Does the book have two narrators as it first appears or one How much is fantasy and how much is reality Whose fantasy and whose reality are they Brian Boyd Nabokov s biographer and hitherto the foremost proponent of the idea that Pale Fire has one narrator John Shade now rejects this position and presents a new and startlingly different solution that will permanently shift the nature of critical debate on the novel Boyd argues that the book does indeed have two narrators Shade and Charles Kinbote but reveals that Kinbote had some strange and highly surprising help in writing his

sections In light of this interpretation Pale Fire now looks distinctly less postmodern and more interesting than ever In presenting his arguments Boyd shows how Nabokov designed Pale Fire for readers to make surprising discoveries on a first reading and even more surprising discoveries on subsequent readings by following carefully prepared clues within the novel Boyd leads the reader step by step through the book gradually revealing the profound relationship between Nabokov s ethics aesthetics epistemology and metaphysics If Nabokov has generously planned the novel to be accessible on a first reading and yet to incorporate successive vistas of surprise Boyd argues it is because he thinks a deep generosity lies behind the inexhaustibility complexity and mystery of the world Boyd also shows how Nabokov s interest in discovery springs in part from his work as a scientist and scholar and draws comparisons between the processes of readerly and scientific discovery This is a profound provocative and compelling reinterpretation of one of the greatest novels of the twentieth century
