The Egyptian Army In Politics Pattern For New Nations:

The Egyptian Army in Politics Panayiotis J. Vatikiotis, 1961 The old order is dying rapidly in Arab countries but has not been completely replaced The army has emerged as the most progressive element in Arab society today partially because it is willing to seek empirically rational solutions and to push Arab society into the modern age The revolutionary method of change appears to have been chosen by the army elite in the light of the failure of representative government The new power elite of army officers seems to provide for the first time a basis for political integration and consensus Political life in Egypt will never be as it was prior to taking over power by the army but that the claim of the army officers to be leading a revolution which will completely change Arab political community and society has yet to be proven **The Egyptian Army**

in politics: pattern for new nations? Bloomington, Indiana University Press Panayiotis J. Vatikiotis, **The Egyptian Army and the Muslim Brotherhood** Sara Tonsy, 2021-11-29 This book provides an analysis of the relationship between the Egyptian army and the Muslim Brotherhood MB This is at times of cooperation collaboration rivalry and enmity offering a vivid perspective as to how the similarities of both political actors bring them together after decades of invisible presence in the Egyptian political field Using ethnographic material that includes interviews observations and other forms of expression both political actors common trajectories are analyzed in terms of power dynamics The study allows an insight on the understanding of the differences between madani civil askari military and dini religious how they are used and projected on the Egyptian political field Finally the book provides a dialogue simulation of the discourse of the MB and army starting 2011 while analyzing the meaning of this exchange in terms of symbols power and mobilization In highlighting similar elements to their respective governmentalities this book outlines a new analysis of the rivalry making it an important contribution for scholars and students interested in collective violence civil military relations and political Islam in the Middle East

Endgames Hicham Bou Nassif, 2020-10-01 The 2011 Arab Spring is the story of what happens when autocrats prepare their militaries to thwart coups but unexpectedly face massive popular uprisings instead When demonstrators took to the streets in 2011 some militaries remained loyal to the autocratic regimes some defected whilst others splintered The widespread consequences of this military agency ranged from facilitating transition to democracy to reconfiguring authoritarianism or triggering civil war This study aims to explain the military politics of 2011 Building on interviews with Arab officers extensive fieldwork and archival research as well as hundreds of memoirs published by Arab officers Hicham Bou Nassif shows how divergent combinations of coup proofing tactics accounted for different patterns of military behaviour in 2011 both in Egypt and Syria and across Tunisia and Libya **The Time of the Generals** Frederick M. Nunn, 1992-01-01 The quarter century from 1964 to 1989 was the time of the generals the most clearly defined era of military rule and influence in the history of Latin America The effects of this rule were most evident in Argentina Brazil Peru and Chile where French and German style military professionalism developed into professional militarism Frederick M Nunn shows that the

mentality of Latin American generals is typical of a worldwide military ethos but that its application is unique in the context of individual countries In detailing the pervasiveness of this ethos worldwide Nunn enables a better understanding of the willingness of Latin American military leaders to intervene in government and of their activities once in power **World and Its Peoples** Marshall Cavendish,2006-09 Describes the geography people culture and politics of the countries of the Middle East Central Asia and North Africa **A Brief History of Egypt** Arthur Goldschmidt,2008 Chronicles the history of Egyptian politics economics social and cultural developments from ancient times to the present **The Military and Modernization** Henry Bienen,2017-07-05 There is a growing body of work on the military in developing countries Few studies have explored in depth questions concerning the social origins of officers and enlisted men or trace career patterns within the armed forces of the developing world With the exception of Latin America it has been rare for a study to assess the performance of ruling or non ruling militaries for political development and modernization of their societies This oversight is exactly what Henry Bienen addresses in this collection **CINFAC Bibliographic Review** ,1967 **Triadic Coercion** Wendy Pearlman,Boaz Atzili,2018-10-16 In the post Cold War era states increasingly find themselves in conflicts with nonstate actors Finding it difficult to fight these opponents directly many governments instead target states that harbor or aid nonstate actors using threats and punishment to coerce host states into stopping those groups Wendy Pearlman and Boaz Atzili investigate this strategy which they term triadic coercion They explain why states pursue triadic coercion evaluate the conditions under which it succeeds and demonstrate their arguments across seventy years of Israeli history This rich analysis of the Arab Israeli conflict supplemented with insights from India and Turkey yields surprising findings Traditional discussions of interstate conflict assume that the greater a state s power compared to its opponent the more successful its coercion Turning that logic on its head Pearlman and Atzili show that this strategy can be more effective against a strong host state than a weak one because host regimes need internal cohesion and institutional capacity to move against nonstate actors If triadic coercion is thus likely to fail against weak regimes why do states nevertheless employ it against them Pearlman and Atzili s investigation of Israeli decision making points to the role of strategic culture A state s system of beliefs values and institutionalized practices can encourage coercion as a necessary response even when that policy is prone to backfire A significant contribution to scholarship on deterrence asymmetric conflict and strategic culture Triadic Coercion illuminates an evolving feature of the international security landscape and interrogates assumptions that distort strategic thinking
