A Textbook of Children's and Young People's Nursing E-Book Edward Alan Glasper, James Richardson, 2010-05-19 This popular textbook is aimed at children's nurses in a wide range of practice settings including primary ambulatory and tertiary care. Covering the full age and specialty spectrum, this text brings together chapters from among the best known children's nurses in the UK. It describes family-centred child healthcare drawing upon practice throughout the UK and further afield. This innovative text provides up-to-date information on a wide range of topics. Each chapter offers readers additional material on Evolve. Full Microsoft PowerPoint presentations that facilitate interactive learning augment the written chapters and provide information not normally possible in a standard textbook, e.g. colour photographs, video clips. Although intended for nurses, the book adopts an interprofessional problem-solving and reflective approach aimed at students, practitioners, and child health educators. Material is offered from levels 1-3 and some of the ancillary material extends into the postgraduate arena. Each chapter offers readers additional material on an Evolve website. Full Microsoft PowerPoint presentations augment the written chapters and provide extra information that includes case studies, moving image photographs, and text. Aims, objectives, learning outcomes, a summary box in each chapter, and key points assist learning and understanding. Professional conversation boxes enliven the text on the page and make it more interesting to dip into. Suggestions for seminar discussion topics to help teachers. Case studies help to relate theory to practice. Prompts to promote reflective practice. Activity boxes suggested visits. Evidence-based practice boxes which highlight key research studies, annotated bibliographies including details of web sites and full contemporary references to the evidence base. Resource lists including recommended web site addresses. New chapter on blood disorders of childhood. New material on caring for young people and transitions in care. More on childhood eczema, childhood and adolescent mental health, solid tumours of childhood.

Behavioral Pediatrics Dennis C. Russo, 2013-06-29 As in any field of clinical or scientific endeavor, a cataloguing of the techniques and findings of behavioral pediatrics must follow shortly after the first few years of systematic work. This book has been designed to serve this initial summary function for the field. It represents a first attempt to bring together in one place the definition and scope of behavioral pediatrics and to outline current research and treatment approaches to various organic disorders, clinical settings, and problem areas in which a sufficient body of knowledge has accrued for authoritative statement. As the first text in a rapidly expanding area, our decisions regarding the topics to be covered and the contributors to this volume were guided by our desire to represent what we would consider to exemplify the field in its early development, pragmatic and thorough study of significant problems from a base of sound

scientific inquiry Each of the topics addressed in the present volume develops in a preliminary fashion an epistemology for current practice and future study All of the contributing authors have been involved in the development of their specialty areas through their research and importantly through their clinical work in the hospitals affiliated with the medical schools in which they hold appointments **The Effects of Hospitalization on Children** Jerome D. Oremland,1973

Perioperative Nursing Linda Shields,Helen Werder,2002-07 The field of perioperative nursing is a fast moving one This comprehensive textbook is aimed at both the qualified or trainee nurse who has specialised or is thinking of specialising in perioperative care The authors and editors are all experienced nurses and nurse educators who aim to provide easy to read and easy to find information about procedures conditions and nursing skills that a newcomer to the field may not be familiar with or with which he or she has only a superficial knowledge Throughout the text much use is made of illustrations tables and boxes of key information and a comprehensive list of references is included at the end of each chapter *Music Therapy with Hospitalized Children* Mary Ann Froehlich,1996
