Henry Goudemetz

The French Historical Revolution:

The French Historical Revolution Peter Burke, 1990 A remarkable amount of the most innovative significant and lasting historical writing of the twentieth century has been produced in France much of it the work of a group of historians associated with the journal *Annales* Founded in 1929 *Annales* promoted a new kind of history based on three central aims to substitute a problem orientated analytical history for a traditional narrative of events to embrace the history of the whole range of human activities rather than concentrate on political history and in order to achieve the first two aims to collaborate fully with other disciplines notably geography sociology psychology economics linguistics and anthropology The critical history describes analyzes and evaluates the achievements of the *Annales* school combining chronological and thematic approaches The author distinguishes three generations in the history of the *Annales* movement In the first phase from the 1920 s to 1945 the movement was small radical and subverse fighting a guerrilla action against traditional political history and the history of events Its leaders and the founders of *Annales* were Lucien Febvre and Marc Bloch After the Second World War the movement s rebels took over the historical establishment During this second phase which lasted until about 1968 the movement was most nearly a school with distinctive concepts and methods and was presided over by the towering figure of Fernand Braudel The third phase of the movement which continues today is marked by fragmentation Its influence in France had become so great that it lost much of its distinctiveness and no strong figures appeared to give the movement the inspiration and direction that Febvre Bloch and Braudel had provided Some members of the group even returned to political history and to the narrative of events The cycle was complete the rebels became the establishment and were in turn rebelled against

The French Historical Revolution Peter Burke, 2013-04-29 This book provides a critical history of the movement associated with the journal *Annales* from its foundation in 1929 to the present Burke argues that this movement has been the single most important force in the development of what is sometimes called the new history Burke distinguishes three main generations in the development of the *Annales* School The first generation included Lucien Febvre and Marc Bloch who fought against the old historical establishment and founded the journal *Annales* The second generation was dominated by Braudel whose magnificent work on the Mediterranean has become a modern classic The third generation includes well known contemporary historians such as Duby Le Goff and Le Roy Ladurie Wide ranging and yet concise this is an accessible examination of one of the most important historical movements of the twentieth century

The French Historical Revolution Peter Burke, 2015-01-20 This book provides a critical history of the movement associated with the journal *Annales* from its foundation in 1929 to the present This movement has been the single most important force in the development of what is sometimes called the new history Renowned cultural historian Peter Burke distinguishes between four main generations in the development of the *Annales* School The first generation included Lucien Febvre and Marc Bloch who fought against the old historical establishment and founded the journal *Annales* to encourage interdisciplinary collaboration The second

generation was dominated by Fernand Braudel whose magnificent work on the Mediterranean has become a modern classic. The third generation deeply associated with the cultural turn in historical scholarship includes recently well known historians such as Emmanuel Le Roy Ladurie, Jacques Le Goff and Georges Duby. This new edition brings us right up to the present and contemplates the work of a fourth generation including practitioners such as Roger Chartier, Serge Gruzinski and Jacques Revel. This new generation continued much of the cultural focus of the previous Annales historians while diversifying further and becoming increasingly reflexive, a move that owes much to the sociocultural theories of Michel Foucault, Michel de Certeau and Pierre Bourdieu. Wide ranging yet concise, this new edition of a classic work of analysis of one of the most important historical movements of the twentieth century will be welcomed by students of history and other social sciences and by the interested general reader.

Historical Dictionary of the French Revolution Paul R. Hanson, 2015-01-15. The French Revolution remains the most examined event or period in world history. It was most historians would argue the first modern revolution, an event so momentous that it changed the very meaning of the word revolution from restoration as in the Glorious Revolution of 1688 in England to its modern sense of connoting a political and or social upheaval that marks a decisive break with the past, one that moves a society in a forward or progressive direction. No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it. One cannot utter the date 1789 without thinking of revolution and so significant were the changes unleashed in that year that it has come to mark the dividing line between early modern and late modern European history. Kings. This second edition of *Historical Dictionary of the French Revolution* covers its history through a chronology, an introductory essay and an extensive bibliography. The dictionary section has over 400 cross referenced entries on the causes and origins, the roles of significant persons, crucial events and turning points, important institutions and organizations and the economic, social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen. This book is an excellent access point for students, researchers and anyone wanting to know more about this period.
