Continuous Improvement Practice in Local Government Matthew Pepper, Oriana Milani Price, Arun Elias, 2021-11-29 Local government plays a critical role in the provision of governance infrastructure and services for local communities Over the past 30 years this sector has undergone significant reforms because of various superordinate governments policy changes Continuous improvement and quality programs have been a common tactical response undertaken by various local government organisations to remain sustainable and to continue to deliver value to their local communities These tactical responses have had varying levels of success This book seeks to go beyond a tactical focus and uncover the kinds of continuous improvement practices that are enacted in various local government contexts A focus on practices enables practitioners and researchers alike to gain

insights that to go beyond approaches which privilege the application of CI tools over the contextualisation of CI programs Contextualisation affords the insightful deployment of programs that are specific to the needs and dynamics of local communities and operations The cases presented share insights on aspects of CI including embedding performance measurement harnessing learning contextualising CI activities to support the ongoing sustainability of these practices Researchers and practitioners alike can draw benefit from the grounded industry base experiences and insights shared in the book The Ten Commandments of Lean Six Sigma Jiju Antony,Vijaya Sunder M,Chad Laux,Elizabeth Cudney,2019-11-29 Presented from the perspective of practitioners researchers and academics The Ten Commandments of Lean Six Sigma serves as a practical guide for senior managers and executives who want to achieve operational and service excellence in various manufacturing service and public sector organizations Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome,Michael Twum-Darko,Cyril Ogbokor,Nyaniso Mfusi Zonke,T. Sethibe,R. Steyn,Esme Mohammed,Renier Steyn,L.B. Nguenang,Mamorena Lucia Matsoso,Henry N. Ozuru,Julius Akaba,Patience Rambe,Edem Korku Agbobli,Henri-Vincent Ndjave-Ndjoy,Regis Muchemwa,Andre de la Harpe,Konosoang Mpiti,Ayodeji Afolayan,2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies

for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment
