Mark Owens, Ken Wink, Kenneth Bryant

The Election Of 1980 Reports And Interpretations:

The 1980 Presidential Election Jeffrey D. Howison, 2013-10-23 Ronald Reagan's victory in the 1980 presidential election marked a watershed moment in the history of the United States heralding the triumph of the American conservative movement. Once a supporter of the New Deal, Reagan had come to symbolize the union of three diverse forms of conservatism: anti-communism, social traditionalism, and libertarianism, that were increasingly intertwined under the banner of the Republican Party. The unlikely development of this new conservative coalition was based upon the larger impacts of the civil rights movement in reshaping the dynamics of the Democratic and Republican parties, the social backlash of the Nixon era, the emergence of the religious right, and the economic and political crises that directly set the stage for Reagan's stunning victory. In five original engaging chapters, *The 1980 Presidential Election* shows how Reagan's journey to the White House was connected to the wider transformations of post-1945 American history. Supplemented by a fresh collection of primary documents including previously unpublished transcripts of Reagan's radio addresses of the late 1970s, this book is an ideal introduction to the origins and impact of the American conservative movement.

Historical Dictionary of United States Political Parties Harold F. Bass Jr., 2009-09-01 The constitution that establishes the institutional framework for American national government makes no mention of political parties. Yet for over two centuries political parties have competed in encouraging, organizing, and directing political activity in the United States. This volume compiles entries of concepts, terms, labels, and individuals central to identifying and comprehending these key roles political parties have played in American political life. The second edition of *Historical Dictionary of United States Political Parties* addresses the historical development, organization, operation, and leadership of the parties as well as their broader environment. This is done through a chronology, an introductory essay, appendixes, a bibliography, and over 800 cross-referenced dictionary entries addressing individuals, institutions, and terms.

Parties and Elections in America Sandy L. Maisel, Mark D. Brewer, 2009-11-16 This book covers all elements of parties and the electoral process, including local, state, and national party organizations, American party history, and party systems, state and local nominations, state and local elections, presidential nominations, and presidential elections. Separate chapters are devoted to the important subjects of the media in the electoral process and campaign finance. The role of political parties in representative democracy, and their contributions to it, are examined critically. This post-election update includes complete data from 2008 and an updated chapter on campaign finance.

American Presidential Elections Harvey L. Schantz, 1996-04-25 This book analyzes presidential elections over the sweep of American history, studies the 1992 presidential election, and examines the impact of presidential elections on the U.S. political system and society. It is guided by three basic questions: Are the fifty-two elections in U.S. history a set of discrete events, or are there patterns among them? Are some elections more important than others? And what is their impact on political parties, public policy, and society? The authors compare and contrast presidential elections in order to understand better their

individual dynamics An extensive introduction thoroughly grounds readers in the processes of presidential selection Milton C Cummings Jr charts the dynamics of the 1992 election describes the pattern of the vote and contrasts the outcome with those of 1984 and 1988 Gerald M Pomper analyzes state level presidential election results and evaluates the effectiveness of political parties in the democratic process David R Mayhew tests the link between elections and major policy change looking at the impact of divided government on politics and policymaking at the national level Everett C Ladd analyzes the impact of postindustrial society on parties and the electoral system and Harvey L Schantz examines sectional voting patterns in presidential elections from 1824 to 1992 *The Power of the Presidency* Robert S. Hirschfield, 2017-07-05 The American

presidency is the most powerful political office in the world But this impressive statement serves only to raise a whole series of fundamental questions What is the scope of presidential powers and what are its limits Can the president use all the authority of his office or is that authority more formal than effective Does the presidency have sufficient power to meet today's needs or do the problems of the modern age demand a more powerful executive Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership This book explores such questions by presenting a wide range of views on presidential power from a variety of sources original supporters and opponents of the office presidents themselves Supreme Court decisions and professional students of the presidency **The Changing American Mind** William G. Mayer, 1992 The dynamics of public opinion in America over the last three decades

Winning the Presidency 2008 William J. Crotty, 2015-11-17 The presidential election of 2008 is unique in a history of memorable campaigns for the highest office in the U S Never before has an African American captured the nomination of a major political party Never before have the Republicans nominated a woman for vice president Never before has a woman come so close to capturing the nomination of a major party And with at once one of the oldest and youngest candidates contending for the office never before has the campaign been stretched over such a range of voters and issues Add to that the multiple threats to the U S economy and the longest war the country has ever waged and the electoral context is set This book is the first to describe and assess these monumental developments with original analysis by an all star cast of contributors No other book captures both the range and depth of this one in its early look at the meaning of the most significant election in years one with unprecedented institutional constitutional and policy consequences for all of us

The Catholic Voter in American Politics William B. Prendergast, 1999 Once a keystone of the Democratic Party American Catholics are today helping to put Republicans in office This book traces changes in party allegiance and voting behavior of Catholics in national elections over the course of 150 years and explains why much of the voting bloc that supported John F Kennedy has deserted the Democratic coalition William B Prendergast analyzes the relationship between Catholics and the GOP from the 1840s to 1990s He documents a developing attachment of Catholics to Republican candidates beginning early in this century and shows that before Kennedy Catholics helped elect Eisenhower returned to the polls in support of Nixon

and Reagan and voted for a Republican Congress in 1994 To account for this shifting allegiance Prendergast analyzes transformations in the Catholic population the parties and the political environment He attributes these changes to the Americanization of immigrants the socioeconomic and educational advancement of Catholics and the emergence of new issues He also cites the growth of ecumenicism the influence of Vatican II the abatement of Catholic Protestant hostility and the decline of anti Catholicism in the Republican party Clearly demonstrating a Catholic move toward political independence Prendergast s work reveals both the realignment of voters and the influence of religious beliefs in the political arena Provocative and informative it confirms the opinion of pollsters that no candidate can take the vote of the largest and most diverse religious group in the nation for granted

Battle for the Heart of Texas Mark Owens, Ken Wink, Kenneth Bryant, 2022-08-11 Texas is a solid red state Or trending purple Or soon to be blue One thing is certain as Texas looms ever larger in national politics the makeup of its electorate increasingly matters At a critical moment as migration immigration and a maturing populace alter the state s political landscape this book presents a deeply researched data rich look at who Texas voters are what they want and what it might mean for the future of the Republican and Democratic parties the state and the nation Battle for the Heart of Texas goes beyond the pronouncements of leaders and pundits to reveal voters nuanced opinions about the 2020 Democratic primary candidates state and national Republicans responses to the Covid 19 pandemic and issues such as immigration and gun policy Working with an unprecedented cache of polling figures and qualitative data from surveys and focus groups the product of a cooperative effort between the Dallas Morning News and The University of Texas at Tyler Mark Owens Kenneth A Wink and Kenneth Bryant Jr provide an in depth examination of what is reshaping voter preferences across Texas including the partisan impact of the urbanization and nationalization of state politics Their analyses pinpoint the influence of race media exposure ideological diversity within the parties and geographic variation across the state detailing how Texas politics has changed over time Race may not have typically defined Texas politics for instance but the authors find that rhetoric on policies related to race are now shaping the electorate The diversity in civic engagement among the Latino community also emerges from the data compounded and complicated by the growth of the Latino population of voting age The largest red state in the country with the second largest population Texas is crucial to the way we think about political change in America and this book amply and precisely equips us to understand the bellwether state s changing politics

A Companion to 20th-Century America Stephen J. Whitfield, 2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close

The Election Of 1980 Reports And Interpretations Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**The Election Of 1980 Reports And Interpretations**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
