Strategic Management In Nonprofit Organizations:

Strategic Management in Nonprofit Organizations William A. Brown, 2014-03-11 Nonprofit organizations are complex and distinctive organizational entities. The literature of strategic management poses some interesting challenges and is only partially developed to inform decision making for nonprofit managers. *Strategic Management in Nonprofit Organizations* uses a strategic management framework to consider key decisions that nonprofit managers and volunteer leaders confront as they plan and work to position their organizations for optimal success. **Key Features:** Fills a gap in the current literature by providing a thorough examination of management and planning issues experienced by nonprofit managers including challenges such as muted markets and specific performance expectations. Blends together theoretical, empirical, and normative literature with descriptive stories of managing in the sector. Suggests some optimal practices for managers who want to strengthen their organizations. Perfect for graduate students in nonprofit management programs. Supported by a complete package of instructor ancillary materials including an Instructor's Manual, PowerPoints, and Test Bank. Contents: Chapter 1 Nature of Nonprofit Organizations, Chapter 2 Framing Strategic Choices, Chapter 3 External Environment, Chapter 4 Internal Capabilities, Chapter 5 Public Benefit Strategies, Chapter 6 Analysis of the Task Environment, Chapter 7 Corporate Strategy Structures and Planning, Chapter 8 Service Strategies, Chapter 9 Social and Political Strategies, Chapter 10 Financial Resource Strategies, Chapter 11 Inter-Organizational Relationships, Chapter 12 Strategic Leadership.

Strategic Management for Nonprofit Organizations Sharon M. Oster, 1995 *Strategic Management for Nonprofit Organizations* applies powerful concepts of strategic management developed originally in the for-profit sector to the management of nonprofits. It describes the preparation of a strategic plan consistent with the resources available, analyzes the operational tasks in executing the plan, and describes the ways in which nonprofits need to change in order to remain competitive. Drawing on literature in the fields of economics, management, accounting, and organizational theory, Sharon Oster explores a wide range of topics including a discussion of the role and mission of the nonprofit, from fund raising to accounting and from evaluation to the treatment of volunteers and the board of directors. Examples are taken from all parts of the nonprofit arena, including the arts, health care, education, social services, foundations, and economic development. This is the first book to bring modern strategic management concepts to the problems of managing nonprofit organizations. It draws clear distinctions between the different industries and offers practical solutions to the challenges confronting managers of nonprofits.
