The Conspiracy to End America Stuart Stevens, 2023-10-10 This is the first must read of the 2024 election cycle if you want to understand the stakes Nicolle Wallace Former chief Republican strategist Lincoln Project adviser and bestselling author of It Was All a Lie Stuart Stevens offers an ominous warning that the GOP is dragging our country toward autocracy and if we don't wake up to the crisis in our system 2024 may well be our last free and fair election Today's Republican party is not a normal political party in the American tradition It has become an autocratic movement masquerading as a political party As Stuart Stevens argues in THE CONSPIRACY TO END AMERICA if we look away from that truth we greatly increase the likelihood that the America we love will slip away never to return Whenever a democracy slides into autocracy there are five critical elements at work financiers propagandists party support legal theories to legitimize and shock troops THE CONSPIRACY TO END AMERICA examines each of these driving forces on the Right and makes clear how they are working in concert to end our democracy as we know

it In the tradition of It Can t Happen Here and On Tyranny THE CONSPIRACY TO END AMERICA is a blinking red distress call about the dark intentions lurking within Stevens old party and a rallying cry to beat back this perilous threat and save the Republic *The Pageant of America, a Pictorial History of the United States* ,1927 *A Grand Strategy for America* Robert J. Art,2013-02-01 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world s preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America s contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America s interests The seven are dominion forcibly trying to remake the world in America s own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country s long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times **Summary of Stuart Stevens's The Conspiracy to End America** Milkyway Media,2024-03-05 Get the Summary of Stuart Stevens s The Conspiracy to End America in 20 minutes Please note This is a summary not the original book The Conspiracy to End America by Stuart Stevens offers an in depth analysis of the transformation of the Republican Party and the role of conservative media in shaping political narratives Stevens a former political consultant reflects on his career and the influence of figures like Roger Ailes who later led Fox News He argues that the Republican Party not just Fox News is responsible for perpetuating falsehoods such as the illegitimacy of Joe Biden s election **Implosion** Joel C. Rosenberg,2012-06-12 Bestselling author and international political expert Joel C Rosenberg tackles the question Is America an empire in decline or a nation poised for an historic renaissance America teeters on a precipice In the midst of financial turmoil political uncertainty declining morality the constant threat of natural disasters and myriad other daunting challenges many wonder what the future holds Will history s greatest democracy stage a miraculous comeback returning to the forefront of the world s economic and spiritual stage Can America s religious past be repeated today with a third Great Awakening Or will the rise of China Russia and other nations coupled with the US s internal struggles send her into a decline from which there can be no return Implosion helps readers understand the economic social and spiritual challenges facing the United States in the 21st century through the lens

of biblical prophecy **Publications of the Modern Language Association of America** Modern Language Association of America, 1929 Vols for 1921-1969 include annual bibliography called 1921-1955 American bibliography 1956-1963 Annual bibliography 1964-1968 MLA international bibliography *The End of Grand Strategy* Simon Reich, Peter Dombrowski, 2018-01-15 In *The End of Grand Strategy* Simon Reich and Peter Dombrowski challenge this common view. They eschew prescription in favour of describing and explaining what America's military actually does. They argue that each presidential administration inevitably resorts to each of the six variants of grand strategy that they implement simultaneously as a result of a series of fundamental recent changes that they term calibrated strategies. Reich and Dombrowski support their controversial argument by examining six major maritime operations stretching from America's shores to every region of the globe. Each of these operations reflects one major variant of strategy. They conclude that grand strategy as we know it is dead.
