The Eloquence Of Frederick Jackson Turner:

The Eloquence of Frederick Jackson Turner Ronald H. Carpenter, 1996-12-12 Eloquence of Frederick Jackson Turner Ronald H. Carpenter, 1983 In reading history people often form attitudes which affect their future actions Historians thus have the opportunity to persuade and influence a wide audience Frederick Jackson Turner was particularly persuasive largely because of his eloquent style This study of Turner s rhetoric reveals the ways in which he influenced a broad spectrum of Americans and the means by which he did so Letters to Turner to his family and other primary source material are analyzed and his oratorical career is also described in detail from his high school experiences to his univ activities The influence of Robert M La Follette is treated in some detail Examples of Turner s oratory includes The Power of the Press

The Eloquence of Frederick Jackson Turner Ronald H. Carpenter, 1983 Frederick Jackson Turner Martin Ridge, 2016-02-26 This book contains four essays by and about Frederick Jackson Turner 1861 1932 the Wisconsin born historian whose ideas and writings have had such a profound impact upon the way Americans view their past and their place in the world It is a book not only for the scholar and teacher who will find it both useful and incisive but also for the mythic general reader who wants to broaden and enrich his acquaintanceship with Turner and the celebrated Frontier Thesis In addition to essays by Turner and by Martin Ridge of The Huntington Library and the late Ray Allen Billington the book is illustrated with photos from the State Historical Society of Wisconsin *Frontiers of Historical Imagination* Kerwin Lee Klein, 2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America s origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein s words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history s shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropol *The Sower and the Seer* Joseph Hogan, Jon Lauck, Paul Murphy, Andrew Seal, Gleaves Whitney, 2021-02-17 This collection of twenty two essays a product of recent revivals of interest in both Midwestern history and intellectual history argues for the contributions of

interior thinkers and ideas in forming an American identity The Midwest has been characterized as a fertile seedbed for the germination of great thinkers but a wasteland for their further growth The Sower and the Seer reveals that representation to be false In fact the region has sustained many innovative minds and been the locus of extraordinary intellectualism It has also been the site of shifting interpretations to some a frontier to others a colonized space a breadbasket a crossroads a heartland As agrarian reformed and Michigander Liberty Hyde Bailey expressed in his 1916 poem Sower and Seer the Midwestern landscape has given rise to significant visionaries just as their knowledge has nourished and shaped the region The essays gathered for this collection examine individual thinkers writers and leaders as well as movements and ideas that shaped the Midwest including rural school consolidation women s literary societies Progressive era urban planning and Midwestern radical liberalism While disparate in subject and style these essays taken together establish the irrefutable significance of the intellectual history of the American Midwest *The 20th Century O-Z* Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography *Discourse and Culture* Alun Munslow, 2013-04-03 Written history is literary artifact taking this as its starting point Discourse and Culture argues that the Foucauldian concept of the shifting scale of linguistic and historic values must be the central focus for a new interpretation of American culture and ideology Six major American historical figures are evaluated as products of the conflict between subordinate and dominant influences in American society steelmaster Andrew Carnegie labour leader Terence V Powderly historian of the West Frederick J Turner social reconstructionist Jane Addams race leader Booker T Washington and black nationalist W E B du Bois Discourse and Culture re assesses the relationship between ideology and cultural formation by asking if cultural change can be explained as a function of discourse The book draws upon the ideas of Althusser Gramsci and Hayden to address this issue which lies at the very heart of contemporary debate on the character of cultural history **Marriage, Violence and the Nation in the American Literary West** William R. Handley, 2002-08-15 In Marriage Violence and the Nation in the American Literary West William R Handley examines literary interpretations of the Western American past Handley argues that although scholarship provides a narrative of western history that counters optimistic story of frontier individualism by focusing on the victims of conquest twentieth century American fiction tells a different story of intra ethnic violence surrounding marriages and families He examines works of historiography as well as writing by Zane Grey Willa Cather Wallace Stegner and Joan Didion among others to argue that these works highlight white Americans anxiety about what happens to American character when

domestic enemies such as Indians and Mormon polygamists against whom the nation had defined itself in the nineteenth century no longer threaten its homes Handley explains that once its enemies are gone imperialism brings violence home in retrospective narratives that allegorise national pasts and futures through intimate relationships *Fifty Key Thinkers on History* Marnie Hughes-Warrington, 2014-09-04 *Fifty Key Thinkers on History* is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker's approach to history and how others have engaged with it a list of their major works and a list of resources for further study
