Marketing Michael John Baker,2001 **Operations Management** Michael Lewis,Nigel Slack,2003 Marketing : critical perspectives on business and management. 4 Michael J. Baker,2001 **Marketing : critical perspectives on business and management.** 5 Michael J. Baker,2001 *Corporate Management of Diversified Companies - Information Demand and Information Processing* Nicolas Rabener,2005-08-18 Inhaltsangabe Abstract The ultimate management challenge is said to be the management of a conglomerate Diversified companies especially conglomerates are complex organisations that in the larger cases resemble full blown economies rather than firms They develop internal capital markets with billion dollar budgets enormous internal labour markets and often a decent amount of bureaucracy The International Telephone and Telegraph Corporation ITT owned more than 150 businesses in the 1960s ranging from electronics to insurance companies with operations across the globe The architect of ITT Harold Greene once acquired 20 unrelated business in a single month and was strongly convinced that sound management principles could be applied to any type of business He believed that information was key to good management During his reign earnings increased a 100 consecutive quarters and seemed to support this management belief In the late 1960s earnings did not increase any longer and the stock price lost significantly in value By the early 1980s the company was already heavily involved in deconglomeration and had divested more than a 100 businesses ITT was not the only diversified company in the 1980s that was on the search for focus

The conglomerate strategy went out of fashion with investors due to poor performance associated with this strategy. The result was a conglomerate discount of an average 15 percent on the stock market that persists until today. Despite this investor aversion, some companies continued the conglomerate path and managed to be highly successful at the same time. General Electric has a broad product portfolio which contains electronics and insurance businesses too and is currently the most valuable company in the world in terms of market capitalisation. Warren Buffett's Berkshire Hathaway, Citigroup or Virgin are diversified as well and have created substantial value for their owners. These and other successful diversifiers have mastered managing the diversified company. Diversification has been studied in strategic management, finance, economics, organisations theory and other subjects. Each of these subjects views the duties of corporate management of a diversified company slightly differently. Combining the views yields an integrated approach for managing a diversified company. First is the management of the corporate portfolio that includes a selection of businesses that are desired and a continuous

Critical Perspectives on Innovation Management Patryk Dziurski, 2021-11-28. Most firms perceive innovation as the best way to grow. However, how it can best be managed is still unclear. While the number of publications on innovation has skyrocketed over the past two decades, it is still increasingly difficult to gain an overview of its most critical aspects. Much has been written about the possible benefits of innovation, but there is still a lack of understanding of its downsides at the innovative firm level. This can lead to detrimental effects such as a lower commitment to innovation, a lack of effective innovation strategy, inappropriate organizational design that does not enhance innovation, and either a too cautious or too risky approach to innovation. Thus, the book aims to explore the concept of innovation management as well as to identify the bright and dark sides of innovation in innovative firms. A better understanding of the positive and negative effects of product and process innovation expands the knowledge base on innovation management and allows managers to manage innovation in a more efficient and effective manner. This book will be valuable to researchers, academics, managers, and advanced students in the fields of management studies, strategy, and organizational studies. Collaborative Strategy Luiz F.

Mesquita, Roberto Ragozzino, Jeffrey J. Reuer, 2017. This book provides approachable and insightful chapters that summarize state of the art thinking and research on alliances and networks. Contributions by leading scholars cover foundations or
