The End of the World Marcia Sa Cavalcante Schuback, Susanna Lindberg, 2017-03-29 The end of the world opens up philosophical questions concerning the very notion of the world which is a fundamental element of all existential phenomenological and hermeneutical philosophy Is the end of the world for us somebody's death the end of being in the world or the extinction of many or of all the end of the world itself Is the erosion of the world a phenomenon that does not in fact affect the notion of the world as a fundamental feature of all existential ontological inquiry This volume examines the present state of these concerns in philosophy film and literature It presents a philosophical hermeneutics of the present state of the world and explores the principal questions of the philosophical accounts of the end of the world such as finality and finitude It also shows how literature and cinema have ventured to express the end of the world while asking if a consequent expression of the end of the world is also an end of its expression

History at the End of the World? History Climate Change and the Possibility of Closure Mark Levene, Robert Johnson, Penny Roberts, 2010-01-01 This collection of essays proposes that climate change means serious peril Our argument however is not about the science per se It is about us our deep and more recent history and how we arrived at this calamitous impasse With contributions from academic activists and independent researchers *History at the End of the World* challenges advocates of business as usual to think again But in its wide ranging assessment of how we transcend the current crisis it also proposes that the human past could be our most powerful resource in the struggle for survival Our approaches begin from archaeology literature religion psychology sociology philosophy of science engineering and sustainable development as well as straight history

apocalypses with wry humour New Scientist Do you feel like we re living in the end times Does it seem like everything is on fire That one disaster follows another Here s some comforting news you re not the first to feel that way If there s one thing that people throughout history have agreed on it s that the end of the world has always been very f cking nigh This book is about the apocalypse and the many ways we ve incorrectly predicted that the world would end From ancient times to the modern day it s a tale of weird cults failed prophets and bored suburbanites waiting for aliens to rescue them plus one very unfortunate chicken But why are we obsessed with a prediction that hasn t ever come true Yet And after 3 000 years of getting it wrong how can we learn to live in a world which feels like it could all burn down tomorrow Praise for the Brief History series Uproarious Abundant good humour The Times Witty entertaining and slightly distressing You should probably read it Sarah Knight author of The Life Changing Magic of Not Giving a F ck Brilliant Utterly utterly brilliant Jeremy Clarkson Very funny Mark Watson Both readable and entertaining Telegraph [The End of the World](#) Otto Friedrich,1982
