The End Of Desire:

Celestina and the Ends of Desire E. Michael Gerli, 2011-06-18 One of the most widely read and translated Spanish works in sixteenth century Europe was Fernando de Rojas Celestina a 1499 novel in dialogue about a couple that faces heartbreak and tragedy after being united by the titular brothel madam In Celestina and the Ends of Desire E Michael Gerli illustrates how this work straddles the medieval and the modern in its exploration of changing categories of human desire from the European courtly love tradition to the interpretation of want as an insatiable destructive force Gerli s analysis draws on a wide range of Celestina scholarship but is unique in its use of modern literary and psychoanalytic theory to confront the problematic links between literature and life Explorations of influence of desire on knowledge action and lived experience connect the work to seismic shifts in the culture of early modern Europe Engaging and original Celestina and the Ends of Desire takes a fresh look at the timeless work s widespread appeal and enduring popularity The Middle Works of John Dewey, Volume 14 John Dewey, 2008 **Liberation Theology after the End of History** Daniel Bell, 2006-09-07 Daniel Bell assesses the impact of Christian resistance to capitalism in Latin America and the implications of theological debates that have emerged from this He uses postmodern critical theory to investigate capitalism its effect upon human desire and the Church s response to it in a thorough account of the rise failure and future prospects of Latin American liberation theology The Philosophy of Desire in the Buddhist Pali Canon David Webster, 2004-12-31 David Webster explores the notion of desire as found in the Buddhist Pali Canon Beginning by addressing the idea of a paradox of desire whereby we must desire to end desire the varieties of desire that are articulated in the Pali texts are examined A range of views of desire as found in Western thought are presented as well as Hindu and Jain approaches An exploration of the concept of ditthi view or opinion is also provided exploring the way in which holding views can be seen as analogous to the process of desiring Other subjects investigated include the mind body relationship the range of Pali terms for desire and desire s positive spiritual value A comparative exploration of the various approaches completes the work The Logic of Desire Peter Kalkavage, 2007 The best introduction for the general reader to Georg Wilhelm Friedrich Hegel s Phenomenology of Spirit **The World after the End of the World** Kas Saghafi, 2020-04-01 Examines themes of loss and mourning in the late work of Derrida In this book Kas Saghafi argues that the notion of the end the world in Derrida s late work is not a theological or cosmological matter but a meditation on mourning and the death of the other He examines this and several other tightly knit motifs in Derrida s work mourning survival the phantasm the event and most significantly the term salut which in French means at once greeting and salvation An underlying concern of The World after the End of the World is whether a discourse on salut saving being saved and salvation can be dissociated from discourse on religion Saghafi compares Derrida s thought along these lines with similar concerns of Jean Luc Nancy s Combining analysis of these themes with reflections on personal loss this book maintains that for Derrida salutation greeting and welcoming is resistant to the economy of salvation This

resistance calls for what Derrida refers to as a spectro poetics devoted to and assigned to the other's singularity Saghabi's book makes a remarkable contribution as a coming to terms with interminable mourning Peggy Kamuf author of *To Follow The Wake of Jacques Derrida*

Theology after Postmodernity Tina Beattie, 2013-10-04 Theology after Postmodernity is a ground breaking study that has the capacity to transform the relationship between psychoanalytic theory and Christian theology Reading the theology of Thomas Aquinas in close engagement with the psychoanalytic theory of Jacques Lacan Tina Beattie shows how Thomism exerted a formative influence on Lacan and she also shows how a Lacanian approach can bring rich new insights to Thomas's theology A growing number of English speaking scholars now recognize the extent to which twentieth century French theorists and philosophers were influenced by medieval theology and there have been several studies of Jacques Lacan's Thomism However this is the first study published in English to bring a Lacanian feminist perspective to bear on the theology of Thomas Aquinas Focusing on the centrality of desire in Thomas's theology and Lacan's psychoanalytic theory Beattie follows Lacan along an overgrown and often hidden path through the changing configurations of desire gender and knowledge from their Aristotelian formation in the medieval universities to their fragmentation in the collapse of modernity's visions and values Beattie offers a penetrating critique of Thomas's Aristotelianism but she also excavates the mystical treasures within his theology This enables her to show how Thomas's God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas's *Summa Theologiae* and other writings she brings to light the Other of Thomas's One God an incarnate maternal Trinity who emerges when Thomas's Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations

The Foundations of Character Alexander Faulkner Shand, 1914 A scientific treatment should not diminish but increase the general interest taken in character To bring together the various aspects of the subject which in literature are treated in isolation from one another to lead up to a general conception of it to study the methods by which the knowledge of it may be increased in accuracy and extent these are to make approaches to a scientific treatment of character While I have had chiefly to confine myself to a study of the tendencies of the emotions and sentiments this has been throughout my aim This book then is a study of method Yet I do not claim that this method is essentially new It is in the main the hypothetical method of the sciences it has had to be adapted to the treatment of character that is all A complete science of mind would include a science of character The best approach to such a science is through the study of the primary emotions and their connected instincts This study is to be directed to an analysis of tendencies
