The Ecosystem Concept In Anthropology:

The Ecosystem Concept In Anthropology Emilio F Moran, Susan H Lees, 2019-09-06 Critics of the ecosystem concept have noted the tendency of ecosystem based studies to overemphasize energy flow to rely on functionalist assumptions to neglect historical and evolutionary factors and to overlook the role of individuals as the locus of natural selection and decision making In this volume leading figures in the study of biological and human ecology evaluate these criticisms and propose ways to advance the state of knowledge in ecological research *The Ecosystem Approach in Anthropology* Emilio F. Moran, 1990 A reassessment of the ecosystem concept for anthropology The Ecosystem Concept in Anthropology EMILIO F. LEES MORAN (SUSAN H.), 2022-06-30 This book uses leading figures in the study of biological and human ecology to evaluate the criticisms and propose ways to advance the state of knowledge in ecological research It examines the loss of explanatory value when the ecosystem concept in anthropology is applied to human systems Humans as Components of Ecosystems Mark J. McDonnell, Steward T.A. Pickett, 2012-12-06 This book a product of the fourth Cary Conference amply demonstrates the achievement of a major goal of all Cary Conferences That is Cary Conferences were conceived to provide a forum for comprehensive discussion of major ecological issues from more philosophical and comprehensive perspectives The Institute of Ecosystem Studies is proud to make its staff and facilities available on a biennial basis for the purpose of initiating and fostering these important discussions On the one hand the influence of humans on ecosystems may be quite obvious such as when a forest is cut On the other humans live within and among ecosystems but ecologists largely have avoided making detailed and rigorous analyses of the more subtle effects that human activities generate Indeed most ecologists have sought out rather pristine or remote areas for study rather than those which include humans This book brings together a stimulating mix of disciplines to highlight and evaluate these problems as well as the opportunities of including humans as integral components in studies of natural ecosystems An exciting dialogue has ensued Hopefully this book will convey some of the excitement and challenges that were generated at this Cary Conference

Integrating Social Sciences with Ecosystem Management H. Ken Cordell, John Clark Bergstrom, 1999 In this book several leading scientists representing a variety of key social sciences describing their discipline and provide guidance for applying the knowledge and method of that science As contributors to this book these scientists were asked to describe the subject matter of their disciplines and the kind of questions they typically address in their research They provide lists of selected references for the reader who wants more information than can be provided in their short book chapters A wide variety of theories concepts measures data collection methods and spatial analysis approaches resides within each to the social science disciplines and authors cover These include for example sociology cultural anthropology resource economics and social psychology **Cattle Bring Us to Our Enemies** J. Terrence McCabe, 2010-02-11 An in depth look at the ecology history and politics of land use among the Turkana pastoral people in Northern Kenya Based on sixteen years of fieldwork

among the pastoral Turkana people McCabe examines how individuals use the land and make decisions about mobility livestock and the use of natural resources in an environment characterized by aridity unpredictability insecurity and violence The Turkana are one of the world's most mobile peoples but understanding why and how they move is a complex task influenced by politics violence historical relations among ethnic groups and the government as well as by the arid land they call home As one of the original members of the South Turkana Ecosystem Project McCabe draws on a wealth of ecological data in his analysis His long standing relationship with four Turkana families personalizes his insights and conclusions inviting readers into the lives of these individuals their families and the way they cope with their environment and political events in daily life J Terrence McCabe is Associate Professor of Anthropology University of Colorado at Boulder [The Household Economy](#) Richard R Wilk, 2019-07-11 This book focuses on the economic decisions that must be made in the household It states that domestic activities are commonly grouped into two primary types one having to do with social reproduction the other with the production and consumption of foods *Natural Resources And People* Kenneth A. Dahlberg, 2019-03-08 In this book the authors provide an up to date assessment of research on human interactions with natural resource systems They pay attention to the interaction between theory and practice by including case studies and detailed examples involving specific natural resource systems *Subsistence and Culture in the Western Canadian Arctic* Matthew W. Betts, 2008-01-01 Through innovative analysis of animal bones recovered from archaeological sites this comprehensive study documents the intricate relationships between the Siglit or Mackenzie Inuit and their food animals from their earliest occupations 800 years ago to the arrival of Europeans in the 19th century This volume chronicles the connections between developing Siglit economies and shifts in technology settlement demography and climate exposing in the process the primary link between Siglit subsistence and culture Published in English **Environmental Integration** Ton Bührs, 2009-04-09 The environmental challenges facing humankind can most effectively be met through environmental integration incorporating environmental considerations into everyday human thinking behavior and practices at both the individual and collective levels Increasingly people and organizations throughout the world are taking the environment into account but at the same time there is insufficient integration of attitudes policies and programs People and groups have different and often conflicting views and interpretations of what is desirable or required to protect the environment Environmental Integration looks at the ways that governments can play a crucial role in advancing promoting and shaping a singular integrated environmental policy
