## **Situational Morality:**

Situation Ethics Joseph Fletcher, 1997-07-01 Igniting a firestorm of controversy upon its publication in 1966 Joseph Fletcher's Situation Ethics was hailed by many as a much needed reformation of morality and as an invitation to anarchy by others. Proposing an ethic of loving concern, Fletcher suggests that certain acts such as lying, premarital sex, adultery, or even murder might be morally right depending on the circumstances. Hotly debated on television, in magazines, and newspapers in churches and in the classroom, Fletcher's provocative thesis remains a powerful force in contemporary discussions of morality. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field.

**Handbook of Moral Behavior and Development** William M. Kurtines, Jacob Gewirtz, Jacob L. Lamb, 2014-02-04 The publication of this unique three volume set represents the culmination of years of work by a large number of scholars, researchers, and professionals in the field of moral development. The literature on moral behavior and development has grown to the point where it is no longer possible to capture the state of the art in a single volume. This comprehensive multi volume Handbook marks an important transition because it provides evidence that the field has emerged as an area of scholarly activity in its own right. Spanning many professional domains, there is a striking variety of issues and topics surveyed: anthropology, biology, economics, education, philosophy, psychology, psychiatry, sociology, social work, and more. By bringing together work on diverse topics, the editors have fostered a mutually beneficial exchange, not only between alternative approaches and perspectives, but also between applied and pure research interests. The Theory volume presents current and ongoing theoretical advances, focusing on new developments or substantive refinements and revisions to existing theoretical frameworks. The Research volume summarizes and interprets the findings of specific theory driven research programs, reviews research in areas that have generated substantial empirical findings, describes recent developments in research methodology, techniques, and reports research on new and emerging issues. The Application volume describes a diverse array of intervention projects, educational, clinical, organizational, and the like. Each chapter includes a summary report of results and findings, conceptual developments, and emerging issues or topics. Since the contributors to this publication are active theorists, researchers, and practitioners, it may serve to define directions that will shape the emerging literature in the field.

**Politically Correct Moral Autonomy: Christianity Besieged! Stirring the Melting Pot to a Boil** Ferd Wagner,2022-06-15 On what basis should we accept or reject political or social

philosophies that insist human nature human wisdom and human cooperation have the potential to resolve our issues and problems if we buy into the morality espoused by liberal politics and liberal resolutions Should we side with progressives who see most people as good free to self determine their own standards and will do the right thing if given the opportunity Or with the right political and social contracts proposed by the correct party who see the morality of the liberal government as our correct way of achieving peace and prosperity Should Christians have a place at the table The challenge here and in all such debates is what constitutes acceptable moral standards and practices that accurately represent the will of the majority without denying the legal social and moral rights of the minority Then the question becomes how to correctly implement those standards Here each side should be challenged to present evidence and facts that either refute or prove the posited solutions or reforms can be validated by an acceptable objective authority or unbiased source At this point the debate demands proof or corroboration that the authorities being identified are trustworthy and beyond reproach Is the authority a person institution document or charismatic leader and speaker What evidence or past experiences corroborate their integrity and wisdom in dealing with the issue at hand If you combine or spread the authority from the four different entities listed above are you more likely to get subjective solutions based on human nature and human experience or divine solutions based on Christian theology and practice One standard will insist that merit integrity honor and personal accountability is the better way to create more ethical and harmonious relationships while the other looks more towards fairness inclusion and equality as the keys to harmony and prosperity Here is where the rubber hits the road Can any human political party or institution claim superiority over all other authorities If so which one In our system of government a president and in most situations his political party rules the roost for four years Often they dramatically change the moral and ethical atmosphere refuting the direction of the preceding administration Our checks and balances are primarily politically manipulated by the party in power and frequently are more rigged than balanced Should our system be predicated on scriptural truth whose default is ethical accountability across the board or continue down the path where what is politically pragmatic and pluralistic enough to maintain control and power is the default Political correctness cannot please all the people all the time Nothing can Which groups then should get priority the ethical accountable sacrificial individuals and organizations or the self serving you owe me I deserve it groups who feel entitled to special privileges or rights Meritocracy or hypocrisy God s ethics or man s identity politics morality
