfield and Robinson will long receive from their colleagues that measure of gratitude reserved for Old English scholarship s most bounteous treasure givers Carl T Berkhout What astonishes is how well Greenfield and Robinson have succeeded in what they set out to do how uniformly excellent their volume is in all its profusion of information and detail The Bibliography will bring scholars that peculiar joy in complex intellectual work done well that only they know it will be immensely useful virtually indispensable if not a vade mecum because of its size then at least an enchiridion with which they will fight their battles on behalf of Beowulf and Brunanburh and the Blickling Homilies The Old English Newsletter A volume long needed the Bibliography will now become an indispensable reference work for every student of Old English literature from the beginner to the acknowledged authority British Book News      *Languages of the USSR* W. K. Matthews,2013-09-19 Originally published in 1951 this book analyzes the phonology and morphology of the six major language groups most used in the Soviet Union      **Texts and Monographs** ,1940      **The Mappae Mundi of Medieval Iceland** Dale Kedwards,2020 Front cover Contents Illustrations Acknowledgements Abbreviations Introduction Chapter 1 The Icelandic Hemispherical World Maps Chapter 2 The Icelandic Zonal Map Chapter 3 The Two Maps from Vi ey Chapter 4 Iceland in Europe Chapter 5 Forty Icelandic Priests and a Map of the World Conclusion Map Texts and Translations The Icelandic Hemispherical World Maps The Icelandic Zonal Map The Larger Vi ey Map The Smaller Vi ey Map Bibliography Index Studies in Old Norse Literature      **The New Cambridge Bibliography of English Literature: Volume 1, 600-1660** George Watson,Ian Roy Willison,1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the

whole according to a new series of conventions devised to give greater clarity and consistency to the entries The Cambridge Bibliography of English Literature Frederick Wilse Bateson, 1940 Studies in Earlier Old English Prose Paul E. Szarmach, 1986-01-01 Old English prose before the late tenth century is examined in this collection of hitherto unpublished essays Using a variety of techniques the authors explore well known and lesser known texts in search of a better understanding of why how and by whom the manuscripts were produced Part I of the collection contains six studies of Alfredian prose the Soliloquies the Pastoral Care and Consolation of Philosophy all of which are translations traditionally associated with King Alfred Part II contains nine essays on various prose works outside of the Alfredian milieu including the Old English Dialogues the Old English Bede the Chronicle and Laws and various religious works The authors emphasize the importance of a fresh look at Latin backgrounds and sources and the need to return to manuscript evidence for new insights As a group they argue for sympathetic contextual analysis urging scholars in the field to reexamine the prose of the earlier Old English period to find cultural and literary value and significance A bibliographical appendix supplements the Greenfield Robinson bibliography for the period ending in 1982 The contributions in this volume complement the eleven essays found in The Old English Homily and Its Background edited by Paul E Szarmach and Bernard F Huppe also published by SUNY Press
