known as the Florentine Codex 1575-1577. Now housed in the Biblioteca Medicea Laurenziana in Florence and bound in three lavishly illustrated volumes, the codex is a remarkable product of cultural exchange in the early Americas. In this edited volume, experts from multiple disciplines analyze the manuscript's bilingual texts and more than 2,000 painted images and offer fascinating new insights on its twelve books. The contributors examine the three texts of the codex: the original Nahuatl, its translation into Spanish, and its painted images. Together, these constitute complementary as well as conflicting voices of an extended dialogue that occurred in and around Mexico City. The volume's chapters address a range of subjects from Nahua sacred beliefs, moral discourse, and natural history to the Florentine artists' models and the manuscript's reception in Europe. The Florentine Codex ultimately yields new perspectives on the Nahua world several decades after the fall of the Aztec empire.

A Guide to Mexican Art Justino Fernández, 1969-08-15. A Guide to Mexican Art, a survey of more than twenty centuries of art, has a double purpose. It provides an ample version of one of the great national arts by a leading art historian and it serves simultaneously as a practical guide to the art's outstanding masterpieces. The Guide will thus be of value to specialists and students of Latin American art and to sightseers as an introduction and guide to the art and architecture of Mexico. To facilitate its use for the latter purpose, Professor Fernández has based his exposition on the sensitive analysis of works to be found almost exclusively in museums and public buildings accessible to the tourist. The book was originally published in Spanish in 1958 and revised in 1961. This English translation from the second edition has been brought up to date by the author and translator.
