# The Edge Of The Alphabet

**Janet Frame**

## **The Edge Of The Alphabet:**

**The Edge of the Alphabet** Janet Frame, 2011-07-01      **EDGE OF THE ALPHABET.** JANET. FRAME, 2024      **A**

**Thematic Study of Janet Frame's The Edge of the Alphabet** Phillipa Anne Ballard, 1973      The Edge of the Alphabet, a Novel William J. Cromie, 1962      **Manifold Utopia** Marc Delrez, 2021-10-01

This study of Janet Frame's fiction addresses with unusual directness the Utopian momentum that underpins her concern with fundamental social issues traditionally highlighted in existing criticism of her work. The idea behind this book is that Frame's critique of society while it is offered for its own sake on one level should not lead us to neglect the author's more speculative interest in an alternative conception of the human person. Her engagement in a species of experimental portraiture proves elusive though owing to an indirectness of approach that usually takes the form of thematic circumscription rather than explicit representation. For example the figure of the mute child recurrent in her work may well testify to a concern with the plight of the mentally ill but on another level it also points to an envelope of intractable experience which it is the artist's task to penetrate and explain. Such aspiration is inseparable from the search for a new medium of expression felt to be necessary if one is to meet the challenge of apprehending the scope of pioneering knowledge. This close reading of the novels reveals that the alternative dimension of experience to be found in Frame's novels is characterized by an intact capacity for remembering or for imaginatively re-creating eclipsed aspects of the present. Frame's view of Utopia thus turns out to be manifold: it is existential and ontological, linguistic and epistemological but also historical and political. An unravelling of these intertwined strains then serves to clarify the complex question of Frame's post-colonial sensibility which cannot be said to rely on a sense of rigid identity whether national or otherwise.

**The Unharnessed World** Cindy Gabrielle, 2015-06-18

Though New Zealand author Janet Frame 1924-2004 lived at a time of growing dissatisfaction with European cultural models and though her autobiography, fiction and letters all testify to the fact that a direct encounter between herself and Buddhism occurred, her work has so far never been examined from the vantage point of its indebtedness to Buddhism. It is of the utmost significance however that a Buddhist navigation of Frame's texts should shed fresh light on large segments of the Framean corpus which have tended to remain obdurately mysterious. This includes passages centering on such themes as the existence of a non-dual world or a character's sudden embrace of a non-ego-like self. Of equal significance is the conclusion one then draws that this unharnessed world which human beings are often unable to embrace has always been right under their nose for whenever the aspect of the intellect that filters perceptions into mutually excluding categories fails to function, he or she finds a place of subjective arrival in and sees this supposedly unknowable beyond. Thus possibly against the grain of mainstream criticism, this study argues that Janet Frame constantly seeks ways through which the infinite and the Other can be approached though not corrupted by the perceiving self and that she found in the Buddhist epistemology a pathway towards evoking such alterity.

*Am Rande des Alphabets (The edge of the alphabet, dt.)* Janet Frame, 1963      *The Edge of Meaning* James Boyd

White,2003-04 Certain questions are basic to the human condition how we imagine the world and ourselves and others within it how we confront the constraints of language and the limits of our own minds and how we use imagination to give meaning to past experiences and to shape future ones These are the questions James Boyd White addresses in *The Edge of Meaning* exploring each through its application to great works of Western culture Huckleberry Finn the Odyssey and the paintings of Vermeer among them In doing so White creates a deeply moving and insightful book and presents an inspiring conception of mind language and the essence of living

**Frameworks** ,2009-01-01 Janet Frame s work is notorious for the demands it makes on reader and critic This collection of nine new essays by international Frame specialists draws on a range of critical frameworks to explore fresh ways of looking at Frame s fiction poetry and autobiography At the same time the essays plug into the energy of Frame s work to challenge our thinking within and beyond these frameworks Frameworks offers a unique perspective on Frame studies today showcasing its major concerns as well as heralding new Frame narratives for the decade ahead Mindful of preceding Frame criticism these essays use their contemporary vantage point to recast seminal questions about the relationship between Janet Frame s work and its critical contexts Each of the essays makes a case for framing her work in a particular way but all are characterized by self reflexivity regarding their own critical practice and the relationship they assume between exegetical framework and Frame s work Underlying this practice and contained within the pun of the title are the elementary sounding yet fundamental questions of Frame studies How does Frame s work work And how do we work with her work
